

Surviving disaster – The Titanic and SOLAS

In 1914, two years after the Titanic disaster of 1912, in which 1,503 people lost their lives, maritime nations gathered in London adopted the International Convention for the Safety of Life at Sea (SOLAS Convention), taking into account lessons learned from the Titanic. The 1914 version was superseded by SOLAS 1929, SOLAS 1948, SOLAS 1960 (the first adopted under the auspices of the International Maritime Organization) and SOLAS 1974. SOLAS 1974 is still in force today, but it has been amended and updated many times. The regulations relating to life saving appliances and arrangements, contained in chapter II of SOLAS, a new version of which entered into force on 1 July 1988, are intended to ensure that in the event of a catastrophe at sea, passengers and crew have the greatest chances of survival. Improved design and equipment, better fire protection, satellite communications, rescue planes and helicopters and trained personnel also contribute to improved safety at sea.

Speed of navigation around ice
The Convention on the Titanic ruled the ship was not to collide with an iceberg brought about by excessive speed at which she was being navigated.
Under SOLAS, when ice is reported or is seen the master of every ship at night is bound to proceed at a moderate speed or alter course.

Ice patrol
In the late SOLAS 1974, after the Titanic disaster, ice patrols in the north Atlantic were set up and intended to be a SOLAS requirement.

Public address system
There was no public address system on the Titanic and most feared for the passengers' safety, adding to the disaster and confusion.
Under SOLAS, all passenger ships must be fitted with a public address system.

Lifeboat design
Some people died from hypothermia in the Titanic lifeboats because they were open and gave no protection against the cold.
Under SOLAS, lifeboats must be fully or partially enclosed. On passenger ships, fully enclosed lifeboats can be used as they are easier to get into, but they must have a collapse roof for bad weather.

Training of crew in lifeboat drill
The crew of the Titanic received training in loading and lowering the lifeboats and the order which they were assigned to.
Lifeboats were not fitted in capacity because senior officers did not know the boats had never loaded and were strong enough.
Under SOLAS, every crew member must participate in regular practice drills and have easy access to training manuals.

Distress alert
The Titanic used radio which had a limited range of 200 nautical miles. When out of range, communication probably via postcard.

Helicopters and rescue planes
Inventions in 1912, helicopters and rescue planes are now used to locate, search for and rescue survivors.

Lifeguard drill
No lifeguard drill was run on the Titanic. Under SOLAS chapter II an abandon ship drill must take place every 30 of passenger ships.

Evacuation slides
Passengers on the Titanic jumped from windows and doorways into the Atlantic as they were lowered, often injuring themselves or other passengers.
Now emergency evacuation slides are both safer and quicker.

Number of lifeboats
The Titanic did not have enough lifeboats for all passengers.
Under SOLAS, passenger ships must carry enough lifeboats, number of which can be calculated by formula for all passengers, plus 3% for 20%.

Location
The registration on Cape Race, Newfoundland and ships other than the Carpathia and the Californian saved the Titanic because it had the information were missing and the Titanic's position had been determined.
GPS, satellite and global positioning systems, the position of a ship or distress can be automatically sent.

The Vignette
Rescue signal sent at 10 miles. Transfer of data and position to the distress alert system.
The Californian
Rescue signal sent at 10 miles. Transfer of data and position to the distress alert system.
The Titanic
Rescue signal sent at 10 miles.

Distress watch
The Californian was less than 30 miles away but the radio officer had gone off duty when the distress messages were sent.
Under SOLAS, every ship while at sea must maintain a continuous watch on the distress and safety frequencies.

Subsistence suits
The sea temperatures when the Titanic sank was below freezing point and many people died in the water from hypothermia.
Under SOLAS, a specific number of immersion suits must be carried on each passenger and cargo ship, ready for the crews of rescue boats.

Report On The Titanic Maritime:

Report into the Loss of the SS Titanic Samuel Halpern, Cathy Akers-Jordan, George Behe, Bruce Beveridge, Mark Chirnside, Tad Fitch, Dave Gittins, Steve Hall, Lester Mitcham, Charles Weeks, Bill Wormstedt, J. Kent Layton, 2016-09-08 Report into the Loss of the SS Titanic is a complete re evaluation of the loss of Titanic based on evidence that has come to light since the discovery of the wreck in 1985 This collective undertaking is compiled by eleven of the world s foremost Titanic researchers experts who have spent many years examining the wealth of information that has arisen since 1912 Following the basic layout of the 1912 Wreck Commission Report this modern report provides fascinating insights into the ship itself the American and British inquiries the passengers and crew the fateful journey and ice warnings received the damage and sinking rescue of survivors the circumstances in connection with the SS Californian and SS Mount Temple and the aftermath and ramifications that followed the disaster The book seeks to answer controversial questions such as whether steerage passengers were detained behind gates and also reveals the names and aliases of all passengers and crew who sailed on Titanic s maiden voyage Containing the most extensively referenced chronology of the voyage ever assembled and featuring a wealth of explanatory charts and diagrams as well as archive photographs this comprehensive volume is the definitive go to reference book for this ill fated ship

Titanic 1912 Ken Rossignol, 2012-03-28 The original 1912 news accounts of the Titanic disaster include the first hand accounts of survivors as told to reporters who met the ship bringing them from where they were saved from lifeboats The surviving crew describes the crucial moments after the ship hit the iceberg A crewman testifies just three days after the sinking that the ship had a fire in its coal bunkers from the time it set sail Teachers across America buy this book citing the original sources detailed that enable them to teach a lesson on the Titanic

Maritime Casualties Tuuli Messer-Bookman, 2015-08-28 Since the Titanic disaster of 1912 the horrors of major maritime casualties have prompted international conventions and domestic legislation but the link between events and outcomes which are often separated by many years is rarely understood by those working in the maritime industry This book the only comprehensive guide to this link sets forth the major casualties of the last hundred years and explains resulting regulatory changes Taking a macro level view it describes the trends and reactions across decades and how over time focus has shifted from equipment failures to people and their behaviors as the primary cause of maritime casualties Timely and thorough it also explores the alarming increase in the criminalization of maritime accidents especially the relatively recent reclassification of pollution incidents as environmental crimes This book offers broad insight to the history laws and conventions that regulate worldwide commercial maritime activity

Proceedings of the Marine Safety & Security Council ,2012 Maritime Claims and Underwater Archaeology Mariano J. Aznar, 2021-10-25 To what extent can underwater archaeology and underwater cultural heritage support a State s maritime claim Many States have plausibly extended their maritime legislative and executive jurisdiction to the outer limit of the contiguous zone to better protect underwater cultural heritage However some States

such as Canada in the Arctic China in the South China Sea or Russia in Crimea are going further claiming sovereignty over disputed maritime areas or even the high seas Maritime Claims and Underwater Archaeology aimed at internationalists and archaeologists critically assesses these recent practices reviewing this search for buried sovereignty from a legal historical and ethical perspective The World of Maritime and Commercial Law Charles Mitchell, Stephen Watterson, 2020-04-30 This collection of 20 essays contains recent work by legal scholars practitioners and judges all internationally renowned for their expertise in the fields of maritime and commercial law For maritime lawyers the book contains absorbing and important studies of the law governing maritime collisions carriage of goods by sea examining the meaning of actual carriage in the Hamburg Rules and the complex web of rules that governs multimodal carriage and marine insurance discussing the history of the doctrine of utmost good faith and jurisdiction clauses in cargo policies In the area of private international law there are chapters on the choice of law rules affecting the ownership of ships and on recent cases where conflict of laws issues have been decided by the Privy Council For generalist commercial lawyers there is a wealth of scholarship on the Sale of Goods Act 1979 its provisions and scope and on the rules of contractual interpretation their history content and application in commercial settings In addition there are chapters on negotiating damages for breach of contract illegality tracing misapplied funds the application of private law rules to disputes about cryptocurrencies and developments in the law of directors duties Taken as a whole the essays in this collection stand out for their breadth of scholarship analytical power depth of understanding and penetrating insights even into the knottiest problems of maritime and commercial law They are essential reading for every maritime and commercial lawyer and a fitting tribute to a scholar who has led the way in both fields for many decades *Monthly Catalogue, United States Public Documents* ,1986-03 **Monthly Catalog of United States Government Publications** ,1986 **United States Congressional Serial Set Catalog** ,1988 Congressional Record United States. Integrated Maritime Security Dr. Prabhakaran Paleri,2014-05-01 This book is unique in the way that it looks at the much talked about maritime security through the perspective of national security without disconnect in the terrain specific mode of the ocean The uniqueness is not in the treatment of the concept of maritime security but that of national security in a manner that is different from the beaten notion of physical security of a nation and its people from external and internal threats National security according to the author is more than just military security or the conditions of what is often termed

as internal security It is complex according to his studied findings The book provides a warning to governments that any approach to national governance without integrated maritime security can be defeating in the overall objective of maximising national security even for landlocked countries in the modern world The book provides a comprehensive review and analysis of integrated maritime security providing ample scope for further research on many of the concepts and terminologies inculcated as findings of research The interesting aspect is that the author views maritime security as a ghost protocol to hammer his ideas into the earnest listener

Report on the Activities of the Merchant Marine and Fisheries Committee United States. Congress. House. Committee on Merchant Marine and Fisheries,1981 **Marine Engineer and Motorship Builder** ,1912 **The Tragic Story of the Empress of Ireland, and Other Great Sea Disasters** Logan Marshall,2019-12-05 In The Tragic Story of the Empress of Ireland and Other Great Sea Disasters Logan Marshall delves into the harrowing accounts of maritime tragedies that have marked human history This compelling collection intertwines meticulous research with a vivid narrative style encapsulating the emotional weight and human experiences surrounding the sea disasters particularly the tragic sinking of the RMS Empress of Ireland in 1914 Marshall weaves together personal stories with broader historical context highlighting the societal implications and lessons learned from these cataclysmic events Logan Marshall a noted historian and journalist dedicated his career to chronicling significant occurrences that shaped maritime travel His fascination with maritime history stems from a deep understanding of its impact on socioeconomic factors and international relations of the early 20th century This background drives him to uncover not only the events themselves but also the human stories intertwined with them making them resonate with modern readers and historians alike This book is essential for readers interested in maritime history disaster studies and the interplay of human experiences with the unpredictable nature of the sea Marshall s deft storytelling invites readers to reflect on these tragedies offering insights into resilience and the indomitable spirit of those affected

Journal of the Senate of the United States of America United States. Congress. Senate,2012 Rhetorics of Display Lawrence J. Prelli,2021-12-24 Groundbreaking case studies mapping the rhetoric inherent in acts of presentation and concealment Rhetorics of Display is a pathbreaking volume that brings together a distinguished group of scholars to assess an increasingly pervasive form of rhetorical activity Editor Lawrence J Prelli notes in his introduction that twenty first century citizens continually confront displays of information and images from the verbal images of speeches and literature to visual images of film and photography to exhibits in museums to the arrangement of our homes to the merchandising of consumer goods The volume provides an integrated comprehensive study of the processes of selecting what to reveal and what to conceal that together constitute the rhetorics of display Surveying major historical transformations in the relationship between rhetoric and display this book also identifies the leading themes in relevant scholarship of the past three decades Seventeen case studies canvass a representative and diverse range of displays from body piercing to a civil rights memorial to a Titanic exhibition to imagery

found in gambling casinos and examine the ways that phenomena persons places events identities communities and cultures are exhibited before audiences Collectively the contributors shed light on rhetorics that are nearly ubiquitous in contemporary communication and culture
