Religion & Spirituality Stephen R. Honeygosky, 2006 I'm spiritual but not religious This is a phrase that is heard more and more lately The purpose of this book and of the symposium out of which it grew is to repair the perceived dichotomy between religion and spirituality The ten contributors here believe and argue that there is more to religion than structure rules and rituals and there is more to spirituality than individualism and disconnection According to editor and contributor Stephen Honeygosky religion too often presumes spirituality and spirituality just as often dismisses religion Each camp takes to the high ground of disconnection and mutual exclusion he says but they should be meeting on the plain where real conversation and communion foster compatibility and mutual growth In fact religion and spirituality need each other alone each is incomplete The book explores how the split between religion and spirituality occurred over the past few centuries and verifies how the situation is clearly evident today especially with young adults Contributors include Richard Rohr OFM, Demetrius Dumm OSB, Camille DeBlasi, Barbara Fiand, SNDdeN, Carl Arico, Anthony Bosco, Roberta Campbell OSB, Vernon Holtz OSB, Arthur Schwartz and Stephen Honeygosky Book jacket

**International Handbook of the Religious, Moral and Spiritual Dimensions in Education** Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04

In today's pluralistic world many cultures feel a shift in the relationship of people with religious traditions. A corresponding movement is a resurgence of interest in human spirituality. This Handbook presents the views of education scholars who engage these concepts every day in a collection of essays reflecting the international state of the discipline. Out of these rises a vision for the emergence of a just and peaceful world. *Troubled Waters* Gary Chamberlain, 2007-10-23

[The Preferential Option for the Poor beyond Theology](#) Daniel G. Groody, Gustavo A. Gutiérrez, 2016-10-15

Since the 1973 publication of Gustavo Gutiérrez's groundbreaking work *A Theology of Liberation*, liberation theology's central premise of the preferential option for the poor has become one of the most important yet controversial theological themes of the twentieth century. As the situation for many of the world's poor worsens, it becomes ever more important to ensure that the option for the poor remains not only a vibrant theological concept but also a practical framework for living out the gift and challenge of Christian faith. *The Preferential Option for the Poor beyond Theology* draws on a diverse group of contributors to explore how disciplines as varied as law, economics, politics, the environment, science, liberal arts, film, and education can help us understand putting a commitment to the option for the poor into practice. The central focus of the book revolves around the question: How can one live a Christian life in a world of destitution? The contributors address the theological concept of the option for the poor as well as the ways it can shape our social, economic, political, educational, and environmental approaches to poverty. Their creative examples serve as an inspiration to all those who are seeking to put their talents at the service of human need and the building of a more just and humane world. [Explorations In Global Ethics](#) Sumner B. Twiss, 2018-03-08

Inspired by the 1993 Parliament of the World's Religions, this volume for the first time brings the scholarly discipline of comparative religious ethics into constructive collaboration with the community of interreligious dialogue. The contributors draw from both communities of discourse in addressing questions of method and theory and global moral issues such as human rights, distributive justice, politics of war,

international business the environment and genocide in a cross cultural context Inspired by the 1993 Parliament of the World's Religions this volume for the first time brings the scholarly discipline of comparative religious ethics into constructive collaboration with the community of interreligious dialogue Its design is premised on two important insights First interreligious dialogue offers to comparative religious ethics a new more persuasive rationale agenda of issues and practical orientation Second comparative religious ethics offers to interreligious dialogue an arsenal of critical tools and methods which will enhance the sophistication of its practical work In this way both theory a dominant concern and strength of comparative religious ethics and praxis a dominant concern and strength of interreligious moral dialogue are joined together in mutual effort each contributing to the benefit of the other The volumes contributors share this vision of collaboration drawing explicitly from both communities of discourse in a manner that crosses disciplinary and professional boundaries to deal creatively and constructively with important methodological and global moral issue Although theory and practice cannot easily be separated in such a collaborative project for the purpose of clarity the volume is divided into two main parts The first specifically engages questions of method theory and the social role of the public intellectual the second on substantive moral themes and issues many of which were raised at the 1993 Parliament Taken together the volumes essays articulate and illustrate new ways of approaching contemporary moral concerns cross culturally yet with a rigor appropriate to our complex and pluralistic world

*Celebrating Nature by Faith* H. Paul Santmire, 2020-09-09 Sometimes it is helpful to take one step backward in order to take two steps forward In this insightful volume H Paul Santmire draws on his long standing and widely recognized engagement with ecological theology to propose that the traditions of the Protestant Reformation rightly read offer rich resources today for those who are struggling to move forward to respond theologically to the crisis of a planet in peril and thereby to celebrate nature by faith

**Encountering Earth** Trevor George Hunsberger Bechtel, Matt Eaton, Tim Harvie, 2018-05-14 One day Matthew Eaton was walking through an impromptu animal shelter display at his local pet store when suddenly an eight month old kitten dug his claws into Eaton's flesh Eaton recognized that the eyes of this cat and the curve of his claw compelled a response analogous to those found in the writings of Buber Levinas and Derrida And not just Eaton but a whole community of theologians have found themselves in an encounter with particular places and animals that demands rich theological reflection Eaton enlisted fellow editors Harvie and Bechtel to collect the essays in this volume in which theologians listen to horses rats snakes cats dogs and the earth itself who become new theological voices demanding a response In this volume the voice of the more than human world is heard as making theology possible These essays suggest that what we say theologically represents not simply ideas of our own making subsequently superimposed onto the natural world through our own discovery but rather flow from an expressive Earth With additional contributions from Kimberly Carfore Lisa E Dahill Celia Deane Drummond Heather Eaton Nathan Kowalsky Abigail Lofte Jame Schaefer Cristina D Vanin Mark Wallace Grace Y Kao Chris Carter John Berkman Laura Hobgood

*The Philosophy of Religion* Beverley Clack, Brian

R. Clack, 2019-05-06 For over twenty years Beverley Clack and Brian R Clack's distinctive and thought provoking introduction to the philosophy of religion has been of enormous value to students and scholars providing an approach to the subject that is bold and refreshingly alternative. This revised and updated edition retains the accessibility which makes the book popular while furthering its distinctive argument regarding the human dimension of religion. The central emphasis of the philosophy of religion, the concept of God and the arguments for and against God's existence, is reflected in thorough analyses while alternative approaches to traditional philosophical theism are explored. The treatments of both the miraculous and immortality have been revised and expanded and the concluding chapter updates the investigation of how philosophy of religion might be conducted in an age defined by religious terrorism. Clear, systematic and highly critical, the third edition of *The Philosophy of Religion* will continue to be essential reading for students and scholars of this fascinating and important subject.
