Diefendorf, Carla Alison Hesse, 1993 Explores Natalie Zemon Davis s concept of history as a dialogue not only with the past but with other historians

Passion for History Natalie Zemon Davis, Denis Crouzet, 2010-02-01 The pathbreaking work of renowned historian

Natalie Zemon Davis has added profoundly to our understanding of early modern society and culture. She rescues men and women from oblivion using her unique combination of rich imagination, keen intelligence and archival sleuthing to uncover the past. Davis brings to life a dazzling cast of extraordinary people revealing their thoughts, emotions and choices in the world in which they lived. Thanks to Davis we can meet the impostor Arnaud du Tilh in her classic *The Return of Martin Guerre*, follow three remarkable lives in *Women on the Margins* and journey alongside a traveler and scholar in *Trickster Travels* as he moves between the Muslim and Christian worlds. In these conversations with Denis Crouzet, professor of history at the Sorbonne and well known specialist on the French Wars of Religion, Natalie Zemon Davis examines the practices of history and controversies in historical method. Their discussion reveals how Davis has always pursued the thrill and joy of discovery through historical research. Her quest is influenced by growing up Jewish in the Midwest as a descendant of emigrants from Eastern Europe. She recounts how her own life as a citizen, a woman and a scholar compels her to ceaselessly examine and transcend received opinions and certitudes. Davis reminds the reader of the broad possibilities to be found by studying the lives of those who came before us and teaches us how to give voice to what was once silent. *Social History of Art, Volume 1* Arnold Hauser, 2005-06-27. First published in 1951, Arnold Hauser's commanding work presents an account of the development and meaning of art from its origins in the Stone Age through to the Film Age. Exploring the interaction between art and society, Hauser effectively details social and historical movements and sketches the frameworks in which visual art is produced. This new edition provides an excellent introduction to the work of Arnold Hauser. In his general introduction to *The Social History of Art*, Jonathan Harris assesses the importance of the work for contemporary art history and visual culture. In addition, an introduction to each volume provides a synopsis of Hauser's narrative and serves as a critical guide to the text, identifying major themes, trends and arguments. **Subject Guide to Books in Print**, 1984. Hartwell, 2017-06-26. This volume, first published in 1971, brings together eleven essays and articles on the history of the industrial revolution. Method is the central consideration and the author discusses ways in which historians have analysed the industrial revolution, demonstrates inconsistency and bias in their interpretations and suggests an appropriate framework of economic theory for future studies.
