Ola-Buraimo,2011-04-12 The analytical views in this book are not in any way serendipity rather they were well thought out and structured as simply received Thus arises the need to initiatively look back at the epoch of our existence on Earth as preceded by the following survival of the fittest search for food where to live sacrifices and rituals to appeal to God brutalism against one another religious sect formation and deforestation due to uncontrollable population increase Improvisation of wooden houses trees of concrete iron and steel have been initiated but in a way they have continually caused global warming to increase very much at a gradual pace as civilization advances through Machine Age mechanized farming industrialization and technological advancements space exploration and globalization of industries and corporate organizations The heat increases at an unusual unprecedented level due to greenhouse gas emission and thus the assumed greenhouse releases a light weight carbon dioxide CO₂ gas into the atmosphere which is speculated to have formed impenetrable blanket The presence of CO₂ is an indicator pointing to a fact that this gas in question had been released in the past and is presently being discharged uncontrollably More so there seems to be no end in sight as the CO₂ continues to be sporadically expunged into the atmosphere The process described above has continued to be expanding through all frontiers with no end in sight where new neighborhoods are being built Suburbs margining together as new Castles are evolving block by block and concrete plazas are enveloping the Earth so are the vegetative forest of trees are disappearing causing global warming to increase exponentially The increase becomes very much intense at an alarming rate in that it has now been considered to be adversely effective when found to be dangerously impacting the essence and every facet of life Analytical research is hereby required to be conducted by the world s best researchers and scientists in their respective professional fields Necessary wisdom of advice has to be forwarded by religious leaders of all known notable reliable religious groups or denominations Leaders and heads of governments of all Nations that control every facet of life in every part of the globe must guide and monitor purposely to do proper checks and balances with intuition ideology predictions and prophecies contained in this book The Land the Orchard of Human Species This is to determine the level of damages caused by humanity thereby putting the Earth s conditions into a scale of ratio prior to civilization and as civilization progresses i e the condition of the Earth from time immemorial as the scientists and archaeologists can determine through lists of records and documentaries Precisely from premedieval periods to present days and age while projecting into

the future of the planet Earth in order for us to be just and find peace among ourselves and on Earth If humanity cannot find peace on Earth then we cannot find peace elsewhere because human s trait is like a shadow that trails behind you when you take a walk in the light Source of all lives and the means of energy and growth
