## **Reading Practices With Deaf Learners:**

**Reading Practices with Deaf Learners** Patricia L. McAnally, Susan Rose, Stephen Patrick Quigley, 2007 This book was written specifically for professors and college students in teacher training programs for deaf education and for classroom teachers working with deaf and hard of hearing learners It is one of the very few books on the market that focuses entirely on the hearing impaired It consists of three sections each one providing in depth information on topics critical to the teaching of reading to this specific population Section one Foundations contains chapters dealing with theory and research in such topics as cognition reading language literary development vocabulary and comprehension One chapter on ASL English and Reading looks at the research in the area of second language learners and discusses its application to deaf and hard of hearing students Section two Instructional Management deals with instructional management and describes instructional systems and designs These chapters look at current trends in education and how these trends apply to the education of students who are deaf and hard of hearing Section three Applications focuses on specific instructional models in reading writing and spelling detailing strategies that have been successfully used with deaf and hard of hearing learners The last chapter in this section discusses assessment giving information and examples of both formal and authentic procedures Handbook of

Reading Disability Research Anne McGill-Franzen, Richard Allington, 2010-09-17 Bringing together a wide range of research on reading disabilities this comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric perspective Emphasizing that learning to read proficiently is a long term developmental process involving many interventions of various kinds all keyed to individual developmental needs it addresses traditional questions What is the nature or causes of reading disabilities How are reading disabilities assessed How should reading disabilities be remediated To what extent is remediation possible but from multiple or alternative perspectives Taking incursions into the broader research literature represented by linguistic and anthropological paradigms as well as psychological and educational research the volume is on the front line in exploring the relation of reading disability to learning and language to poverty and prejudice and to instruction and schooling The editors and authors are distinguished scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities Throughout their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers

*Evidence-Based Practices in Deaf Education* Harry Knoors, Marc Marschark, 2018-08-28 This volume presents the latest research from internationally recognized researchers and practitioners on language literacy and numeracy cognition and social and emotional development of deaf learners In their contributions authors sketch the backgrounds and contexts of their research take interdisciplinary perspectives in merging their own research results with outcomes of relevant research of others and examine the consequences and future directions for teachers and teaching Focusing on the topic of

transforming state of the art research into teaching practices in deaf education the volume addresses how we can improve outcomes of deaf education through professional development of teachers the construction and implementation of evidence based teaching practices and consideration of the whole child thus emphasizing the importance of integrative interdisciplinary approaches Evidence-Based Practice in Educating Deaf and Hard-of-Hearing Students Patricia Elizabeth Spencer, Marc Marschark, 2010-07-21 Debates about methods of supporting language development and academic skills of deaf or hard of hearing children have waxed and waned for more than 100 years Will using sign language interfere with learning to use spoken language or does it offer optimal access to communication for deaf children Does placement in classrooms with mostly hearing children enhance or impede academic and social emotional development Will cochlear implants or other assistive listening devices provide deaf children with sufficient input for age appropriate reading abilities Are traditional methods of classroom teaching effective for deaf and hard of hearing students Although there is a wealth of evidence with regard to each of these issues too often decisions on how to best support deaf and hard of hearing children in developing language and academic skills are made based on incorrect or incomplete information No matter how well intentioned decisions grounded in opinions beliefs or value judgments are insufficient to guide practice Instead we need to take advantage of relevant emerging research concerning best practices and outcomes in educating deaf and hard of hearing learners In this critical evaluation of what we know and what we do not know about educating deaf and hard of hearing students the authors examine a wide range of educational settings and research methods that have guided deaf education in recent years or should The book provides a focus for future educational and research efforts and aims to promote optimal support for deaf and hard of hearing learners of all ages Co authored by two of the most respected leaders in the field this book summarizes and evaluates research findings across multiple disciplines pertaining to the raising and educating of deaf children providing a comprehensive but concise record of the successes failures and unanswered questions in deaf education A readily accessible and invaluable source for teachers university students and other professionals Evidence Based Practice in Educating Deaf and Hard of Hearing Students encourages readers to reconsider assumptions and delve more deeply into what we really know about deaf and hard of hearing children their patterns of development and their lifelong learning
