Reflections on Knowledge and Language in Middle Eastern Societies Yonatan Mendel, Bruno De Nicola, Husain Qutbuddin, 2010-08-11 This book presents a collection of articles that put forward original research and significant insight regarding several key issues related to knowledge and language in Middle Eastern societies The aspects studied include the role of knowledge and language in affirming and negating political agendas and self identities within areas of conflict and tension ideas regarding the usefulness and interaction of religious and secular knowledge and the attributes that render knowledge and language especially that which is believed to be of divine origin outstanding and worthy of admiration The selection of studies has been purposefully diverse to include a variety of languages including Arabic Turkish Hebrew and Persian within multiple traditions including Hellenism Judaism Christianity and Islam while focussing on a range of periods from the classical to the mediaeval to the modern and

examining a range of issues such as methods of analysing and interpreting Persian Turkish and Arabic literature literary and other attributes of the Bible and the Qur'an diglossic languages the Turkish modernisation project Turkish Kurdish tensions Andalusian music Azerbaijani politics and the Israeli Palestinian conflict By underlining the substantial commonalities that exist between such seemingly different fields of research the book highlights the idea increasingly on the wane in departments of Middle Eastern Studies across many universities that a shared area of study viz the Middle East naturally and inherently entails a shared cultural historical and sociological milieu It suggests that academics who engage in different branches of research related to this area should rather than focussing singly on their own field avail substantially and meaningfully of one another's scholarship learn from each other's methodologies and collectively build upon a body of knowledge that should never be seen as dissociated The Life of the Soul Andrea Gondos, Leore Sachs-Shmueli, 2024-12-01

The Life of the Soul surveys the wide ranging theories Jewish mystics have offered to the vexing question what precisely transpires after we die A common element in their theories is that human life is a part of a larger ecosystem of being which also includes plants animals and inanimate things like rocks They further maintained that the soul does not perish with the demise of the body but is rather renewed and recycled into new forms of embodied existence in the lower world Each essay highlights how reincarnation also known as metempsychosis or the transmigration of souls is not a marginalized concept but is instead central to understanding a variety of perplexing issues in Judaism including catastrophic events in Jewish history theodicy the rationale for biblical commandments the complex identity of biblical figures and the issues of sin punishment and redemption Just as the concept of reincarnation is inherently about boundary crossing its investigation similarly bridges diverse epistemic fields and disciplines religion philosophy psychology history ritual gender and cultural studies Weaving together kabbalistic speculations and Jewish philosophical ideas drawn from distinct geographical regions and historical periods this book is poised to serve as a point of departure for future comparative investigations on the life of the soul in Judaism and Eastern religious traditions **Maimonides Review of Philosophy and Religion Volume 1, 2022**
