This book concerns two focus particles *jiu dou* and *wh* expressions *shenme* *what na geren* *which person* in Mandarin Chinese. These items are systematically ambiguous and have played important roles in various aspects of Mandarin grammar. An idea based on alternatives and varieties of alternatives in particular following Chierchia's 2013 analysis of the polarity system is pursued to account for the systematic ambiguities. The unambiguous semantics of *jiu dou* and *wh* expressions are maintained and ambiguity explained through varieties of alternatives interacting with other independently motivated aspects of the structure they occur in. By examining these aspects in detail the book will help readers gain a better understanding of a broad range of phenomena that involve these items including exhaustivity distributivity questions and conditionals.
