Mr Lincolns Navy:

Life in Mr. Lincoln's Navy Dennis J. Ringle, 1998 Every aspect of the common sailor's life in the Union navy from recruiting clothing training shipboard routine entertainment and wages to diet health and combat experience is addressed in this study the first to examine the subject in rich detail The wealth of new facts it provides allows the reader to take a fresh look at nineteenth century social history including issues like racial integration in the military As he examines daily life in the Union navy Dennis Ringle also calls attention to the enlisted sailor's enormous contributions to the development of the U S Navy as it moved from wood and sail to steam and iron A marine engineer with more than twenty years of naval experience Ringle describes the lives of the steam engineers whose work later proved critical to the success of the ironclad monitors and the development of the powerful predreadnought warships His focus is on the sailors assigned to the western river vessels the ships enforcing the blockade and those dispatched to destroy Confederate commerce raiders To reconstruct daily life he draws on a large number of published and unpublished diaries journals and letters To put the information in context he compares the sailor's life to that of a soldier's including health conditions to explain why for example fewer sailors died from disease than soldiers Ringle's efforts to gain respect for the courageous Union sailors who helped save the nation are certain to bring them recognition just as Bell Wiley's landmark studies *Billy Yank* and *Johnny Reb* did for the Civil War soldiers
