the services to be provided including the terms and conditions of payment The act allows consumers three days to withdraw from the contract Are not allowed to suggest or ask that the client misleads credit reporting companies about their accounts or change your identity in order to alter one s credit history Cannot consciously make false or deceptive claims with regards to their services that they are offering or are capable of offering Cannot demand that you append your signature to any document that states that you are forfeiting your rights under the Credit Repair Organization Act The truth is there is no quick fix for your credit Negative but accurate information will stay for 7 10 years on your credit report But then there are some steps that you can take to polish and set up a more positive credit history and boost your credit scores It is also important to note that a bad credit affects you now and in the years to come A bad credit score has a negative impact on everything ranging from hire purchasing to obtaining a mortgage And so the importance of a good credit cannot be overstated Factors that contribute to bad credit ratings include missed payments from mortgages loans credit card payments etc Basically a bad credit rating may arise from an inability to make timely payments on any money that you ve borrowed from building societies banks or creditors But just consider for a moment if you were in the prime ratings you would do anything and everything to not drop any points whatsoever And then there s practically no way to know how many points you would lose for missing out on payments and you would totally be in the dark about what is happening And that s why I ve put this little guide together to help you improve your credit scores Would you like to get started Then get a copy of this guide and you re good to go
