**Subject Guide to Books in Print** ,1991 **China-Africa Dispute Settlement** Won Kidane,2011-11-02 The nature and magnitude of the growth in China Africa economic relations in recent years is unprecedented and extraordinary According to recent estimates the value of China s trade with African nations grew from a mere USD 10 million in the 1980s to USD 55 billion in 2006 and to more than USD 100 billion by the end of 2009 at which time nearly 1 600 Chinese companies were doing business in Africa with a direct stock investment of about USD 7 8 billion The accelerating impetus of China Africa trade has overtaken some crucially important features of an effective trade regime most notably a fully trustworthy dispute resolution system It is the current and potential future efficacy of such a system that is taken up in this book with great understanding and skill The author evaluates existing mechanisms of dispute resolution in all aspects of China Africa economic relations in light of the parties economic and cultural profiles and their evolving legal traditions and goes on to propose a comprehensive institutional model of dispute resolution that takes full account of the economic needs and legal cultures of both China and the various African countries Among the topics and issues that arise in the course of the book are the following suitability of the WTO s dispute resolution mechanism for China Africa trade relations domestic bilateral regional and multilateral law sources affecting China Africa commerce the role of intra Africa bilateral investment treaties competing interests that underpin international investment law relevant legal economic and political challenges and cultural barriers permissible scope of regional trade regimes national treatment versus duty to compensate and harmonization initiatives model laws incoterms restatements The author includes in depth analysis of how China Africa economic relations fare in the varieties of dispute resolution methods available at the major arbitral European and American institutions ICSID AAA ICC LCIA PCA as well as under the rules of the China International Economic and Trade Arbitration Commission CIETAC and the important arbitral fora in Cairo Kuala Lumpur and Lagos Endorsing institutional arbitration as the most appropriate form of resolving trade investment and commercial disputes arising between China and African

countries this ground breaking analysis outlines the obstacles and shortcomings of the available means of dispute settlement both in international and domestic contexts and offers deeply informed recommendations for improvement of the existing system Although the book will be welcomed by interested scholars and practitioners for its detailed discussion of how China Africa trade relations are situated within the global trade regime its most enduring value lies in its thorough evaluation of the available options and its proposals for structuring a legal framework within which future disputes will be effectively resolved

**Guide to Export Controls** Philip L. Ray,Eric L. Hirschhorn,1986 **Vessel Health and Preservation: The Right Approach for Vascular Access** Nancy L. Moureau,2024-12-28 This second edition offers updated and revised information on vessel health and preservation VHP It presents a model of care and systematic application of vascular access and administration of intravenous treatment to show how establishing and maintaining a route to the bloodstream with optimal methods is essential for patients in acute care today This model concept was first published in poster form in 2008 and in JVA in 2012 which has received a great deal of attention especially in the US UK and Australia Until now little thought has been given to an intentional process to guide selection insertion and management of vascular access devices VADs and by default actions are based on crisis management when a quickly selected VAD fails The book details how VHP establishes a framework or pathway model for each step of the patient experience intentionally guiding improving and eliminating risk when possible The evidence points to the fact that reducing fragmentation establishing a pathway and teaching the process to all stakeholders reduces complications with intravenous therapy improves efficiency and diminishes cost As such this book has become a strong point of reference appealing to vascular access specialists bedside nurses physicians and other health professionals Few authoritative guides provide the depth and descriptive evidence included in this VHP model of care suitable for hospital administrators directors educators and others to apply within their services In Search of an Identity Edward Vickers,2003 This volume traces the influences that have shaped the secondary school history curriculum during Hong Kong s prolonged political transition between the 1960s and the early 21st century focusing especially on the relationship between history teaching and identity formation The author s experience as a local history teacher during the

mid 1990s made him conscious of the peculiarities of the history curriculum at this time in particular the neglect in both syllabuses and textbooks of Hong Kong's own history and the unique division between History and the entirely separate subject of Chinese History

Christian Tourist Attractions, Mythmaking, and Identity Formation Erin Roberts,Jennifer Eyl,2018-11-29 Christian Tourist Attractions Mythmaking and Identity Formation examines a sampling of contemporary Christian tourist attractions that position visitors as the inheritors of ancient sacred traditions and make claims about the truth of the historical narratives that they promote Rather than approaching these attractions as sacred expressions of religious experience or as uncontested accounts of history the book applies recent work on mythmaking and identity formation to argue that these presentations of the past function as strategic discourses that serve material concerns in the present From an approach informed by social and materialist theories of religion the volume draws upon a variety of methodological approaches that enable readers to understand the often bewildering array of objects claims demands and activities not to mention the seemingly endless array of gifts and personal items available for purchase that appear at attractions including Ark Encounter the Creation Museum the Holy Land Experience Bible Walk Museum Christian Zionist tours of Israel and the recently opened Museum of the Bible Discourse analysis practice theory rhetorical criticism and embodied theories of cognition help make sense not only of the Christian tourist attractions under examination but also of the ways that religion is entangled with contemporary social political and economic interests more broadly
