Report Of Baseline Study On Land And Property Grabbing Etal:

Report of the Baseline Study on Land and Property Grabbing Emang Basadi Women's Association (Botswana),2002
It is an objective of the Emang Basadi Women s Association to identify problems and legal barriers relating to the advancement of women in Botswana and develop strategies to improve their political economic and legal position One such problem is property grabbing including houses furniture livestock and cars following the death of a spouse or when a couple separates This study analyses the causes of property grabbing in a culture which endorses the practises of bogadi the bride price and patlo the process of asking for a wife and where men are the chiefs and heads of families and have the right to chastise their wives It documents key informant and NGO experiences and a series of practical recommendations for legal reform designed to empower women and deliver greater social justice Report of the Baseline Study on Land and Property Grabbing ,2002

The Commons in a Glocal World Tobias Haller,Thomas Breu,Tine De Moor,Christian Rohr,Heinzpeter Znoj,2019-04-30 This volume focuses on how in Europe the debate on the commons is discussed in regard to historical and contemporary dimensions critically referencing the work of Elinor Ostrom It also explores from the perspective of new institutional political ecology NIPE how Europe directly and indirectly affected and affects the commons globally Most of the research on the management of commons pool resources is limited to dealing with one of two topics either the interaction between local participatory governance and development of institutions for commons management or a political economy approach that focuses on global change as it is related to the increasingly globalised expansion of capitalist modes of production consumption and societal reproduction This volume bridges the two addressing how global players affect the commons worldwide and how they relate to responses emerging from within the commons in a global local glocal world Authors from a range of academic disciplines present research findings on recent developments on the commons including historical insights new innovations for participatory institutions building in Europe or several types of commons grabbing especially in Africa related to European investments and restrictions on the management of commons at the international level European case studies are included providing interesting examples of local participation in commons resource management while simultaneously showing Europe as a centre for globalized capitalism and its norms and values affecting the rest of the world particularly developing countries This book will be of interest to students and researchers from a wide range of disciplines including natural resource management environmental governance political geography and environmental history

Business and Human Rights in Asia James Gomez,Robin Ramcharan,2021-01-21 This book examines the State s duty to protect human rights in Asia amidst rising concern over the human rights impact of business organisations in the region a topic which has hitherto been understudied It analyses a range of inter connected issues the advent of international standards the UN Guiding Principles on Business and Human Rights the challenges inherent in the formulation of National Action Plans on business and human rights the need for

improved legislation and policies access to remedies and conflicts with indigenous peoples over business activities The book also covers innovative themes such as BHR in the era of smart cities ethical consumer behavior and a human rights management system which are emerging areas of enquiry in this field concluding with a range of critical issues to be addressed including the need for an assessment of COVID 19 pandemic s impact on BHR in Asia and beyond This book is part of Asia Centre s exploration of the nascent regional human rights architecture that is facing significant obstacles in protecting human rights and showcases the progress achieved and the ongoing challenges across Asia [Africa's Orphaned and Vulnerable Generations](#) UNICEF.,2006 Africa s Orphaned and Vulnerable Generations Children affected by AIDS shows how the AIDS epidemic continues to affect children disproportionately and in many harmful ways making them more vulnerable than other children leaving many of them orphaned and threatening their survival Released by UNICEF UNAIDS and PEPFAR The US President s Emergency Program for AIDS Relief the report contains new and improved research on orphans and vulnerable children including what governments NGOs the private sector and the international community can do to better respond **Bioeconomy for Beginners** Joachim Pietzsch,2020-03-06 This book provides an interdisciplinary and comprehensible introduction to bioeconomy It thus provides basic knowledge for understanding a transformation process that will shape the 21st century and requires the integration of many disciplines and industries that have had little to do with each other up to now We are talking about the gradual and necessary transition from the age of fossil fuels which began around 200 years ago to a global economy based on renewable raw materials and renewable energies The success of this transition is key to coping with the challenge of climate change This book conceives the realization of bioeconomy as a threefold task a scientific an economic and an ecological one Where does the biomass come from that we need primarily for feeding the growing world population but also for future energy and material use How can it be processed in biorefineries and what role does biotechnology play in this regard Which aspects of innovation economics need to be considered which economic aspects of value creation competitiveness and customer acceptance are important What conditions must a bioeconomy fulfil in order to enable a sustainable development of life on earth May it be regarded as a key to further economic growth or shouldn t it rather orient itself towards the ideal of sufficiency By dealing with these questions from the not necessarily consistent perspectives of proven experts this book provides an interdisciplinary overview of a dynamic field of research and practice that raises more questions than answers and thus may nurture the motivation of many more people to seriously engage for the realization of a bioeconomy [Vital Signs](#) Lee Humber,2019-08-20 Nature is no longer the leading cause of death society is This makes health care one of the most important political issues today This book looks at the reasons behind the declining condition of our bodies as governments across the world choose to neglect the health of the majority of their citizens Using hard data taken from service users Lee Humber constructs a sharp analysis that gets to the heart of inequality in health care today showing that wealthy means healthy Life expectancy for many in the UK and US is

worse than it was 100 years ago and more and more communities across the world can expect shorter and less healthy lives than their parents Humber also suggests radical strategies for tackling this degenerative situation providing a compelling vision for how we can shape our health and that of future generations **Science** John Michels (Journalist),2004 A weekly record of scientific progress **Environment Abstracts** ,1985 This database encompasses all aspects of the impact of people and technology on the environment and the effectiveness of remedial policies and technologies featuring more than 950 journals published in the U S and abroad The database also covers conference papers and proceedings special reports from international agencies non governmental organizations universities associations and private corporations Other materials selectively indexed include significant monographs government studies and newsletters *African Arts* ,1993
