Reading of the Daodejing Rudolf G. Wagner, 2012-02-01 Many of the brightest Chinese minds have used the form of the commentary to open the terse and poetic chapters of the Laozi to their readers and also to develop a philosophy of their own. None has been more sophisticated philosophically probing and influential in the endeavor than a young genius of the third century C.E. Wang Bi. 226-249 In this book Rudolf G. Wagner provides a full translation of the Laozi that extracts from Wang Bi's Commentary the manner in which he read the text as well as a full translation of Wang Bi's Commentary and his essay on the subtle pointers of the Laozi. The result is a Chinese reading of the Laozi that will surprise and delight Western readers familiar with some of the many translations of the work. A Chinese Reading of the Daodejing is part of Rudolf Wagner's trilogy on Wang Bi's philosophy and classical studies which also includes *The Craft of a Chinese Commentator: Wang Bi on the Laozi* and *Language, Ontology and Political Philosophy in China: Wang Bi's Scholarly Exploration of the Dark Xuanxue*, both published by SUNY Press.

Content Area Reading and Learning Diane Lapp, James Flood, Nancy Farnan, 2016-11-18 How can teachers make content area learning more accessible to their students? This text addresses instructional issues and provides a wealth of classroom strategies to help all middle and secondary teachers effectively enable their students to develop both content concepts and strategies for continued learning. The goal is to help teachers model through excellent instruction the importance of lifelong content area learning. This working textbook provides students maximum interaction with the information strategies and examples presented in each chapter. This book is organized around five themes: Content Area Reading, An Overview, The Teacher and the Text, The Students, The Instructional Program, School Culture and Environment in Middle and High School Classrooms. Pedagogical features in each chapter include a graphic organizer, a chapter overview, Think Before, Think While, and Think After Reading Activities, which are designed to integrate students' previous knowledge and experience with their new learnings about issues related to content area reading literacy and learning and to serve as catalysts for thinking and discussions. This textbook is intended as a primary text for courses on middle and high school content area literacy and learning.

How to Read a Rock Jan Zalasiewicz, 2022-11-08 Rocks are time machines and the keepers of our history. This guide is a geological field trip through Earth's incredible rock formations and the stories they hold. Like rings on a tree stump, hold the history of the tree, the history of Earth is written in its rocks. *How to Read a Rock: Our Planet's Hidden Stories* teaches readers to decipher the rocks all around us, from backyard stones to mountain ranges, and trace Earth's history layer by layer. Spanning from prehistoric Earth's shifting continents to contemporary human impact to the future surfaces of space exploration, the book reviews a remarkable array of topics, including diamonds, volcanoes, ancient coastlines, rivers, deserts, and coral reefs; how animals have changed rocks; making of mud, urban rock strata, human-made rocks, and minerals; current limestone rock crisis; technofossils, the footprints humans will leave behind through their material goods. *How to Read a Rock*
