The "Mystery of History", its Functionalisation and Disintegration in Graham Swift's "Waterland" Thorben Höppner, 2023-05-02 Seminar paper from the year 2021 in the subject English Language and Literature Studies Literature grade 1.0 language English abstract This paper investigates how the ambivalent perhaps even ambiguous definition of *historia* relates to the representation of history in the novel and how this representation again relates to its functionalisation by Tom Crick To answer this question this paper will primarily work with Linda Hutcheon s notion of historiographic metafiction while also pointing out similarities to the reading of *Waterland* as a trauma narrative In taking a closer look at the protagonist narrator himself this paper argues that the protection from chaos and disorder which Lindow addresses is only achieved through a form of historical escapism Superficially speaking Graham Swift s *Waterland* is a novel about a history teacher who having lost his job forsakes the formal teaching of history and embarks on an extracurricular journey into his own past However upon closer examination *Waterland* is more than that a novel about history itself It explores the whole mystery of history as Swift himself puts it in the introduction to the novel *Waterland* xv Thus it is only logical that the novel prefaces its narrative with an insightful epigraph a dictionary definition of the Latin word *historia* from which the English word history originates As can be seen above however said definition is ambivalent it is inherently polysemantic as Judith Ryan notes James Acheson has likewise pointed out that the fact that *historia* can mean either history or fiction is significant for the historian and the writer of fiction must deal with similar problems in writing about the past The natural tendency of language towards proliferation of its meaning

aside the epigraph leaves us with a very ambivalent concept of history which the narrative of *Waterland* in its dealing with history then builds on Since such a prominent theme in *Waterland* the novel's representation of history has been thoroughly examined in secondary literature particularly against the theoretical background of what Linda Hutcheon has identified as historiographic metafiction

The Journey of the Dialectic: Knowing God, Volume 3 Anthony E. Mansueto, 2010-04-07 No discipline has been more uniformly derided for a longer period than metaphysics Of the ancient and medieval sciences now in disrepute even astrology and alchemy get better press The most devastating and currently the most influential attack on metaphysics has come from a broad spectrum of thinkers including Kierkegaard Nietzsche Heidegger Arendt Levinas Derrida and Milbank who have argued that metaphysics is the root of modern nihilism and totalitarianism Anthony Mansueto puts this claim to the test developing a historical sociology of metaphysics that analyzes the social basis and political valence of metaphysical systems Mansueto does this globally and cross culturally engaging not only the Hellenic tradition and its extension into medieval Christendom and Dar al Islam but also the Indian and Chinese traditions Specifically Mansueto argues that far from representing the roots of nihilism or modern state terror metaphysics emerges and continues to be necessary as a way to ground meaning and value in societies especially in market societies in which these have become problematic Metaphysics tends to restrain exploitation and to encourage the redirection of surplus toward activities that promote development of human capacities Knowing God The Journey of the Dialectic concludes with an outline of a new dialectical metaphysics that reconciles a Buddhist metaphysics of interdependence in the Hua yen tradition with a historicized metaphysics of Esse yielding results that look startlingly like the dao xue or neo Confucianism of Song China Mansueto shows how such a metaphysics can ground meaning and value while answering postmodern concerns to safeguard difference

modern media landscape developed Kennell reveals how Alice connects different fields of cultural production and builds cohesion out of otherwise disparate media artists and consumers The first sustained examination of Japanese Alice adaptations her work probes the meaning of Alice in Wonderland as it was adapted by a cast of characters that includes the father of the Japanese short story Ryunosuke Akutagawa the renowned pop artist Yayoi Kusama and the best selling manga collective CLAMP While some may deride adaptive activities as mere copying the form Alice takes in Japan today clearly reflects domestic considerations and creativity not the desire to imitate By engaging with studies of adaptation literature film media and popular culture Kennell uses Japan's proliferation of Alices to explore both Alice and the Japanese media environment
