Anonymous Sounds Nessa Johnston, Jamie Sexton, Elodie A. Roy, 2025-01-09 This cross disciplinary collection provides the first comprehensive study of library music practices in the 1960s and 1970s Library music was inexpensive off the shelf music available to license for a small fee It was widely used in television and film as a cheaper alternative to commissioned soundtracks The book pays attention to the different individuals groups organisations and institutions involved in making library music as well as to its transnational sites of production from continental recording studios to regional cutting rooms It addresses questions of distributed creativity collective authorship and agency Combining empirical and theoretical research the book unveils the modus operandi of a highly secretive yet enduringly significant cultural industry By drawing attention to the cultural ubiquity and intersectionality of library music the collection also shifts emphasis from individual film and TV composers to the invisible community of music publishers writers and session musicians It argues that the latter were collectively responsible for fashioning much of the sonic identity of 1960s and 1970s film and television As well as providing a nuanced understanding of historical library music cultures the collection shows how they continue to inform contemporary audiovisual cultures

Chicago Tribune: A fabulously entertaining book from the ultimate authority on those almost believable tales that always happen to a friend of a friend. Alligators in the sewers. A pet in the microwave. A tragic misunderstanding of the function of cruise control. No, it didn't really happen to your friend's sister's neighbor; it's an urban legend. And no matter how savvy you think you are, you are sure to find in this collection of over 200 tales at least one story you would have sworn was true. Jan Harold Brunvand has been collecting and studying this modern folklore for over twenty years. In *Too Good to Be True*, he captures the best stories in their best retellings along with their latest variations and examples of how the stories have changed as they move from person to person and place to place. To help you find your favorite, Brunvand has arranged the tales thematically. *Bringing Up Baby* is full of episodes of child rearing gone wrong, including the grisly tale of the drugged out baby sitter who mistakes the kid for a turkey. *Funny Business* showcases stories of infamous lapses in customer service, such as the story of the shockingly expensive chocolate chip cookie recipe. And *The Criminal Mind* features both brilliant if they were real scams as well as the purported antics of the less mentally gifted. Whether you want to become an expert debunker or just have plenty of laughs, this book will surprise and entertain you. Illustrated throughout. Informative and entertaining. Brunvand has collected more than 200 of the most repeated and best known examples of modern folk myth.
