## **Mariners Are Warned John Lort Stokes And H M S Beagle In Australia 1837 1843:**

*Mariners Are Warned!* Marsden Hordern, 2013-05-31 John Lort Stokes was commissioned by the British Hydrographic Office in 1837 to survey and chart unknown parts of the Australian coastline. He was the last Royal Navy surveyor to hold such a roving commission as had Matthew Flinders and Phillip Parker King before him. The voyage lasted six years and his ship was H M S Beagle of Charles Darwin fame. Stokes circumnavigated Australia twice. In the north he discovered the Fitzroy, Albert and Flinders rivers and Port Darwin and in the south charted that graveyard of sailing ships, Bass Strait. A century later twelve of his charts were still in use. The occasional breathtaking foolhardiness of this earnest and conscientious man startles the reader as it must have done his men. On a whim Stokes twice risked drowning himself and others with him and he made several daredevil escapes from crocodiles. The stories are gripping and Marsden Hordern is a gifted and vigorous storyteller. He is ably assisted by the ship's mate Helpman, a chatty witty chronicler. *Mariners are Warned* is an engrossing biography written with empathy by a fellow mariner. Winner of the Age Book of the Year, Victorian Premier's Literary Award, A.A. Phillips Award for Australian Studies, Braille Book of the Year, Australian Maritime History Prize. Companion volume to *King of the Australian Coast*, another prize-winning maritime biography by the same author. **The A to Z of the Discovery and Exploration of Australia** Alan Day, 2009-06-19 This engaging reference examines the history of the search for and the discovery of Australia, taking full account of the evidence for and the speculation surrounding possible earlier contacts by the Ancient Egyptians, Arabs and Chinese seamen. Day brings the expeditions to life, expressing the desires that drove great sea captains deeper into turbulent waters searching for caches of spice, silks and precious metals. Covers a wide variety of topics including Seamen from eight nations, The recovery of storm-wrecked ships, Diplomatic treaties, Priority of discovery, disputes, Military and civil explorers and surveyors, Topographical features, Geographical terms and places, Rivers and river system. **Australia Circumnavigated. The Voyage of Matthew Flinders in HMS Investigator, 1801-1803 / Volume II** Kenneth Morgan, 2020-02-06 This two-volume work provides the first edited publication of Matthew Flinders's fair journals from the circumnavigation of Australia in 1801-1803 in HMS Investigator and of the Memoir he wrote to accompany his journals and charts. These are among the most important primary texts in Australian maritime history and European voyaging in the Pacific. Flinders was the first explorer to circumnavigate Australia. He was also largely responsible for giving Australia its name. His voyage was supported by the Admiralty, the Navy Board, the East India Company and the patronage of Sir Joseph Banks, President of the Royal Society. Banks ensured that the Investigator expedition included scientific gentlemen to document Australia's flora, fauna, geology and landscape features. The botanist Robert Brown, botanical painter Ferdinand Bauer, landscape artist William Westall and the gardener Peter Good were all members of the voyage. After landfall at Cape Leeuwin, Flinders sailed anti-clockwise round the whole continent, returning to Port Jackson when the ship became unseaworthy. After a series of misfortunes, including a shipwreck and a long detention at the Ile de France (now Mauritius).

Flinders returned to England in 1810 He devoted the last four years of his life to preparing *A Voyage to Terra Australis* published in two volumes and an atlas Flinders died on 19 July 1814 at the age of forty The fair journals edited here comprise a daily log with full nautical information and remarks on the coastal landscape the achievements of previous navigators in Australian waters encounters with Aborigines and Macassan trepangers naval routines scientific findings and Flinders s surveying and charting The journals also include instructions for the voyage and some additional correspondence The Memoir explains Flinders methodology in compiling his journals and charts and the purpose and content of his surveys

**Pacific Empires** Frost, Alan, Samson, Jane, 2015-09-08 A new interest in European maritime exploration was aroused with the publication of the first volume of J C Beaglehole's edition of The Journals of Captain James Cook in 1955 In the forty odd years since then our knowledge of this exploration and of the imperialism of which it was a part has expanded enormously We now recognise that the scientific endeavours once seen as disinterested manifestations of the Enlightenment actually had both strategic and commercial implications And today much greater emphasis is given to the meanings of early encounters for both the Natives of the Pacific islands and the Strangers from a European world Glyndwr Williams has played a leading role in the
