Bowker Company. Department of Bibliography,1978 Catalog Aims Community College,1998 *The Improvement of Humanity* R. R. Palmer,2017-03-14 This work examines education in both theory and practice during the Enlightenment and the French Revolution when educators aimed at nothing less than reforming humanity and creating a new society Originally published in 1985 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Humanism and Calvinism** Steven J. Reid,2016-12-05 Across early modern Europe the confessional struggles of the Reformation touched virtually every aspect of civic life and nowhere was this more apparent than in the universities the seedbed of political and ecclesiastical society Focussing on events in

Scotland this book reveals how established universities found themselves at the centre of a struggle by competing forces trying to promote their own political religious or educational beliefs and under competition from new institutions It surveys the transformation of Scotland s medieval and Catholic university system into a greatly expanded Protestant one in the decades following the Scottish Reformation of 1560 Simultaneously the study assesses the contribution of the continentally educated religious reformer Andrew Melville to this process in the context of broader European social and cultural developments including growing lay interest in education as a result of renaissance humanism and the involvement of royal and civic government as well as the new Protestant Kirk in university expansion and reform Through systematic use of largely neglected manuscript sources the book offers fresh perspectives on both Andrew Melville and the development of Scottish higher education post 1560 As well as providing a detailed picture of events in Scotland it contributes to our growing understanding of the role played by higher education in shaping society across Europe **Humanity** ,1903
