Philosophy of Religion

Arguments for and against the existence of God.

1. God can't be all good and all-powerful
2. We can explain everything we want to explain by repelling God (we don't need certain things in explaining the existence of God)

Is God needed in order for good and bad to exist?

- God is the standard of what's good, and why those reasonings are deemed as good.
- People are known to disagree about the systems/ explanations of what is good or bad.

No Good Reason - Exploring the Problem with Evil (Louise Antony pgs. 36-45)

Claims about God according to those who believe in God (Judaism, Christianity, and Islam)

- a. God is omnipotent
- b. God is omniscient
- c. God is perfectly good

The Argument against the View of God and Why it Constitutes That There is No "Real God"

- The issue, according to Antony is *suffering*
- Reasoning: we have suffered in the world and because we suffer God is not all-powerful
why do we have these sufferings?
- Because there is suffering, there is no God that is morally sufficient since there are instances of evil that occur

- ★ The Overall Objective of this Argument is: Antony is trying to argue that in the end, the atheists are right: the problem of suffering constitutes a strong enough argument against theism in order to justify atheism.

"How can all of this be squared with the supposition that an all-powerful being set things up with the well-being of His creatures in mind?" - Louise Antony

Theism: a term used to denote the view that God, so conceived, exists.

With that, theists are those who believe that God has complete dominion over the world in which we live; most believe he is the one who created it.

Atheists: are those who deny the existence of God

Intellectual Traditions at the Medieval University (2 vol. set) Russell Friedman, 2012-10-12 This book traces the rise and decline of two rival intellectual traditions in later medieval trinitarian theology one of them predominantly Franciscan the other predominantly Dominican. Disagreeing about the way to understand the identification in John's Gospel of the second person of the Trinity the Son with the Word the two traditions clashed over the issues of concepts and concept

formation the category of relation counterfactual logic and the use of authority Considering more than seventy theologians from the period the book presents an overview of the debate while also including detailed studies of the trinitarian views of such thinkers as Thomas Aquinas Henry of Ghent John Duns Scotus Peter Auriol William Ockham Walter Chatton and Gregory of Rimini *The Academy* ,1901 **Who's who in America** ,1924 **Medical and Health Care Books and Serials in Print** ,1987 Ancient Readings of Plato's *Phaedo* ,2015-09-17 Plato's *Phaedo* has never failed to attract the attention of philosophers and scholars Yet the history of its reception in Antiquity has been little studied The present volume therefore proposes to examine not only the Platonic exegetical tradition surrounding this dialogue which culminates in the commentaries of Damascius and Olympiodorus but also its place in the reflections of the rival Peripatetic Stoic and Sceptical schools This volume thus aims to shed light on the surviving commentaries and their sources as well as on less familiar aspects of the history of the *Phaedo*'s ancient reception By doing so it may help to clarify what ancient interpreters of Plato can and cannot offer their contemporary counterparts **Medical Books and Serials in Print** ,1984 **The Medieval Reception of Book Zeta of Aristotle's *Metaphysics* (2 Vol. Set)** Gabriele Galluzzo,2012-11-09 Focusing on the medieval reception of Book Zeta of Aristotle's *Metaphysics* Volume One of this work offers an unprecedented and philosophically oriented study of medieval ontology against the background of the current metaphysical debate on the nature of material objects Volume Two makes available to scholars one of the culminating points in the medieval reception of Aristotle's metaphysical thought by presenting the first critical edition of Book VII of Paul of Venice's Commentary on Aristotle's *Metaphysics* 1420-1424 **Philosophy and Computing** Thomas M. Powers,2017-10-26 This book features papers from CEPE IACAP 2015 a joint international conference focused on the philosophy of computing Inside readers will discover essays that explore current issues in epistemology philosophy of mind logic and philosophy of science from the lens of computation Coverage also examines applied issues related to ethical social and political interest The contributors first explore how computation has changed philosophical inquiry Computers are now capable of joining humans in exploring foundational issues Thus we can ponder machine generated explanation thought agency and other quite fascinating concepts The papers are also concerned with normative aspects of the computer and information technology revolution They examine technology specific analyses of key challenges from Big Data to autonomous robots to expert systems for infrastructure control and financial services The virtue of a collection that ranges over philosophical questions such as this one does lies in the prospects for a more integrated understanding of issues These are early days in the partnership between philosophy and information technology Philosophers and researchers are still sorting out many foundational issues They will need to deploy all of the tools of philosophy to establish this foundation This volume admirably showcases those tools in the hands of some excellent scholars *The Academy and Literature* ,1901 *Books in Print* ,1991 **Paperbound Books in Print** ,1991 *Books in Print Supplement* ,1985 **Descriptions of Education Manuals Prepared Or Selected by the Editorial**
