Ragain, 2021-01-12 *Domesticating the Invisible* examines how postwar notions of form developed in response to newly perceived environmental threats in turn inspiring artists to model plastic composition on natural systems often invisible to the human eye Melissa S. Ragain focuses on the history of art education in Cambridge Massachusetts to understand how an environmental approach to form inspired new art programs at Harvard and MIT As they embraced scientific theories of composition these institutions also cultivated young artists as environmental agents who could influence urban design and contribute to an ecologically sensitive public sphere Ragain combines institutional and intellectual histories to map how the emergency of environmental crisis altered foundational modernist assumptions about form transforming questions about aesthetic judgment into questions about an ethical relationship to the environment **To Dance is Human** Judith Lynne Hanna, 1987-09-15 Exploring dance from the rural villages of Africa to the stages of Lincoln Center Judith Lynne Hanna shows that it is as human to dance as it is to learn to build or to fight Dance is human thought and feeling expressed through the body it is at once organized physical movement language and a system of rules appropriate in different social situations Hanna offers a theory of dance drawing on work in anthropology semiotics sociology communications folklore political science religion and psychology as well as the visual and performing arts A new preface provides commentary on recent developments in dance research and an updated bibliography **Mainland China** Yu-ming Shaw, 2019-04-05 Over the past several years Mainland China has undertaken reforms in various domestic areas including culture and society education the economy and the Communist Party In addition since September 1982 Peking has begun to pursue an independent course in foreign relations In this volume based on the Thirteenth Sino American Conference in Tai

I Think I Am a Verb Thomas A. Sebeok, 2013-11-11 My writing career has been at least in this one respect idiosyncratic it had to mark and chart step by step its own peculiar campaign My earliest papers beginning in 1942 were technical articles in this or that domain of Uralic linguistics ethnography and folklore with a sprinkling of contributions to North and South American linguistics In 1954 my name became fecklessly associated with psycholinguistics then successively with explorations in mythology religious studies and stylistic problems It now takes special effort for me to even revive the circumstances under which I came to publish in 1955 a hefty tome on the supernatural another in 1958 on games and yet another in 1961 utilizing a computer for extensive sorting of literary information By 1962 I had edged my way into animal communication studies Two years after that I first whiffled through what Gavin Ewart evocatively called the tulgey wood of semiotics In 1966 I published three books which temporarily bluffed some of my friends into conjecturing that I was about to metamorphose into a historiographer of linguistics The topmost layer in my scholarly stratification dates from 1976 when I started to compile what eventually became my semiotic tetralogy of which this volume may supposedly be the last In the language of Jabberwocky the word tulgey is said to connote variability and evasiveness This notwithstanding the allusion seems to me apt

The Ibsen Cycle Brian Johnston, 1992 Attempting no less a task than to demonstrate that Ibsen planned his last twelve plays beginning with Pillars of Society as a cycle paralleling exactly Hegel's account of the evolution of the human consciousness The Phenomenology of Mind Johnston offers a fresh look at the Norwegian master Although there is little specific biographical data in support of the author's thesis he argues compellingly for it in his analysis of the

texts themselves After discussing Hegel's dramatic method of exposition and Ibsen's philosophy Johnston examines each of the twelve plays in considerable detail Provocative and sophisticated in its approach this volume should be widely available to scholars and advanced students of modern drama Library Journal Song and Circumstance Sytze Steenstra, 2010-03-30 For over three decades now David Byrne has been a leading light in American culture in popular music experimental theatre film television fine art and writing Based on the cultural capital he gained with his groundbreaking band Talking Heads Byrne is able to enter into collaborations with many artists some of popular fame Brian Eno and Jonathan Demme for example and others known best in more specialized circles such as Joseph Kosuth Twyla Tharp and Caetano Veloso The map of Byrne's collaborations including the casual and incidental ones reveals an ongoing effort to combine avant-gardism with popular appeal This highly original and illustrated account of David Byrne's career is structured by choosing a specific abstract approach or a combination of two approaches for each chapter discussing the parallels and contradictions between such approaches to benefit the interpretation of Byrne's art As a result the fertile conceptual brew that characterizes Byrne's way of making art is present from the beginning while each chapter adds to thorough insight and developing perspective

Kubrick's Hope Julian Rice, 2008-09-29 There have been two common assumptions about Stanley Kubrick that his films portray human beings who are driven exclusively by aggression and greed and that he pessimistically rejected meaning in a contingent postmodern world However as Kubrick himself remarked A work of art should be always exhilarating and never depressing whatever its subject matter may be In this new interpretation of Kubrick's films Julian Rice suggests that the director's work had a more positive outlook than most people credit him And while other studies have recounted Kubrick's life and production histories few have offered lucid explanations of specific sources and their influence on his films In Kubrick's Hope Rice explains how the theories of Freud and Jung took cinematic form and also considers the significant impression left on the director's last six films by Robert Ardrey Bruno Bettelheim and Joseph Campbell In addition to providing useful contexts Rice offers close readings of the films inviting readers to note details they may have missed and to interpret them in their own way By refreshing their experience of the films and discarding postmodern clichés viewers may discover more optimistic themes in the director's works Beginning with 2001 A Space Odyssey and continuing through A Clockwork Orange Barry Lyndon The Shining Full Metal Jacket and Eyes Wide Shut Rice illuminates Kubrick's thinking at the time he made each film Throughout Rice examines the compelling political psychological and spiritual issues the director raises As this book contends if these works are considered together and repeatedly re-viewed Kubrick's films may help viewers to personally grow and collectively endure **Michel Foucault** Barry Smart, 1994 **The World, the Text, and the Critic** Edward W. Said, 2025-10-21 A sweeping and intellectually rigorous work of literary criticism that moves the field forward from one of the preeminent public scholars Said's book is relaxed and discursive original immensely learned fluently written John Bayley The New York Times Book Review Edward W. Said author of Beginnings and the controversial yet seminal

Orientalism is one of the most acclaimed public intellectuals of our time In this sweeping and rigorous work of literary criticism he pushes the field even further forward Moving from Derrida to Foucault from Marxism to psychoanalysis and from Swift to Conrad Said argues that the dogmas of the dominant culture have crippled our engagement with literature forcing a text to meet the requirements of theory while ignoring the tethers that bind it to the living world Provocatively Said advocates for freedom of consciousness and for responsiveness to history to the exigencies of the text to political social and human values and to the heterogeneity of human experience The World the Text and the Critic asks daring questions investigates problems of urgent significance and gives a subtle yet powerful new meaning to the enterprise of criticism in modern society
