Paula D. McClain, Joseph Stewart Jr., 2013-07-16 In a nation built by immigrants and bedeviled by the history and legacy of slavery and discrimination how do we as Americans reconcile a commitment to equality and freedom with persistent inequality and discrimination And what can we do about it This widely acclaimed text by Paula D McClain with new coauthor Jessica D Johnson Carew provides a comprehensive and accessible overview of the historical and contemporary political experience of the major groups African Americans Latinos Asian Americans and American Indians in the United States It explores the similarities and differences in these groups representation and participation in law politics and policymaking discusses the enduring issues and concerns that they face and examines intra and inter group competition and coalition building in the face of enduring conflict and inequality The seventh edition has been thoroughly revised and updated to include coverage of President Barack Obama s second term the 2016 election police brutality and Black Lives Matter and the Dakota Access Pipeline protest movement With a brand new chapter on the intersections of race and gender Can We All Get Along remains unparalleled in its comparative coverage of the current landscape of minority politics in the United States **Monthly Catalogue, United States Public Documents**, 1993 **Stance** Alexandra Jaffe, 2009-06-04 Stancetaking or speaker positioning is central to communication This collected volume explores stancetaking as a sociolinguistic phenomenon looking at how speakers use language to position themselves and others and exploring how speakers and writers make use of and sometimes transform the meaning of sociolinguistic variables in their acts of stance **The Myth of Political Correctness** John K. Wilson, 1995 The classics of Western culture are out not being taught replaced by second rate and Third World texts White males are a victimized minority on campuses across the country thanks to affirmative action Speech codes have silenced anyone who won t toe the liberal line Feminists wielding their brand of sexual correctness have taken over These are among the prevalent myths about higher education that John K Wilson explodes The phrase political correctness is on everyone s lips on radio and television and in newspapers and magazines The phenomenon itself however has been deceptively described Wilson steps into the nation s favorite cultural fray to reveal that many of the most widely publicized anecdotes about PC are in fact more myth than reality Based on his own experience as a student and in depth research he shows what s really going on beneath the hysteria and alarmism about political correctness and finds that the most disturbing examples of thought policing on campus have come from the right The image of the college campus as a gulag of left wing totalitarianism is false argues Wilson created largely through the

exaggeration of deceptive stories by conservatives who hypocritically seek to silence their political opponents Many of today's most controversial topics are here multiculturalism reverse discrimination speech codes date rape and sexual harassment So are the well recognized protagonists in the debate Dinesh D Souza William Bennett and Lynne Cheney among others In lively fashion and in meticulous detail Wilson compares fact to fiction and lays one myth after another to rest revealing the double standard that allows conservative correctness on college campuses to go unchallenged *Re-Membering and Surviving* Shirley A. James Hanshaw, 2020-10-01 The first book length critical study of the black experience in the Vietnam War and its aftermath this text interrogates the meaning of heroism based on models from African and African American expressive culture It focuses on four novels Captain Blackman 1972 by John A Williams Tragic Magic 1978 by Wesley Brown Coming Home 1971 by George Davis and De Mojo Blues 1985 by A R Flowers Discussions of the novels are framed within the historical context of all wars prior to Vietnam in which Black Americans fought The success or failure of the hero on his identity quest is predicated upon the extent to which he can reconnect with African or African American cultural memory He is engaged therefore in re membering a term laden with the specificity of race that implies a cultural history comprised of African retentions and an interdependent relationship with the community for survival The reader will find that a common history of racism and exploitation that African Americans and Vietnamese share sometimes results in the hero's empathy with and compassion for the so called enemy a unique contribution of the black novelist to American war literature
