Mission A Practical Approach To Church Sponsored Mission Work:

Mission, 1978 **Mission Theology: 1948-1975 Years of Worldwide Creative Tension** Rodger

Bassham, 2002-08-19 This volume seeks to be both fair and comprehensive Its critical insights do not prevent the endorsement of an ecumenical latitude consistent with our biblical faith It was written for those who are determined to listen and learn from all whom God has manifestly received and called to holistic mission in today s world Arthur Glasser Professor Fuller Theological Seminary Bassham s comprehensive study of developments in mission theology between 1948 and 1975 is the most thorough and reliable work available on the subject The book is invaluable for an understanding of the crucial issues in world mission during this turbulent period Gerald Anderson Director Overseas Ministries Study Center Bassham has written what ought to become the standard textbook for those seeking to acquire a comprehensive long range perspective on developments in missiology in recent decades Delightfully clear and simple without being simplistic the book shows the remarkable convergence of the main streams of missiological thinking Al Krass Editor The Other Side Literacy, Bible Reading, and Church Growth Through the Ages Morris G. Watkins, 1978-06-01 The story of Christianity from apostolic times to the present reveals that in virtually every country of the world a Bible reading laity was an important factor in the growth of the church both numerically and spiritually The importance of the Bible in actual history is a challenge to the church today *Planning Strategies for World Evangelization* Edward R. Dayton, David A. Fraser, 2003-12-24 We believe God has given his church some new insights into how to think about reaching the hidden and unreached peoples That is what this book is about **A People Reborn** Christian Keysser, 1980-06-01 Written by a Lutheran missionary with 21 years of experience in New Guinea this book describes how a primitive tribe was transformed into a functioning Christian congregation The author brings together anthropology and biblical theology in providing insights into church growth and proposing an effective model of a people reborn **Mission** Carlos F. Cardoza-Orlandi, 2002-06-01 Mission has become for many North American Christians an ambiguous and often uncomfortable term To many it brings to mind a past in which western culture was identified with the gospel in missionary practice and programs Distressed with this history and uncertain about how to overcome it many prefer to ignore the New Testament mandate that the church must be in mission if it is to be the church Others swing the other way declaring that everything the church does is mission depriving the idea of mission of its power to define those specific actions of God which proclaim the gospel and build God s kingdom The church exists by missions just as fire exists by burning With these words of Emil Brunner the author reminds us that to be the church is to be in mission After describing the various captivities of mission which plague North American Christianity the author argues for a robust and engaged practice of mission beginning in congregations and extending to the broader community

The Christian World Mission J. Herbert Kane, 1981 **Publishers' Trade List Annual, 1980** Bobbs-Merrill

Educational Co, 1980 **The Practice of Mission in Global Methodism** David W. Scott, Darryl W. Stephens, 2021-04-19

This book brings together Methodist scholars and reflective practitioners from around the world to consider how emerging practices of mission and evangelism shape contemporary theologies of mission. Engaging contemporary issues including migration, nationalism, climate change, postcolonial contexts, and the growth of the Methodist church in the Global South, this book examines multiple forms of mission, including evangelism, education, health, and ministries of compassion. A global group of contributors discusses mission as no longer primarily a Western activity but an enterprise of the entire church throughout the world. This volume will be of interest to researchers studying missiology, evangelism, global Christianity, and Methodism, and to students of Methodism and mission.

Book jacket Pauline Theology and Mission Practice Dean S. Gilliland, 1996-08-01 Not since Roland Allen's book in 1912 has there appeared such a thorough study of the Apostle Paul's mission theology and methodology. The value of this comprehensive survey, writes Harry R. Boer in the foreword, lies in part in its grounding in careful expository studies of Paul's ministry as revealed in Acts and in the corpus of the Pauline epistles. Again and again the author illustrates the abiding relevance of Paul's first century insights for missionary thought and practice in the twentieth century. He draws not only on Scripture but also on personal insights and illustrations arising from two decades of missionary service. And he enters into significant dialogue with representative missionary literature of the modern period. The book's five parts cover theology, the sources and nature of Paul's theology, and his theological assumptions for mission; conversion, Paul's conversion in Acts, conversion as reality, experience, and process; and conversion and the real world: the convert's new life, what its spiritual basis is, and how to live it; the church, its oneness, diversity, and contextuality; its leadership, worship, discipline, and finance; and the missionary, his or her credentials and ministry. Paul's theology was irresistible because it was energized by a fresh life-changing experience and supported by a new love for all people, writes the author in the introduction. He then elaborates on four characteristics of that theology: it is dynamic, evangelical, pastoral, and holistic. The absolute commitment of mind and body, soul and spirit, that was Paul's, his love for the Lord Jesus and lost people everywhere, concludes the author in the epilogue, must be the very heart of the church.

Towards a Malawian Theology of Laity Volker Glissmann, 2021-01-29 A key theological emphasis of the church is the priesthood of all believers This emphasis implies that lay empowerment and lay participation are central to what the church does Yet lay participation is a bit of an unfulfilled promise in many cases This book brings together church leaders theological educators as well as practitioners who are actively involved in lay ministry here in Malawi so that a stronger theology of laity for the Malawian church can emerge *Transforming Renewal* Andy Lord, 2015-01-12 Pentecostal and charismatic renewal movements have seen great growth over the last century and have engaged with many Christian traditions Yet there are signs that all is not well and there is a need to develop theologies of renewal that engage with practice and across the traditions if the movements are to continue to grow In particular this book seeks an ecumenical engagement between David Watson and Thomas Merton leaders in the charismatic and monastic renewal movements The aim is to reflect on the theological roots of these renewal movements through a study of particular people who lived them in practice and sought to help others understand how the triune God was at work This is done against the wider background of contemporary renewal theology to develop constructive proposals for renewal theology in the future Receptive ecumenism provides the method for bringing the different voices into conversation in ways that also point forward in approaches to ecumenical dialogue It is thus a study relevant to those seeking new ways in theology those involved in renewal and ecumenical movements students of Thomas Merton and all who seek to better understand the Christian renewal movements

that have swept the world **Protestant Missions and Local Encounters in the Nineteenth and Twentieth Centuries**
Hilde Nielssen, Inger Marie Okkenhaug, Karina Hestad-Skeie, 2011-07-27 This book makes visible an important but neglected
aspect of Christian missions its transnational character Missionaries considered themselves global actors yet they operated
within a variety of nation states The volume demonstrates how processes on a national level are closely linked to larger
transnational processes **The Publishers' Trade List Annual** ,1884 *A Christian Approach to Muslims* James P.
Dretke, 1979 A unique in depth study of a vital subject demanding an honest examination of our methods and particularly of
our motives and attitudes in seeking to bring Christ Jesus to the Muslim and the Muslim to Jesus Christ **Missiology** ,1993
