Black Boys Apart Freeden Blume Oeur, 2018-08-07 How neoliberalism and the politics of respectability are transforming African American manhood While single sex public schools face much criticism many Black communities see in them a great promise that they can remedy a crisis for their young men Black Boys Apart reveals triumphs hope and heartbreak at two all male schools a public high school and a charter high school drawing on Freeden Blume Oeur s ethnographic work We meet young men who felt their schools empowered and emasculated them parents who were frustrated with co ed schools teachers who helped pave the road to college and administrators who saw in Black male academies the advantages of privatizing education While the two schools have distinctive histories and ultimately charted different paths they were both shaped by the convergence of neoliberal ideologies and a politics of Black respectability As Blume Oeur reveals all boys education is less a school reform initiative and instead joins a legacy of efforts to reform Black manhood during periods of stark racial inequality Black male academies join long standing attempts to achieve racial uplift in Black communities but in ways that elevate exceptional young men and aggravate divisions within

those communities Black Boys Apart shows all boys schools to be an odd mix of democratic empowerment and market imperatives racial segregation and intentional sex separation strict discipline and loving care Challenging narratives that endorse these schools for nurturing individual resilience in young Black men this perceptive and penetrating ethnography argues for a holistic approach in which Black communities and their allies promote a collective resilience **Even Hockey**
