A Modest Proposal in the Context of Swift's Irish Tracts Maria-Angeles Ruiz Moneva, 2020-06-12 Swift's A Modest Proposal has always aroused the interest not just of literary critics but also of linguists and pragmatists Within the latter approaches the study of irony and more concretely the intentions and attitudes that must have guided the production of such an intricate work have always been paramount However it seems that within pragmatics the analysis has been restricted so far to the 1729 work itself In the present author's view it is interesting to contextualise this masterpiece of irony and satire within Swift's wider writing on Ireland an approach that remains to be carried out Accordingly this work sets out to analyse a

selection of Swift's Irish Tracts with a view to tracing the evolution within Swift's literary production of his views and attitudes towards the situation of his homeland. Although different pragmatic approaches are applied, the emphasis is laid upon the contributions that the relevance theoretical framework and its studies on irony may bring to the understanding of this particular Tract. The works selected are meant to cover and also be representative of the main phases currently distinguished within Swift's writing on the Irish Question. It is therefore hoped that a deeper analysis of the former works by Swift on this topic will provide new insights for a better understanding of *A Modest Proposal*. Swift for Beginners Boisy G. Representation, Heterodoxy, and Aesthetics Ashley Marshall, 2014-12-23. The chapters constituting this book are different in subject and method, striking testimony to the range of Paulson's interests and the versatility of his critical powers. In his prolific career, he has produced extensive analysis of art, poetry, fiction, and aesthetics produced in England between 1650 and 1830. Paulson's unique contribution has to do with his understanding of seeing and reading as closely related enterprises and popular forms in art and literature as intimately connected connections illustrated by literary critics and art historians here. Every essay shares some of the concerns and methods that characterize Paulson's wonderfully idiosyncratic thought, except for the final essay, an attempt systematically to analyze Paulson's critical principles and methods. Recurrent themes are a concern with satire in the eighteenth century, a connection between verbal and visual reading, an insistence on the importance of individual artistic choices to the history of culture, an attention to the aims and motives of individual makers of art, and a sensitivity to the crucial links between high and low art. This volume offers rich explorations of a range of subjects: Swift's relationship to Congreve, Zoffany's condemnation of Gillray and Hogarth, and broader implications for the role of art in public discourse, the presentation of mourning in the work of the Welsh artist and writer Edward Pugh. G. M. Woodward's *Coffee House Characters* representing a turn from satire on morals towards satire on

manners Adam Smith's evolving aesthetic program Samuel Richardson's notions of social reading The discussions represent a variety of exemplifications of the Paulsonesque showing a concern with satiric representation in mixed media with different forms of heterodoxy and iconoclasm and with the values of producers of popular and polite culture in this period
