Readings On Fascism National Socialism:

Readings on Fascism and National Socialism University of Colorado Boulder. Department of Philosophy, 1984 The catastrophe and holocaust brought about by the two powerful movements of fascism and national socialism will mark human life always Now as we feel our hatred for them we find it difficult to understand how they could have been so powerful how they could have appealed so strongly to millions of people of a modern age To understand our own times it is necessary to understand these movements And to understand them we must read the basic philosophical and political documents which show the force of the ideas which moved a world to the brink of disaster This collection of readings has been selected to encourage students to clarify their thinking on social philosophy They will accordingly need to determine whether the readings contain more or less coherent body of ideas which constitutes a social philosophy They will also need to raise the more far reaching question of whether the ideas are acceptable To arrive at any satisfactory answer to this latter question they will necessarily have to compare the ideas of fascism and their practical meanings with the alternatives real and ideal that are the substance of live philosophical issues

Ominous Parallels Leonard Peikoff, 1983-06-01 Ayn Rand chose Leonard Peikoff to be her successor as the spokesman for Objectivism And in this brilliantly reasoned thought provoking work we learn why as he demonstrates how far America has been detoured from its original path and led down the same road that Germany followed to Nazism Self sacrifice Oriental mysticism racial truth the public good doing one's duty these are among the seductive catch phrases that Leonard Peikoff dissects examining the kind of philosophy they symbolize the type of thinking that lured Germany to its doom and that he says is now prevalent in the United States Here is a frightening look at where America may be heading a clarion call for all who are concerned about preserving our right to individual freedom

The Conscription Society Gregory James Kasza, 1995-01-01 The ability to organize millions of people for political purposes is a potent and relatively recent weapon in the struggle for power Political scientists have studied two types of mass organization the political party and the interest group In this book Gregory Kasza examines a third type which he calls the administered mass organization AMOs are mass civilian bodies created by authoritarian regimes to implement public policy Officials use them to organize youths workers women or members of other social sectors into bodies resembling the mass conscript army A network of AMOs produces a conscription society a major force in twentieth century politics in over 45 countries Using comparative history and organization theory Kasza analyzes the politics of the conscription society in both military and single party regimes He discusses the origins of AMOs in Japan the Soviet Union and Fascist Italy and their subsequent spread to China Egypt Nazi Germany Peru Poland and Yugoslavia He focuses on the use of AMOs to curb political opposition to mobilize for war and to shift control over the means of production

Kasza shows how in the hands of despotic rulers AMOs have contributed to the extremes of political barbarism characteristic of the twentieth century Waves of Rancor Robert L. Hilliard, Michael C. awareness of the rising tide of fascism and even in some cases their complicity in the activities of the fascist regime The Poets of Rapallo charts the new direction for modernist writing that these writers imagined and in the process it exposes the dark underbelly of some of the most lauded poetry in the English language *Protocols of Reading* Robert Scholes, 1989-01-01 Discussing a wide range of literary theory in a clear and accessible way prize winning author Robert Scholes here continues his ongoing construction of a humane semiotic approach to the problems of reading writing and teaching Taking the view that all the world s a text Scholes considers numerous texts from life and literature including photographs paintings and television commercials as well as biographies and novels A significant and thoughtful effort to think about the responsibilities of reading in the wake of deconstruction Choice *Protocols of Reading* is a personal avuncular book attractive in its common sense and brevity Wendy Steiner Times Literary Supplement A complex argument developed in delightful plain English *Protocols of Reading* sees both textual fundamentalism and deconstructive debunking as needful opposites in an oscillation that Scholes labels nihilistic hermeneutics Fine tuning this oscillation is what the humanistic enterprise is all about he suggests it is our key to the true connection between reading and ethics Richard A Lanham University of California Los Angeles Robert Scholes Andrew W Mellon Professor of Humanities at Brown University is also the author of *Textual Power Literary Theory and the Teaching of English Semiotics and Interpretation and Structuralism in Literature An Introduction* Contemporary Political Ideologies Lyman Tower Sargent, 1984 **Themes in Modern European History 1890-1945** Paul Hayes, 1992 *Political Ideologies* Vincent Geoghegan, Rick Wilford, 2014-03-21 Now in its fourth edition *Political Ideologies An Introduction* continues to be the best introductory textbook for students of political ideologies Completely revised and updated throughout this edition features A comprehensive introduction to all of the most important ideologies Brand new chapters on multiculturalism anarchism and the growing influence of religion on politics More contemporary examples of twenty first century iterations of liberalism socialism conservatism fascism green political theory nationalism and feminism Enhanced discussion of the end of ideology debates and emerging theories of ideological formation Six new contributors Accessible and packed with both historical and contemporary examples this is the most useful textbooks for scholars and students of political ideologies The contributors to this volume have all taught or carried out research at the School of Politics International Studies and Philosophy of Queen s University Belfast or have close research connections with the School
