gives an account of settlement by Britain It tells of the various ways in which that experience shaped imagination and belief among the settler people from the eighteenth century to the end of World War I Volume Three Nation tells the story of Australian Federation and the war with a focus as ever on ordinary habits of thought and feeling In this period for the first time the settler people began to grasp the vastness of the continent and to think of it as their own There was a massive funding of education and the intellectual reach of men and women was suddenly expanded to an extent that seemed dazzling to many at the time Women began to shape public imagination as they had not done before At the same time the worship of mere ideas had its victims most obviously the Aboriginal people and the war itself proved what vast tragedies it could unleash The culmination of an extraordinary career in the writing and teaching of Australian history The Europeans in Australia grapples with the Australian historical experience as a whole from the point of view of the settlers from Europe Ambitious and unique it is the first such large single author account since Manning Clark s A History of Australia
