The SAGE Handbook of Human Rights Anja Mihr, Mark Gibney, 2014-07-21 The SAGE Handbook of Human Rights will comprise a two volume set consisting of more than 50 original chapters that clarify and analyze human rights issues of both contemporary and future importance The Handbook will take an inter disciplinary approach combining work in such traditional fields as law political science and philosophy with such non traditional subjects as climate change demography economics geography urban studies mass communication and business and marketing In addition one of the aspects of mainstreaming is the manner in which human rights has come to play a prominent role in popular culture and there will be a section on human rights in art film music and literature Not only will the Handbook provide a state of the art analysis of the discipline that addresses the history and development of human rights standards and its movements mechanisms and institutions but it will seek to go beyond this and produce a book that will help lead to prospective thinking

Human Rights Manual and Sourcebook for Africa Keir Starmer, Theodora A. Christou, 2005 At a time when the issue of human rights in Africa is making many advances Human Rights Sourcebook and Manual for Africa introduces easy to use jurisprudence The first section covers key principles and human rights norms which are detailed in straightforward language The second section is devoted to the death penalty detailing the relevant provisions from both international and regional instruments and offering a comparative commentary as to how the principles and relevant rights relate to the death penalty The third section summarizes key case law from international regional and domestic African courts and tribunals The case summaries detail the facts and decisions and include a headnote of relevant concepts for quick reference The fourth section focuses on thirteen African countries yet the reports are a useful comparative resource for all countries From conducting the research and compiling the material for this final section it is apparent that nothing like this has been attempted before in Africa Much of the work emanates from primary research and investigation conducted by local research teams in the individual countries Investigative research includes visiting prisons physically counting the individuals on death row and interviewing the detainees to obtain their age and the length of time they had been on death row

National Human Rights Institutions David Langtry, Kirsten Roberts Lyer, 2021 National Human Rights Institutions Rules Requirements and Practice is an authoritative guide to National Human Rights Institutions NHRI in their important role as promoters and protectors of human rights at the national level This book serves as both the first ever casebook on the findings of the SCA as well as a comprehensive reference for the requirements for compliance of NHRIs with the Paris Principles and is a vital source of information on the actual practice of NHRIs Since its earliest assessments of NHRIs in 1998 the Global Alliance of NHRIs GANHRI Sub Committee on Accreditation SCA has developed a substantive body of work that has examined the operation and practice of over 128 institutions in countries and territories from every part of the globe Analysed and catalogued in their entirety into an accessible format for the first time and covering all aspects of NHRIs

structure and functioning as well as providing a thorough overview of how the SCA works in practice this book is an indispensable resource for scholars and practitioners who wish to understand and learn how NHRIs operate at the national level as well as what problems they face and ultimately how they can be strengthened Benefitting from the unique insight of David Langtry a member of the SCA for 11 years this book is an essential source for all those interested in the role of NHRIs and more broadly of all state established institutions intended to function independently Global Intersectionality and Contemporary Human Rights Johanna Bond, 2021-07-22 Global Intersectionality and Contemporary Human Rights argues for an expansive definition of human rights one that encompasses the harm caused by multiple intersecting forms of subordination Intersectionality theory posits that aspects of identity such as race and gender are mutually constitutive and intersect to create unique experiences of discrimination and subordination Perpetrators of sexual violence in armed conflict of example often target women based on both gender and ethnicity Human rights remedies that fail to capture the intersectional nature of human rights violations do not offer comprehensive redress to victims This title explores the influence of intersectionality theory on human rights in the modern era and traces the evolution of intersectionality as a theoretical framework in the United States and around the world It draws upon feminist theory and human rights jurisprudence to argue that scholars and activists have under utilized intersectionality theory in the global discourse of human rights As the central intergovernmental organization charged with the protection of human rights the United Nations has been slow to embrace the insights gained from intersectionality theory This work argues that the United Nations and other human rights organizations must more actively embrace intersectionality as an analytical framework in order to fully address the complexity of human rights violations around the world *The International Criminal Responsibility of War's Funders and Profiteers* Nina H. B. Jørgensen, 2020-09-17 This book is about money war atrocities and economic actors about the connections between them and about responsibility
