Russian War Films Denise J. Youngblood, 2006-11-14 War movies have long been the most influential genre in Russian cinema so much so that in the Soviet Union s militaristic society cinema front was used to describe the film industry itself Denise J Youngblood an internationally recognized authority on Russian and Soviet cinema provides the first comprehensive guide to this long neglected genre In this illuminating study Youngblood explores more than 160 fiction films on Russian conflicts from World War I to Chechnya These movies represent a wide range of cinematic styles and critical receptions with particular emphasis on films little known in the West but popular in the USSR While not ignoring classic war films like Chapaev and The Cranes Are Flying Youngblood introduces readers to the films that shaped and reflected Soviet views of war like the rousing World War II favorite Two Warriors the Thaw classic The Living and the Dead and the Brezhnevian extravaganza Liberation This remarkably humanistic body of work was often at odds with official policies and depicted the futility of war Youngblood is especially insightful regarding the relationship between Stalinism Socialist Realism and filmmakers in creating the war film genre during an era marked by increasing militarization conformism and state terror and the importance of cinema in the World War II propaganda effort Stalin s obsession with movies led to the revisioning of his role in the Civil War and the Great Patriotic War Yet Youngblood argues Soviet filmmakers were not mere puppets of repressive regimes Indeed some filmmakers subtly subverted official politics and history in the guise of art or Hollywood style entertainment She brings the story to the present by showing how post Soviet Russian filmmakers have not only turned a critical eye on the recent wars in Afghanistan and Chechnya but are also revisiting the complex realities of World War II Through her accessible narrative Youngblood tells a fascinating story that will appeal equally to film aficionados and history buffs By tracing the evolution of cinema through the twists and turns of both Soviet and post Soviet society she helps us the role movies played in 20th century Russia not only in the making and unmaking of political myths but also in the writing of history
