Medicare Meltdown Rosemary Gibson,Janardan Prasad Singh,2013-04-16 Medicare affects everyone If you are a boomer you are counting on Medicare to protect you from the cost of health care when you retire If you have turned 65 you already depend on Medicare If you are a Gen X or Gen Y you are contributing to Medicare from your paycheck Will Medicare continue to exist as we have known it Will it be there when you need it How much will it cost As the future of Medicare is debated in Washington Rosemary Gibson and Janardan Prasad Singh shine a light on a rarely seen side of this storied program the business of Medicare Medicare is known as an entitlement for the nation s seniors It is also the largest entitlement based program for any business sector in the US economy Its beneficiaries include hospitals doctors drug companies device manufacturers Wall Street investment banks private equity firms hedge funds and others that rely on the 600 billion that Medicare spends a year The ties that bind Wall Street and Washington in the healthcare industry are strong and they will play an outsized role in determining Medicare s future Gibson and Singh reveal how the industry s interests are often at odds with those of seniors and boomers While some politicians point to the culture of dependence of the public on Medicare the authors suggest that policymakers turn their attention to the culture of dependence of the healthcare industry on Medicare which is the predominant force pushing the program toward a fiscal cliff The amount of waste in the Medicare program is equivalent to the entire economy of New Zealand For Medicare to be sustained this culture of dependence and the habits it breeds namely waste excessive pricing and overuse of unnecessary services should be the first priority for the chopping block By parings back the excess the authors argue Medicare can be sustained for future generations This is essential reading for anyone interested in how Medicare works how it could work better and where it will go if reforms are not made *Congressional Record* United States. Congress,1935 *The Lords of Creation* Frederick Lewis Allen,2014-06-10 A stimulating account of the capitalists who changed America in the late 19th and early 20th centuries setting the stage for the 1929 crash and Great Depression Kirkus Reviews In the decades following the Civil War America entered an era of unprecedented corporate expansion with ultimate financial power in the hands of a few wealthy industrialists who exploited the system for everything it was worth The Rockefellers Fords Morgans and Vanderbilts were the lords of creation who along with like minded magnates controlled the economic destiny of the country unrestrained by regulations or moral imperatives Through a combination of foresight ingenuity ruthlessness and greed America s giants of industry remolded the US economy in their own image They established their power and authority ensuring that they and they alone would control the means of production transportation energy and commerce creating the conditions for the stock market collapse of 1929 and the Great Depression that followed As modern society continues to be affected by wealth

inequality and cycles of boom and bust it s as important as ever to understand the origins of financial disaster and the policies practices and people who bring them on The Lords of Creation first published when the catastrophe of the 1930s was still painfully fresh is a fascinating story of bankers railroad tycoons steel magnates speculators scoundrels and robber barons It is a tale of innovation and shocking exploitation and a sobering reminder that history can indeed repeat itself
