Representation Of Womens Emotions In Medieval And Early Modern Culture:

The Representation of Women's Emotions in Medieval and Early Modern Culture Lisa Renée Perfetti, 2005 This collection investigates the social and cultural factors that shaped the representation of women's emotions in the medieval and early modern periods and explores the consequences of this representation for women's participation in public and private life The essays focus on emotions such as sorrow joy love anger and shame as depicted in a range of texts including devotional literature drama chanson de geste lyric theological treatises and legal texts As a central component of human behavior and social interaction emotion is a fundamental category of analysis for understanding cultures of the past Teachers and scholars of medieval history religion and literature will find the questions raised by these essays to be of great value in guiding students to understand medieval culture on its own terms while appreciating the ways in which it continues to influence us today An introduction synthesizes the findings of the individual essays demonstrating how the representation of women's emotions is rooted in the medieval understanding of female embodiment which means that emotions are virtually coded as sexual when they apply to women although class and ethnicity are important factors that are shown to work in conjunction with gender in how emotions are represented The introduction also lays out several helpful theoretical models of emotion used by anthropologists psychologists and social historians

A Cultural History of the Emotions in the Medieval Age
Juanita Ruys, Clare Monagle, 2020-08-20 Our period opens at the end of the Roman Empire when intellectual currents are indebted to the Greek philosophical inheritance of Plato and Aristotle as well as to a Romanized Stoicism Into this mix entered the new and from 313CE imperially sanctioned religion of Christianity In art literature music and drama we find an increasing emphasis on the arousal of individual emotions and their acceptance as a means towards devotion In religion we see a move from the ascetic regulation of emotions to the affective piety of the later medieval period that valued the believer's identification with the Passion of Christ and the sorrow of Mary In science and medicine the nature and causes of emotions their role in constituting the human person and their impact on the same became a subject of academic inquiry Emotions also played an increasingly important public role evidenced in populace wide events such as conversion and the strategies of rulership Between 350 and 1300 emotions were transformed from something to be transcended into a location for meditation upon what it means to be human

Staging Women and the Soul-Body Dynamic in Early Modern England Sarah E. Johnson, 2016-04-01 Though the gender coded soul body dynamic lies at the root of many negative and disempowering depictions of women Sarah Johnson here argues that it also functions as an effective tool for redefining gender expectations Building on past criticism that has concentrated on the debilitating cultural association of women with the body she investigates dramatic uses of the soul body dynamic that challenge the patriarchal

subordination of women Focusing on two tragedies two comedies and a small selection of masques from approximately 1592-1614 Johnson develops a case for the importance of drama to scholarly considerations of the soul/body dynamic which habitually turn to devotional works sermons and philosophical and religious treatises to elucidate this relationship Johnson structures her discussion around four theatrical relationships each of which is a gendered relationship analogous to the central soul/body dynamic puppeteer and puppet tamer and tamed ghost and haunted and observer and spectacle Through its thorough and nuanced readings this study redefines one of the period's most pervasive analogies for conceptualizing women and their relations to men as more complex and shifting than criticism has previously assumed It also opens a new interpretive framework for reading representations of women adding to the ongoing feminist re-evaluation of the kinds of power women might actually wield despite the patriarchal strictures of their culture

Motherhood and Meaning in Medieval Sculpture Marian Blecke, 2017 An examination of women as mothers in medieval French sculpture What can medieval sculptural representations of women tell us about medieval women's experiences of motherhood Presumably the work of male sculptors working for clerical patrons these sculptures are unlikely to have been shaped by women's maternal experiences during their production Once produced however their beholders would have included women who were mothers and potential mothers thus opening a space between the sculptures' intended meanings and other meanings liable to be produced by these women as they brought their own interests and concerns to these works of art Building on theories of reception and response this book focuses on interactions between women as beholders and a range of sculptures made in France in the twelfth through sixteenth centuries aiming to provide insight into women's experiences of motherhood particular sculptures considered include the Annunciation and Visitation from Reims cathedral the *femme aux serpents* from Moissac the transi of Jeanne de Bourbon Vendôme the Eve from Autun and a number of French Gothic Virgin and Child sculptures Marian Blecke is Associate Professor of Art History and Chair of the Department of Art and Design at Cleveland State University

Witchcraft, the Devil, and Emotions in Early Modern England Charlotte-Rose Millar, 2017-07-14 This book represents the first systematic study of the role of the Devil in English witchcraft pamphlets for the entire period of state-sanctioned witchcraft prosecutions 1563-1735 It provides a rereading of English witchcraft one which moves away from an older historiography which underplays the role of the Devil in English witchcraft and instead highlights the crucial role that the Devil often in the form of a familiar spirit took in English witchcraft belief One of the key ways in which this book explores the role of the Devil is through emotions Stories of witches were made up of a complex web of emotionally implicated accusers victims witnesses and supposed perpetrators They reveal a range of emotional experiences that do not just stem from malefic witchcraft but also and primarily from a witch's links with the Devil This book then has two main objectives First to suggest that English witchcraft pamphlets challenge our understanding of English witchcraft as a predominantly non-diabolical crime and second to highlight how witchcraft narratives emphasized emotions as the primary

motivation for witchcraft acts and accusations Emotions in a Crusading Context, 1095-1291 Stephen J. Spencer, 2019-11-28 *Emotions in a Crusading Context* is the first book length study of the emotional rhetoric of crusading It investigates the ways in which a number of emotions and affective displays primarily fear anger and weeping were understood represented and utilized in twelfth and thirteenth century western narratives of the crusades making use of a broad range of comparative material to gauge the distinctiveness of those texts crusader letters papal encyclicals model sermons chansons de geste lyrics and an array of theological and philosophical treatises In addition to charting continuities and changes over time in the emotional landscape of crusading this study identifies the underlying influences which shaped how medieval authors represented and used emotions analyzes the passions crusade participants were expected to embrace and reject and assesses whether the idea of crusading created a profoundly new set of attitudes towards emotions *Emotions in a Crusading Context* calls on scholars of the crusades to reject the traditional methodological approach of taking the emotional descriptions embedded within historical narratives as straightforward reflections of protagonists lived feelings and in so doing challenges the long historiographical tradition of reconstructing participants beliefs and experiences from these texts Within the history of emotions Stephen J Spencer demonstrates that despite the ongoing drive to develop new methodologies for studying the emotional standards of the past typified by experiments in neurohistory the social constructionist or cultural historical approach still has much to offer the historian of medieval emotions **The Inner Life of Women in Medieval Romance Literature** J. Roland and La mort le roi Artu and romances such as Erec et Enide Philomena and Floire et Blancheflor to Byzantine and ancient Greek novels to Middle English travel narratives such as Mandeville's Travels In her reading of the performance of grief as one of community and remembrance Moore assesses why some lives are imagined as mattering more than others and explores how a language of grief becomes a common language of status among the medieval Mediterranean elite **Grief, Gender, and Identity in the Middle Ages**, 2021-12-20 This edited collection examines the ways in which medieval grief is both troubled and troubling troubled in its representation troubling to categories such as gender identity hierarchy theology and history among others Investigating various instantiations of grief sorrow sadness and mourning weeping and lamentation spiritual and theological disorientation and confusion keening and the drinking of blood and grief madness through a number of theoretical lenses including feminist gender and queer theories as well as philosophical sociological and historical approaches to emotion the collected essays move beyond simply describing how men and women grieve in the Middle Ages and begin interrogating the ways grief intersects with and shapes gender identity Contributors are Kim Bergqvist Jim Casey Danielle Marie Cudmore Marjorie Housley Erin I Mann Inna Matyushina Drew Maxwell Kristen Mills Jeffery G Stoyanoff Lee Templeton and Kisha G Tracy *What is the History of Emotions?* Barbara H.
