## **Mark Of A Killer:**

**The Mark Of A Murderer** Susanna Gregory, 2010-12-02 For the twentieth anniversary of the start of the Matthew Bartholomew series Sphere is delighted to reissue all of the medieval monk's cases with beautiful new series style covers The winter of 1353 has been appallingly wet there is a fever outbreak amongst the poorer townspeople and the country is not yet fully recovered from the aftermath of the plague The increasing reputation and wealth of the Cambridge colleges are causing dangerous tensions between the town Church and University Matthew Bartholomew is called to look into the deaths of three members of the University of who died from drinking poisoned wine and soon he stumbles upon criminal activities that implicate his relatives friends and colleagues so he must solve the case before matters in the town get out of hand On St Scholastica's Day in February 1355 Oxford explodes in one of the most serious riots of its turbulent history Fearing for their lives the scholars flee the city and some choose the University at Cambridge as their temporary refuge However they don't remain safe for long Within hours of their arrival the first of their number dies followed quickly by a second When Bartholomew and Brother Michael begin to investigate the deaths they uncover evidence that the Oxford riot was not a case of random violence but part of a carefully orchestrated plot With the Archbishop of Canterbury about to honour Cambridge with a Visitation and a close colleague accused of a series of murders Bartholomew is certain he didn't commit the race is on to solve the riddles and bring a ruthless killer to justice

**Offender Profiling in the Courtroom** Norbert Ebisike, 2008-09-30 Offender profiling is mainly used by the police to narrow down suspects in cases where no physical evidence was left at a crime scene Recently however this technique has been introduced into the courtroom as evidence raising questions of its reliability validity and admissibility at trial Because

offender profiling was not originally intended to be used in the courtroom its entrance there has caused both confusion and controversy Offender Profiling in the Courtroom discusses the use of profiling evidence in criminal trials Ebisike also covers the history development approaches to and the legal aspects of this crime investigation technique Several serial crime cases where investigators used offender profiling during the criminal proceedings are discussed including the case of the New York Mad Bomber George Metesky who caused thirty two bomb explosions in New York City between 1940 and 1956 and the case of Albert DeSalvo known as the Boston Strangler who carried out several sexually motivated murders in Boston Massachusetts between 1962 and 1964 Ebisike demystifies offender profiling and raises awareness about the successes and the pitfalls of the process and its use at trial Offender profiling is a crime investigation technique where information gathered from the crime scene witnesses victims if alive autopsy reports and information about an offender s behavior is used to draw up a profile of the sort of person likely to commit such crime Offender profiling does not point to a specific offender It is based instead on the probability that someone with certain characteristics is likely to have committed a certain type of crime In spite of the ever increasing media interest in the use of offender profiling in criminal trials this technique is still not well understood by many people including judges lawyers and jurors who weigh such evidence at trial Some people see offender profiling as a tried and true method of identifying suspects and others simply see it as a fiction Here the author helps readers understand the true nature of offender profiling and the danger of its admission into criminal cases as evidence
