Mario Giacomelli Evoking Shadow:

Evoking shadow Sandro Genovali, 2002 Mother water land home these are the cornerstones of Mario Giacomelli's poetic imagery as microscopically observed and recounted by Sandro Genovali the photographer's student and friend *Evoking Shadows* reveals surprising analogies between the photographer and Federico Fellini and explores in a warm hearted and engrossing essay the stories of Giacomelli's most famous pictures *The Courage to be Alone* Lóránd Hegyi, 2004 The essays gathered in this book are the result of an historical anthropological observation after the crisis in narration carefully analyzed in the recent past by François Lyotard we confront ourselves today with the tendency in contemporary artistic creation characterized by expression of discourse re-invention efforts In fact artists through their work concentrate on the real experience of their own personal history contextualizing it in historical cultural and social situations All the examples presented in this book are the product of an anthropological outlook on man and raise the reader's awareness of the micro community experiences that are nothing but the reflection of micro utopias born from the absence of the great teleological utopias *The Concise Focal Encyclopedia of Photography* Michael Peres, 2014-06-20 Defining photography is impossible Revealing it is another matter and that's what *The Concise Focal Encyclopedia of Photography* does with each turn of the page History The technical origins and evolution of photography are half of the story The other half consists of the ways that cultural forces have transformed photography into a constellation of practices more diverse than any other mode of representation Photographers can tell a more in depth story through a photo like Dorothea Lange's *Migrant Mother* than a journalist ever could with the written word alone Major themes and practitioners Over 25 entries many with supporting illustrations examine the figures trends and ideas that have contributed most heavily to the history and current state of photography Contemporary issues The issues influencing photography today are more complex than at any other time in its history Questions of ethics desire perception digitization and commercialization all vie for attention Hear what the experts have to say about crucial issues such as whether or not the images we take today will last the test of time and if so how When material is covered this skillfully concise is no compromise *The Concise Focal Encyclopedia of Photography* is packed with useful information compelling ideas and best of all pure pleasure *Parola d'artista* Giovanni M. Accame, 2007
