Readings In Classical Politica

Gilles Campagnolo

Readings In Classical Politica:

Readings in Classical Political Thought Peter J. Steinberger, 2000-01-01 Designed to include all of the texts from Presocratics through Machiavelli likely to be read in an undergraduate course on classical political thought this anthology has at its core generous selections from Plato and Aristotle Building on this core is a sufficiently diverse and substantial selection of texts from other writers including Thucydides and the Sophists to allow for inquiry into the variety of Classical Greek approaches to politics as well as into Roman Medieval and Renaissance developments of the classical tradition Preeminent translations and the editor's own thoughtful introductions further distinguish this unique anthology

Classical Political Economy Michael Perelman, 2013-11-07 Classical Political Economy addresses the question of what determines the social division of labour the division of society into independent firms and industries and develops the theoretical implications of primitive accumulation It also offers a significantly different interpretation of classical political economy demonstrating that this school of thought supported the process of primitive accumulation Classical political economy presents an imposing facade For more than two centuries the accepted doctrine dictates that a market generates forces that provide the most efficient method for organising production This laissez faire approach is an ideology that gives capital absolute freedom of action and yet called for intervention to coerce people to do things that they would not otherwise do Classical political economy therefore encouraged policies that would hinder people's ability to produce for their own needs Michael Perelman however in this innovative take on the subject seeks to challenge the ideologies that would allow things to continue in this line unchecked

Readings in Public Choice and Constitutional Political Economy Charles Rowley, Friedrich Schneider, 2008-08-09 Public choice is the study of behavior at the intersection of economics and political science Since the pioneering work of Duncan Black in the 1940s public choice has developed a rich literature drawing from such related perspectives as history philosophy law and sociology to analyze political decision making by citizen voters elected officials bureaucratic administrators lobbyists and other rational actors in social and economic context with an emphasis on identifying differences between individual goals and collective outcomes Constitutional political economy provides important insights into the relationship between effective constitutions and the behavior of ordinary political markets In Readings in Public Choice and Constitutional Political Economy Charles Rowley and Friedrich Schneider have assembled an international array of leading authors to present a comprehensive and accessible overview of the field and its applications Covering a wide array of topics including regulation and antitrust taxation trade liberalization political corruption interest group behavior dictatorship and environmental issues and featuring biographies of the founding fathers of the field this volume will be essential reading for scholars and students policymakers economists sociologists and non specialist readers interested in the dynamics of political economy

Lineages of European Political Thought Cary J. Nederman, 2009-04 This book examines some of the salient historiographical and conceptual issues that animate current

scholarly debates about the nature of the medieval contribution to modern Western political ideas **Athenian Political Thought and the Reconstruction of American Democracy** J. Peter Euben, John R. Wallach, Josiah Ober, 1994 A collection of essays on Athenian democracy organized in three sections on situating the Athenian democracy in relation to various regimes exploring how discourse in democratic Athens displayed awareness of democracy's limitations and creating direct dialogues between the discourse of Athenian democracy and that of contemporary thought Annotation copyright by Book News Inc Portland OR **Leo Strauss and the Problem of Political Philosophy** Michael P. Zuckert, Catherine H. Zuckert, 2014-06-30 This critical study of the influential political theorist dispels popular myths and reveals the inner logic of his varied and notoriously complex writings Political theorist Leo Strauss was unexpectedly thrust into the media spotlight for his alleged influence on neoconservative politics With *The Truth about Leo Strauss* Michael and Catherine Zuckert challenged the many claims and speculations about this complex thinker Now with *Leo Strauss and the Problem of Political Philosophy* they offer a more comprehensive interpretation of Strauss's thought using the many manifestations of the problem of political philosophy as their touchstone Strauss they argue sought to restore political philosophy to its original Socratic form This is demonstrated through his critique of positivism and historicism two intellectual currents that undermined his Socratic project The authors also explore Strauss's interpretation of both ancient and modern political philosophers including Plato Aristotle Machiavelli and Locke Finally they examine Strauss's thought in the context of the twentieth century when his chief interlocutors were Schmitt Husserl Heidegger and Nietzsche *Leo Strauss and the Problem of Political Philosophy* is the most in depth treatment of this often misunderstood thinker examining his ideas across his long career It reveals Strauss's overall intellectual project to decode how ancient and modern theory attempted to solve the problem of political philosophy And it shows why Strauss considered the ancient solution both philosophically and politically superior **Athenian Political Thought and the Reconstitution of American Democracy** J. Peter Euben, John R. Wallach, Josiah Ober, 2018-07-05 In the contemporary United States the image and experience of Athenian democracy has been appropriated to justify a profoundly conservative political and educational agenda Such is the conviction expressed in this provocative book which is certain to arouse widespread comment and discussion What does it mean to be a citizen in a democracy Indeed how do we educate for democracy These questions are addressed here by thirteen historians classicists and political theorists who critically examine ancient Greek history and institutions texts and ideas in light of today's political practices and values They do not idealize ancient Greek democracy Rather they use it with all its faults as a basis for measuring the strengths and shortcomings of American democracy In the hands of the authors ancient Greek sources become partners in an educational dialogue about democracy's past one that goads us to think about the limitations of democracy's present and to imagine enriched possibilities for its future The authors are diverse in their opinions and in their political and moral commitments But they share the view that insulating American democracy from radical criticism encourages a dangerous complacency that

Athenian political thought can disrupt **Introduction Globalization: Analysis and Readings** Richard W.

Mansbach, Edward Rhodes, 2012-08-23 This text covers the hot topics and perspectives of globalization and frames the readings with clear substantial and original analysis by a pair of preeminent scholars

The Broadview Anthology of Social and Political Thought: Essential Readings Andrew Bailey, Samantha Brennan, Will Kymlicka, Jacob T. Levy, Alex

Sager, Clark Wolf, 2012-02-17 This volume features a careful selection of major works in political and social philosophy from ancient times through to the present Every reading has been painstakingly annotated and each figure is given a substantial introduction highlighting his or her major contribution to the tradition The anthology offers both depth and breadth in its selection of material by central figures while also representing other currents of political thought Thirty two authors are represented including fourteen from the 20th century The editors have made every effort to include translations that are both readable and reliable In order to ensure the highest standards of accuracy and accessibility the editors have consulted dozens of leading academics during the course of the volume s development many of whom have contributed introductory material as well as advice The result is an anthology with unparalleled pedagogical benefits The Broadview Anthology of Social and Political Thought sets the new standard for social and political philosophy instruction

Reading Mill: Studies in Political Theory I. Cook, 1998-01-28 Reading Mill begins with the idea that political theory as it is understood and practised in Anglophone Universities is not one practice but a set of four alternative practices marked by divergent ontologies and epistemologies Three of the conceptions of political theory identified are applied to produce markedly different readings of the works of John Stuart Mill The work is designed to demonstrate that the alternative conceptions of political theory are coherent and offer different insights into Mill s works

Criticisms of Classical Political Economy Gilles

Campagnolo, 2012-08-06 The role of the German Historical School and of Carl Menger founder of the Austrian School is appraised in this new book This important period of the history of economics is vital to understand how the discipline developed over the next half century Gilles Campagnolo has produced an impressive original work which makes use of rarely seen research by Carl Menger and as such this book will be of interest across several disciplines including history of economic thought economic methodology philosophy of science and the history of ideas

Vertical Readings in Dante's Comedy George Corbett, Heather Webb, 2016-12-12 This collection to be issued in three volumes offers an unprecedented repertoire

of vertical readings for the whole poem As the first volume exemplifies vertical reading not only articulates unexamined connections between the three canticles but also unlocks engaging new ways to enter into core concerns of the poem The three volumes thereby provide an indispensable resource for scholars students and enthusiasts of Dante The volume has its origin in a series of thirty three public lectures held in Trinity College the University of Cambridge 2012 2016 which can be accessed at the Cambridge Vertical Readings in Dante s Comedy website

A List of Books in the Reading Room January 1900 ... John Crerar Library, 1900

A list of books in the reading room, 1900 Chicago John Crerar libr, 1900

Catalogue Williams College, 1927 *The Political Interests of Gender* Kathleen B Jones, Anna G Jonasdottir, 1988 The Political Interests of Gender starts from the premise that contemporary political theory is inadequate when approached from the perspective of gender The book indicts contemporary political analysis for its silence about or ignorance of women's interests and challenges the hypothesis that the central concepts of political thought and its basic techniques are value neutral The contributors go on to consider what political theory and political communities would look like if women's interests were addressed The aim is to reconstruct the methodology of political analysis to conceptualize political reality in terms of gender The book presents a powerful argument that to consider

Morality in the Age of Political Redemption

András Láncki, 2023-11-25 In modern times politics in the Western world has become the ultimate source of morality with the decline of religious and spiritual certainties Today public legitimacy both political and moral can only be derived from the idea that authority is based on individual decisions The foundation of modern Western morality is based on the priority of the individual hence the entitlement of modern democracy This book is a case in favour of communal based individualism Narrow minded individualism can only lead to modern forms of nihilistic morality such as egoism and narcissism Today the schisms of morality within Western culture are more and more visible between the USA and Europe and is within Europe which has been exacerbated by the rift between Europe and Russia The book argues that if these schisms are not handled in a moral sense then Nietzsche's prediction that Europe was to face two hundred years of nihilism might come true and would threaten Western civilization

The Reading of Theoretical Texts

Peter Ekegren, 2002-01-04 Since the structuralist debates of the 1970s the field of textual analysis has largely remained the preserve of literary theorists Social scientists while accepting that observation is theory laden have tended to take the meaning of texts as given and to explain differences of interpretation either in terms of ignorance or bias In this important contribution to methodological debate Peter Ekegren uses developments within literary criticism philosophy and critical theory to reclaim this study for the social sciences and to illuminate the ways in which different readings of a single text are created and defended

Caliban's Freedom

Anthony Bogues, 1997-02-20 Leading scholars discuss ideology and hotly contested post structuralist theory

The Tragedy of Political Theory

J. Peter Euben, 2020-09-01 In this book J Peter Euben argues that Greek tragedy was the context for classical political theory and that such theory read in terms of tragedy provides a ground for contemporary theorizing alert to the concerns of post modernism such as normalization the dominance of humanism and the status of theory Euben shows how ancient Greek theater offered a place and occasion for reflection on the democratic culture it helped constitute in part by confronting the audience with the otherwise unacknowledged principles of social exclusion that sustained its community Euben makes his argument through a series of comparisons between three dramas Aeschylus Oresteia Sophocles Oedipus Tyrannos and Euripides Bacchae and three works of classical political theory Thucydides History and Plato's Apology of Socrates and Republic on the issues of justice identity and corruption He brings his discussion to a contemporary American

setting in a concluding chapter on Thomas Pynchon's *The Crying of Lot 49* in which the road from Argos to Athens built to differentiate a human domain from the undefined outside has become a Los Angeles freeway desecrating the land and its people in a predatory urban sprawl
