Reading Novels During the Covid-19 Pandemic Ben Davies, Christina Lupton, Johanne Gormsen Schmidt, 2022-10-20

Drawing on an ethnographic study of novel readers in Denmark and the UK during the Covid 19 pandemic this book provides a snapshot of a phenomenal moment in modern history The ethnographic approach shows what no historical account of books published during the pandemic will be able to capture namely the movement of readers between new purchases and books long kept in their collections The book follows readers who have tuned into novels about plague apocalypse and racial violence but also readers whose taste for older novels and for re reading novels they knew earlier in their lives has grown Alternating between chapters that analyse single texts that were popular Albert Camus's *The Plague* Ali Smith's *Summer* Charlotte Bronte's *Jane Eyre* and others that describe clusters of for example dystopian fiction and nature writing this work brings out the diverse quality of the Covid 19 bookshelf Time is of central importance to this study both in terms of the time of lockdown and the temporality of reading itself within this wider disrupted sense of time By exploring these varied experiences this book investigates the larger question of how the consumption of novels depends on and shapes people's experience of non work time providing a specific lens through which to examine the phenomenology of reading more generally This timely work also negotiates debates in the study of reading that distinguish theoretically between critical reading and reading for pleasure between professional and lay reading All sides of the sociological and literary debate must be brought to bear in understanding what readers tell us about what novels have meant to them in this complex historical moment

Johnson, 2021-01-15 Zaynab first published in 1913 is widely cited as the first Arabic novel yet the previous eight decades saw hundreds of novels translated into Arabic from English and French This vast literary corpus influenced generations of Arab writers but has until now been considered a curious footnote in the genre's history Incorporating these works into the history of the Arabic novel Stranger Fictions offers a transformative new account of modern Arabic literature world literature and the novel Rebecca C Johnson rewrites the history of the global circulation of the novel by moving Arabic literature from the margins of comparative literature to its center Considering the wide range of nineteenth and early twentieth century translation practices including bad translation mistranslation and pseudotranslation Johnson argues that Arabic translators did far more than copy European works they authored new versions of them producing sophisticated theorizations of the

genre These translations and the reading practices they precipitated form the conceptual and practical foundations of Arab literary modernity necessitating an overhaul of our notions of translation cultural exchange and the global Examining nearly a century of translations published in Beirut Cairo Malta Paris London and New York from Qat R binun Kur z The story of Robinson Crusoe in 1835 to pastiche crime stories in early twentieth century Egyptian magazines Johnson shows how translators theorized the Arab world not as Europe's periphery but as an alternative center in a globalized network Stranger Fictions affirms the central place of mis translation in both the history of the novel in Arabic and the novel as a transnational form itself

Books and Periodicals in Brazil 1768-1930 Ana Claudia Suriani Da Silva, 2017-07-05 Before the Portuguese Royal Court moved to its South American colony in 1808 books and periodicals had a very limited circulation there It was

only when Brazilian ports were opened to foreign trade that the book trade began to flourish and printed matter became more easily available to readers whether for pleasure for instruction or for political reasons This book brings together a collection of original articles on the transnational relations between Brazil and Europe especially England and France in the domain of literature and print culture from its early stages to the end of the 1920s It covers the time when it was forbidden to print in Brazil and Portugal strictly controlled which books were sent to the colony through the quick flourishing of a transnational printing industry and book market after 1822 to the shift of hegemony in the printing business from foreign to Brazilian hands at the beginning of the twentieth century Sandra Guardini Vasconcelos is Professor of English and Comparative Literature at the University of Sao Paulo *Reading at Risk*, 2004 **The Book's Road in the Age of Digitization** Janina Krieger, 2023-01-28 Although every area of life is permeated by digital processes the majority of Germans seem to resist digital alternatives with regard to the activity of reading The printed book continues to enjoy much greater popularity than the eBook This seems surprising since the entire communication behavior has moved to digital devices So what lies behind this Why are there still printed books in digital times Previous studies of the printed book have focused primarily on its media future as this seemed threatened by digitization In this work Janina Krieger instead examines the past from three perspectives in order to gain insights into the present While other studies always chose one method and these mostly belonged to the quantitative approach here three subjects are identified which are examined with different methods and in their combination can provide an answer to the research question the consumers of literature the readers literature itself the selected genre is the novel and the media theories of the 20th century which have already dealt with media change **Jane Austen and her Readers, 1786-1945** Katie Halsey, 2013-10-15 Jane Austen and her Readers 1786-1945 is a study of the history of reading Jane Austen's novels It discusses Austen's own ideas about books and readers the uses she makes of her reading and the aspects of her style that are related to the ways in which she has been read The volume considers the role of editions and criticism in directing readers' responses and presents and analyses a variety of source material related to the ordinary readers who read Austen's works between 1786 and 1945 Revolutionary Subjects in the English "Jacobin" Novel, 1790-1805 Miriam L. Wallace, 2009 The Jacobin novel was labeled as such in Britain because of its supposed connections to the French Revolution This book takes an in-depth look at these novels written between 1790 and 1805 She centers on the group surrounding Wollstonecraft and Godwin although not exclusively exploring the limits of their philosophy of human rights and personal subjectivity Unlike other recent scholars the author treats both male and female writers making feminism an aspect of the work but not the overriding one While the novels are the main focus other work by the writers is considered as it pertains to their beliefs She also discusses the reaction from those who defined the Jacobins by opposing them
