Rennies Way:

Rennie's Way Verna Mae Slone, 2014-04-23 An intriguing mix of family history lore mountain culture and folkways skillfully bound together with an all but transparent thread of fiction Library Journal When Rennie Slone's mother dies in childbirth the twelve year old girl is unexpectedly thrust into adulthood She must keep house for her father an itinerant preacher who finds little time for family and raise her newborn sister a task that becomes Rennie's lifelong passion Against all odds she is determined that Sarah Ellen will have the education she herself has had to give up This first work of fiction by Verna Mae Slone firmly grounded in her own background is set in the 1920s and 1930s in a closeknit community in eastern Kentucky where family roots run deep At its center stands as strong and resilient a heroine as any in American literature The story of Rennie's struggles and Sarah Ellen's growth into womanhood form a richly textured picture of the simple sturdy mountain people their labor to wrest a living from the land their neighborly care for one another their shared joys their quarrels with the outside world and their distinctive dialect We see the people of Lonesome Holler raising and preserving food gathering for bean stringings molasses stir offs play parties and pie socials pitching in to clear a neighbor's land assisting at a difficult birth and helping to bury the dead Verna Mae Slone a native of Knott County Kentucky is the author of several books including the bestselling memoir *What My Heart Wants to Tell* Slone's style which includes dialogue written in dialect is lively Readers drawn to regional tales will enjoy learning about Lonesome Holler Publishers Weekly

Essays in Conveyancing and Property Law in Honour of Professor Robert Rennie Frankie McCarthy, James Chalmers, Stephen Bogle, 2015-05-11 Professor Robert Rennie has been one of the most influential voices in Scots private law over the past thirty years Highly respected as both an academic and a practitioner his contribution to the development of property law and practice has been substantial and unique This volume celebrates his retirement from the Chair of Conveyancing at the University of Glasgow in 2014 with a selection of essays written by his peers and colleagues from the judiciary academia and legal practice Each chapter covers a topic of particular interest to Professor Rennie during his career from the historical development of property law rules through to the latest developments in conveyancing practice and the evolution of the rules of professional negligence Although primarily Scottish in focus the contributions will have much of interest to lawyers in any jurisdiction struggling with similar practical problems particularly those with similar legal roots including the Netherlands and South Africa As a whole the collection is highly recommended to students practitioners and academics

well as the beautiful love story which tragically ended with Mackintosh's sudden death at the age of 60. His wife and co-artist Margaret Macdonald died three years later. **The Complete Angler ... Edited by James Rennie** Izaak Walton, 1833

Autobiography of Sir John Rennie, F.R.S., Past President of the Institute of Civil Engineers John Sir Rennie, 2022-08-15 In the Autobiography of Sir John Rennie F.R.S. Past President of the Institute of Civil Engineers the author reconsiders the evolution of civil engineering through the lens of personal experience. Rennie employs a candid and reflective narrative style seamlessly blending anecdotal insights with technical discourse to bring to life the challenges faced by engineers during the transformative era of the 19th century. The book is both a personal memoir and a historical contextualization providing readers with a detailed account of significant engineering feats including bridges and canals while capturing the socio-political landscape of the time. Sir John Rennie, a distinguished civil engineer, was deeply influenced by the early developments in engineering and the pursuit of scientific knowledge. His illustrious career, marked by groundbreaking constructions and leadership roles, shaped his perspective on the profession. Having been a prominent figure in the establishment of modern engineering practices, Rennie's experiences reflect the triumphs and tribulations of that period, offering invaluable lessons for future generations. This autobiography serves as an essential resource for historians, engineers, and anyone interested in the interplay between individual experience and professional evolution in civil engineering. Rennie's reflections not only illuminate the past but also inspire contemporary readers to appreciate the significance of engineering in societal progress. **The Way**, 1927 Rennie's Inspirational Stories for Children Rennie, 2011-09-01 This is my summary.

My book is about the love God has for children which is available for all over the world, no matter what culture they come out of, for the hearts of children is so important. **The Complete Angler ... Edited by James Rennie. With illustrations and a portrait** Izaak Walton, 1853 *Harbours, lighthouses, bridges. Smeaton and Rennie* Samuel Smiles, 1904 *Rennie Mackintosh Inspirations in Embroidery* Dorothy Wood, 2004-02-19 Charles Rennie Mackintosh and the Glasgow School of 1880-1920 produced some of the most enduring and inspiring decorative designs which still influence designers in the 21st century. Here the timeless classic motifs of Mackintosh and the Glasgow School are transferred to embroidered items for the home by leading embroiderer Dorothy Wood. Some 20 projects are covered, complete with detailed instructions, step-by-step photography of key techniques, and over 80 photographs of the finished items. The book covers the history of the movement and the various crafts that it was applied to, including enamel work, stained glass, bookbinding, and metal work. It also examines the motifs most often associated with this style, including elongated organic forms, plant forms based on early herbals, and attenuated stylized female figures. The projects include wall hangings, cushions, throws, screens, table linen, scarves, bags, and bed linen, using natural materials in the soft pastel colours of the period. Techniques covered include machine embroidery, applique, stained glass applique, reverse applique, black binding, braid work, couching, satin stitch, drawn thread work, and stencilling. **Autobiography of Sir John Rennie, F.R.S.** Anonymous, 2025-08-29 Reprint of the original.
