Managing Today's Church:

Managing Today's Church, 1981 Managing Today's News Media Samir Husni, Debora Halpern Wenger, Hank Price, 2015-07-29 The business of journalism is in the midst of massive change Managing Today's News Media Audience First offers practical solutions on how to cope with and adapt to the evolving media landscape News media experts Samir Husni Debora Halpern Wenger and Hank Price introduce a forward looking framework for understanding why change is occurring and what it means to the business of journalism Central to this new paradigm is a focus on the audience The authors introduce The 4Cs Strategy to describe how customers control choice and change are all part of a strategy for successful media organizations Every chapter in the book relates to one or more of these four key principles Customer Each platform must offer a unique experience to the customer Choice The audience has more options than ever and news organizations must work harder to be the preferred choice Control Sharing power and control with the audience is now a necessary part of running a successful news operation Change Companies can manage change through adaptation Real world case studies important theoretical grounding and a focus on understanding rather than resisting the customer's desire for choice and control make this an unbeatable resource for students and managers alike who want to succeed in this changed media business landscape *Being the Body of Christ in the Age of Management* The Rev'd Lyndon Shakespeare, 2016-08-26 The church needs effective leaders We must be more missional Better organization is required Such sentiments are commonplace among Christians concerned with the health and sustainability of their local church as well as the church universal Over the past thirty years the desire for more efficiently run effectively led and organizationally sound churches has contributed to an approach to thinking about the church in terms uncritically assumed from the business and management sector This has given rise to treating the church as if it were just another social body in need of better organization The question is what happens when we apply the logic of management techniques to an organization that identifies as the body of Christ Drawing on organizational theory theological anthropology and sacramental theology this book navigates a path for Christians that avoids reducing the church to just another organization while providing a vision for the church as the social body where all are invited to connect and be made members of Christ and each other Such a vision provides an alternative to the social categorization that would define the church by its organizational character rather than its eschatological destiny

Barnabas and Peter and with his mission churches like those in Galatia and Corinth Conflict Management and the Apostle Paul distinctively sketches how various theories of conflict management used today shed light on Paul's own approaches to conflict while also evaluating the conflicts themselves The authors in this volume are pastors and church workers who themselves bring their own experiences with conflict into play as they seek wisdom from the New Testament
