Differences Gene Walden, *Transparent Logics. Small Differences with Huge Consequences* Miloš Kosterec, 2024-07-22

The book presents Transparent Intensional Logic in several of its latest realisations in such a way that it makes a case for the system and demonstrates how the theory can be applied to a wide range of cases The work strikes a good balance between the philosophical conceptual and the logical formal Transparent Logics prioritises depth over breadth and focuses on advanced formal semantics and philosophical logic going beyond a mere introduction to the subject but delving into the details instead *The Dawn That Never Comes* Michael Bourdaghs, 2003-10-18 A critical rethinking of theories of national

imagination The Dawn That Never Comes offers the most detailed reading to date in English of one of modern Japan's most influential poets and novelists Shimazaki Toson 1872-1943 It also reveals how Toson's works influenced the production of a fluid shifting form of national imagination that has characterized twentieth century Japan Analyzing Toson's major works Michael K Bourdaghs demonstrates that the construction of national imagination requires a complex interweaving of varied and sometimes contradictory figures for imagining the national community Many scholars have shown for example that modern hygiene has functioned in nationalist thought as a method of excluding foreign others as diseased This study explores the multiple images of illness appearing in Toson's fiction to demonstrate that hygiene employs more than one model of pathology and it reveals how this multiplicity functioned to produce the combinations of exclusion and assimilation required to sustain a sense of national community Others have argued that nationalism is inherently ambivalent and self contradictory Bourdaghs shows more concretely both how this is so and why it is necessary and provides in the process a new way of

thinking about national imagination Individual chapters take up such issues as modern medicine and the discourses of national health ideologies of the family and its representation in modern literary works the gendering of the canon of national literature and the multiple forms of space and time that narratives of national history require Psychometrics R. Michael
