
Policing for Social Change: Tracing the Historical Evolution of Policing and the Role of Police in Society

DR. SUNIL JOHN¹ AND VAISHALI GURAV²

ABSTRACT

Law as an instrument of change must constantly evolve and cater to the changing social, cultural and political ideologies of the society. Policing as the enforcement agency of law, too needs to change at the same pace as that of the society. Since ancient times, modern policing has evolved and police today are looked upon as mediators in settlement of disputes and are responsible for the moral stability of the society. Sir Robert Peel's modern democratic principles of the Metropolitan Policing System introduced in the year 1829 are being followed throughout the world. However, India was never regulated by these principles during the colonial rule. The Irish colonial model of armed policing was used by the British to assert their supremacy and hold over India. It was nowhere close to the democratic model of policing of Sir Robert Peel and it violated the principle of rule of law. This colonial policing culture is still deep-rooted in Indian policing and has failed to emerge from the repressive colonial rule. The most important facet of modern policing is public trust and faith. Policing is no longer just about maintenance of law and order, but has evolved to moral guardianship and protection of human rights. Policing in India needs to reform from the colonial rule and adapt itself to improve the quality of policing. Research has proven that women in police improve the quality of policing and help reporting of sexual assaults and domestic violence as victims feel comfortable reporting to female police. This paper is a study of the historical evolution of policing and an attempt to understand the role of police in meeting the expectations of the society.

I. INTRODUCTION

As is evident, the only thing that is constant is change. Over the past centuries, history has proven that the social, cultural and political ideologies of the societies across the world are continuously evolving and are always in a process of change. Law as an instrument of social change must to cater to the changing needs of the society. Accordingly, the law enforcement

Police Powers In Democratic Societies The Evolution And Practice Of Authority:

Police Powers in Canada University of Alberta. Centre for Constitutional Studies, 1994-01-01 The television spectacles of Oka and the Rodney King affair served to focus public disaffection with the police a disaffection that has been growing for several years In Canada confidence in the police is at an all time low At the same time crime rates continue to rise Canada now has the dubious distinction of having the second highest crime rate in the Western world How did this state of affairs come about What do we want from our police How do we achieve policing that is consistent with the Charter of Rights and Freedoms The essays in this volume set out to explore these questions In their introduction the editors point out that constitutional order is tied to the exercise of power by law enforcement agencies and that if relations between the police and civil society continue to erode the exercise of force will rise a dangerous prospect for democratic societies *The Province of Administrative Law* Michael Taggart, 1997-06-01 During the past decade administrative law has experienced remarkable development It has consistently been one of the most dynamic and potent areas of legal innovation and of judicial activism It has expanded its reach into an ever broadening sphere of public and private activities Largely through the mechanism of judicial review the judges in several jurisdictions have extended the ambit of the traditional remedies partly in response to a perceived need to fill an accountability vacuum created by the privatisation of public enterprises the contracting out of public services and the deregulation of industry and commerce The essays in this volume focus upon these and other shifts in administrative law and in doing so they draw upon the experiences of several jurisdictions the UK the US Canada Australia and New Zealand The result is a wide ranging and forceful analysis of the scope development and future direction of administrative law **Encyclopedia of Crime and Punishment** David Levinson, 2002 Authoritative and comprehensive this multivolume set includes hundreds of articles in the field of criminal justice Impressive arrays of authors have contributed to this resource addressing such diverse topics as racial profiling money laundering torture prisoner literature the KGB and Sing Sing Written in an accessible manner and attractively presented the background discussions definitions and explanations of important issues and future trends are absorbing Interesting sidebars and facts reference lists relevant court cases tables and black and white photographs supplement the entries Appendixes cover careers in criminal justice Web resources and professional organizations A lengthy bibliography lists relevant works The Best of the Best Reference Sources American Libraries May 2003 **Crisis in Canada's Policing** John Sewell, 2021-09-07 In the summer of 2020 as the COVID 19 pandemic surged millions gathered across Canada and the United States to protest violence and racism in policing sparked by the murder of George Floyd at the hands of Minneapolis police officers In the days and weeks following the deaths of Regis Korchinski Paquet in Toronto and Chantel Moore in New Brunswick showed that police violence is also a Canadian reality Although BIPOC communities and activists had been calling for action for years these events sparked unprecedented public outrage and drew crowds in the thousands across Canada calling for the defunding of Canada's police

Many authoritative reports have identified big problems in Canada's law enforcement system and have concluded that police are more likely to create or escalate violent situations than promote safety and security. Why? How has an institution tasked with keeping citizens safe become so dangerous to so many Canadians? John Sewell has been studying the problems facing Canadian policing since the 1980s. In *Crisis in Canada's Policing*, he shines light on the origins of police culture, synthesizes dozens of reports that reveal the failures of the police system in Canada, and offers solutions that put power back into the hands of community leaders while reining in and reforming police organizations.

Challenges of Policing Democracies

Dilip Das, Marenin Otwin, 2012-10-12. In this text, the editors analyze the diverse situations that police forces operate under and the challenges that they face in different kinds of democracies. This cross-cultural comparison of various systems highlights the universal observation that police are an anomaly in a democracy and explores how various influences, for example, large-scale social violence, a zeal for crime fighting, and vulnerability to temptation often find police incapable of behaving in a democratic manner. *Challenges of Policing Democracies* goes beyond just showing the similarities and differences of the policing challenges democratic societies face; it also examines the responses and remedies adopted by police in various countries at different levels of democratic achievement and how every society struggles with the challenges of preserving democratic values without sacrificing the effectiveness of policing.

The Political Economy of

Development in Kenya Kempe Ronald Hope, Sr., 2011-12-01. Kenya is a country of geopolitical and economic importance in East Africa. It shares borders with unstable states such as Somalia and Sudan while being a hub for trade, communication, finance, and transportation across the region. Although relatively stable since its independence in 1963, the country still faces poverty, inequality, and corruption. In addition, the contested election of 2007 led to severe ethnic strife that tested its political stability, leading to a new constitution in 2010. This unique survey by a leading expert on the region provides a critical analysis of the socio-economic development in Kenya from a political economy perspective. It highlights Kenya's transition from being a centralized state to having a clear separation of powers and analyzes key issues such as economic growth, urbanization, corruption, and reform. The book identifies Kenya's key socio-development problems and offers solutions to improve both governance and economic performance, making it an essential resource to researchers, academics, and policy makers working on development issues and African politics.

Behavioral Interventions for Prevention and Control of Sexually

Before AIDS, the role of behavioral interventions in preventing transmission of sexually transmitted diseases was acknowledged in text books and journals but rarely promoted effectively in public health practice. This book addresses the complexities and social contexts of human behaviors which spread STDs, the cultural barriers to STD education, and the sociopolitical nuances surrounding treatment.

Democratic Policing in Transitional and Developing Countries Michael D. Wiatrowski, 2016-05-13 Is it possible to create democratic forms of policing in transitional and developing societies This volume argues that policing models and practices promoted by the west are often inadequate for adoption by countries making democratic transitions because they do not adequately address issues such as human rights equity co production accountability openness and organizational change Therefore police reform is often limited to a one size fits all approach The book expands the dialogue so that discussions of democratic policing around the world are more realistic comprehensive and sensitive to the local context Detailed case studies on Iraq South Africa Northern Ireland and Kazakhstan provide a realistic assessment of the current state of policing The editors use the studies to suggest how to promote democratic policing and other important goals of democratic reform around the world The volume will assist academics policy makers NGOs and others in tailoring a local democratic policing strategy within a broader framework to enhance socioeconomic development and citizen capacity build social capital reduce various forms of conflict and support human rights

Respect and Criminal Justice The Shaw Foundation Fellow in Law Gabrielle Watson, 2019-12-31 *Respect and Criminal Justice* offers the first sustained examination of respect in criminal justice in England and Wales where the value is elusive but of persisting significance Advancing a critique of the respect deficit in policing and imprisonment the book is concerned with the ways in which both institutions are merely constrained and not characterised by respect It emerges that they appeal to the word respect relying on its inclusive ethos in official discourse when it is expedient to do so but rarely and only superficially address the prior question of what it is to respect and be respected The result is that respect is more akin to a slogan than a foundational value of criminal justice practice The book

will be of interest to academics and students across the humanities and social sciences and especially in law criminal justice and philosophy as well as criminal justice practitioners and policymakers Subject Guide to Books in Print ,1991 The Practice of Constitutional Development Filippo Sabetti,Barbara Allen,Mark Sproule-Jones,2009-01-01 This edited collection further expands our knowledge about what comprises a successful constitution in both theory and application Building on the research and analysis of Vincent Ostrom who as one of America s leading scholars on constitutions has spent a lifetime writing about constitutions in America and overseas Each chapter shows how particular countries governments and organizations devise constitutions to reflect their visions of governance and sets of rules for their leaders On a higher theoretical level the contributors emphasize the importance of choosing the rules of the political game in order to determine the nature of the game itself Extending Ostrom s intellectual quest to solve constitutional dilemmas the scholars gathered here discuss a wide variety of issues ranging from the problems of water scarcity and local public economies in Africa to the prospect of a new political order in the European North Book jacket Contesting the Iron Fist Claudio Fuentes,2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company Canadian Policing Curt Taylor Griffiths,Brian Whitelaw,1998-08 *Police, Organization, and Wellbeing* Jamie Ferrill,2022-10-14 Based on the study of a police organization in England this book explores the role of social relations in the ways that people construct mobilize consume and reconstruct meaning about wellbeing Wellbeing is a powerful institutionalized concept in police organizations across England and Wales With the emergence of numerous policies strategies and practices that both explicitly and implicitly address wellbeing in the workplace the concept has come to feature prominently Wellbeing is addressed as an issue that needs to be understood intersubjectively by attending to the underlying social issues that shape how it is promoted or denied After a theoretical exploration of police culture and wellbeing the book traverses ethnographic data and captures insights from individuals across the organization s hierarchy It explores what individuals perceive wellbeing to mean and how they make sense of the concept The book reveals discernible ideological laden tensions across the hierarchy in terms of wellbeing constructions By exploring these tensions there is a potential to understand the constructions of wellbeing and the resultant implications for practice This book will be of interest to academics researchers and students in policing criminology criminal justice leadership management organizational behaviour and wellbeing Given its empirical focus and applicability to practitioners it will also be of interest to a range of non academics including police officers and leaders public servants private organizations policymakers and human resources professionals **Securing Development** Bernard Harborne,William Dorotinsky,Paul M. Such a perspective can help security actors provide more professional, effective and efficient security and justice services for citizens while also strengthening systems for accountability. The book is the result of a project undertaken jointly by staff from the World Bank and the United Nations integrating the disciplines where each institution holds a comparative advantage and a core mandate. The primary audience includes government officials bearing both security and financial responsibilities, staff of international organizations working on public expenditure management and security sector issues, academics and development practitioners working in an advisory capacity.

Middle Class, Civil Society and Democracy in Asia Hsin-Huang Michael Hsiao, 2018-07-18. This book offers a timely analysis of the tripartite links between the middle class, civil society and democratic experiences in Northeast and Southeast Asia. It aims to go beyond the two popular theoretical propositions in current democratic theory which emphasise the bilateral connections between the middle class and democracy on one hand and civil society and democracy on the other. Instead, using national case studies, this volume attempts to provide a new comparative typological interpretation of the triple relationship in Taiwan, South Korea, the Philippines, Indonesia and Thailand. Presenting a careful analysis and delineation of historical democratic transformation over the past thirty years, three discernible typologies emerge. Namely, there are positive links in Taiwan and South Korea, dubious links in the Philippines and Indonesia, and negative links in Thailand. *Middle Class, Civil Society and Democracy in Asia* will be of interest to students and scholars of Asian politics and democracy.
