## **Reproductive Change In Developing Countries:**

Fertility Decline in Developing Countries, 1960-1997 Samuel Agyei-Mensah, 1999-04-30 With the emergence of fertility declines in the greater part of the developing world study of the phenomenon has increased profoundly over the last three decades and a voluminous amount of literature has emerged Yet our knowledge of the decline is scattered in numerous publications making sources difficult to find This bibliography provides a guide to the literature on fertility decline in Latin America Asia and Sub Saharan Africa It will be an invaluable asset for population experts and students wishing to do research on fertility decline Covering the literature from 1960 to 1997 the book draws on extensive sources including books articles in leading population journals research papers and dissertations The opening chapter covers the literature on theories and concepts underlying fertility decline The next three chapters are devoted to the major geographical areas Latin America Asia and Sub Saharan Africa and the final chapter looks at general literature on fertility declines in developing countries

*Fertility Transition in the Developing World* John Bongaarts, Dennis Hodgson, 2022-09-01 This open access book provides an overview and analysis of the causes and consequences of the massive and highly consequential transition in reproductive behaviour that occurred in Asia Latin America and Africa since the mid 20th century In the 1950s contraceptive use was rare and women typically spend most of their reproductive years bearing and rearing children By 2020 fertility and contraceptive use in Asia and Latin America reached levels commonly observed in the developed world Africa s fertility is still high but transitions have started in all countries This monograph is the first to provide a comprehensive analysis of these trends and their determinants covering changes in reproductive behaviour e g use of contraception and abortion preferences e g desire to limit and space births and the role of socioeconomic development e g education The role of government policies and in particular family planning programs is discussed in depth Particular attention is given to provide a balanced assessment of several political and scientific controversies that have beset the field As such this book provides an interesting read for a wide audience of undergraduate and graduate students researchers and public health policy makers

The Role of Diffusion Processes in Fertility Change in Developing Countries Committee on Population, Commission on Behavioral and Social Sciences and Education, Division of Behavioral and Social Sciences and Education, National Research Council, 1999-04-12 This report summarizes presentations and discussions at the Workshop on the Social Processes Underlying Fertility Change in Developing Countries organized by the Committee on Population of the National Research Council NRC in Washington D C January 29 30 1998 Fourteen papers were presented at the workshop they represented both theoretical and empirical perspectives and shed new light on the role that diffusion processes may play in fertility transition These papers served as the basis for the discussion that is summarized in this report

*Reproductive Health in Developing Countries* National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Panel on Reproductive Health, 1997-08-02 Sexually transmitted diseases unintended

pregnancies infertility and other reproductive problems are a growing concern around the world especially in developing countries Reproductive Health in Developing Countries describes the magnitude of these problems and what is known about the effectiveness of interventions in the following areas Infection free sex Immediate priorities for combating sexually transmitted and reproductive tract diseases are identified Intended pregnancies and births The panel reports on the state of family planning and ways to provide services Healthy pregnancy and delivery The book explores the myths and substantive socio economic problems that underlie maternal deaths Healthy sexuality Such issues as sexual violence and the practice of female genital mutilation are discussed in terms of the cultural contexts in which they occur Addressing the design and delivery of reproductive health services this volume presents lessons learned from past programs and offers principles for deciding how to spend limited available funds Reproductive Health in Developing Countries will be of special interest to policymakers health care professionals and researchers working on reproductive issues in the developing world

*Dynamics of Values in Fertility Change* Richard Leete, 1999-04-01 The global transformation in the number of children women bear has been one of the most remarkable changes in social behaviour in the twentieth century The search for explanations of the causes in childbearing behaviour and particularly in the values attached to children remains a central research preoccupation of population scientists This book explores the dimensions of values identified as significant in their impact on fertility decisions It offers a range of perspectives on a mosaic of values perceived to be of importance in influencing the bearing and caring of children The book examines the macro and micro theories of the value of children and considers the multi dimensional nature of value change The chapters explore the nature of the mechanisms by which value change may serve to reinforce or promote the ideational essence of change and the impact of pressures for change It is observed that gender religion and culture all function as complementary lenses through which the necessity of value maintenance or modification is viewed The book concludes that fertility behaviour is value driven but that fertility change is not necessarily driven by value change The values of most significance to fertility are more fundamental and general values rather than explicit fertility values **Perspectives on Development and Population Growth in the Third World** O.G.

Simmons, 2012-12-06 Until the early to mid 1970s social scientists in the fields of population and development were largely going their own ways Demographers relied almost exclusively on demographic transition theory as their paradigm for understanding the role of development in population change and fertility decline Conversely most development economists and other specialists were certainly aware of the constraints placed upon development objectives by population growth However the main development theories paid little attention to population and the implications of population growth for development Indeed it was not until after the World Population Conference in Bucharest in 1974 that the interaction of population and development became a serious and positive theme for social scientific study Accordingly since about the mid 1970s an extensive literature in the field of population and development has been generated And in 1975 under the

auspices of The Population Council the journal *Population and Development Review* was founded a journal which in the past decade has developed into the premier publication in the world for work in this area But our understanding of development as it refers to change in Third World countries remained fragmented Moreover our understanding of the linkages and interactions between population and development was very limited It is in this regard that Ozzie Simmons's *Perspectives on Development and Population Growth in the Third World* will certainly have an impact *Critical Perspectives on Schooling and Fertility in the Developing World* National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Committee on Population, 1999-01-11 This volume assesses the evidence and possible mechanisms for the associations between women's education fertility preferences and fertility in developing countries and how these associations vary across regions It discusses the implications of these associations for policies in the population health and education sectors including implications for research **Population and Economic Change in Developing Countries** Richard A. Easterlin, 2007-11-01 An extremely important book which contains a number of uniformly excellent papers on a variety of topics relating to various degrees to the nexus of demographic economic interrelationships for presently developing countries William J Serow *Southern Economic Journal* An important landmark in the growing field of economic demography Dudley Kirk *Journal of Developing Areas*

*Anthropological Demography* David I. Kertzer, Thomas Earl Fricke, 1997-07-15 Revised papers originally presented at the Brown University Conference on Anthropological Demography Nov 3 5 1994 *The Demography of Africa* Bloomsbury Publishing, 1996-11-25 Written lucidly and simply to serve as an introduction to the study of the African continent from a human population perspective this book demonstrates important factors in the ebb and flow of group size and structure using the example of the fastest growing region in the world From a total original population of less than a quarter million in prehistoric times to the present count of 642 million people in 1990 Africa is now demonstrating an annual growth rate of 3.0% the highest on the planet While the rest of the world's population is expected to increase by 60% Africa's is expected to increase by 100% doubling by the year 2025 to a projected total of 1.6 billion people The major factor creating the high growth rate is the drop in death rates while the fertility rates remain high Stress on the population has been related to urbanization which has increased since African countries attained independence in the 1960s Employment opportunities in cities are inadequate and slum conditions have appeared around most major cities Since agriculture remains the major industry and occupation rural development policies are seen to hold the most promise for stemming urban migration and reducing famine and poverty **Demography - Volume I** Zeng Yi, 2010-11-30 According to the classic and widely accepted statement by Hauser and Duncan 1959 2 demography is defined as the study of the size territorial distribution and components of population changes therein and components of such changes Almost all disciplines of social sciences and most disciplines of natural sciences deal with human beings in one way or another either directly or indirectly Furthermore

demographic concepts e g birth rate death rate and migration and methods and analysis strategies e g life table analysis can be readily extended to other species insects animals plants etc and inanimate collectives enterprises automobiles etc Clearly demography is an important thematic field in science and it may provide the empirical foundation for studying human beings animals and inanimate collectives on which other relevant scientific research is built The volume aims to be of value to the various audiences of both non specialists and experts who seek a comprehensive understanding of issues related to human population As reviewed in the very beginning of the Theme Introduction interdisciplinary is one of the three major features of demography Given the rapid development in techniques for collecting not only demographic data but also other related data concerning health biomarkers genetics behaviors and social and natural environments in conventional population surveys as well as rapidly enhancing computing powers this volume shows and concludes that demography will be even more interdisciplinary in the coming decades A notable example is that the cross field marriage between bio medical sciences and demography will lead us to enter an era in which bio medical and demographic methods will be well integrated As indicated by James R Carey and James W Vaupel in Chapter 13 of this volume the bio demographic branches of demography are vibrant areas of demographic research that are rapidly growing and that have great potential to enrich and enlarge the domain of demography Not only can demographers learn much from biologists and epidemiologists but demographers can contribute much to research on life in general and to research on population health The increasing availability of data sources and much enhanced computing internet power will also lead demography to be more interactive with the other fields such as psychology environmental science economics business and management etc As discussed in this volume s Chapter 11 by Swanson and Pol for example it is now possible to link conventional demographic data sources of census surveys and vital statistics with administrative records such as social security tax reporting medical insurance hospital records school registration supermarket purchasing cards use etc while protecting individuals privacy Such linkages will substantially increase the value of demographic methods surveys and administrative records for scientific research and policy analysis as well as the applicability of demography in business and governmental decision making processes

**Economic Reforms and Fertility Behaviour** Weiguo Zhang, 2013-12-19 Based on an intensive fieldwork in a southern Hebei village in northern China 1992-3 the author takes an institutional approach and focuses on the way deliberate Chinese state policies driven by new economic and social agendas since the late 1970s have impacted on marriage family relations and consequently on the way fertility trends have been adversely affected the study is also very much concerned with the human dimension and the way in which such social and economic changes are perceived and applied in a rural community The research presented in this study goes a long way to unravelling the puzzle concerning the reasons for a very rapid decline in Chinese fertility rates contrasting sharply with a very different fertility transition within western cultures

Concise Encyclopedia of Comparative Sociology, 2014-05-12 The Concise Encyclopedia of Comparative Sociology presents the current state of knowledge in

comparative sociology for students scholars and the educated lay public The major aim of comparative sociological research is to identify similarities and differences among societies studying variation across both geographical regions and historical periods This volume is divided into six broad categories Theoretical and Methodological Issues in Comparing Societies Comparative Historical Sociology Comparing Institutions and Social Structures Comparing Social Processes Comparing Nation States and World Regions and Biographies of Exemplary Comparative Sociologists Nearly 60 essays written by distinguished experts in their fields focus on the first five categories while the biographical section contains forty biographies of both classical and contemporary sociologists who have made major contributions to comparative sociology Contributors include David Baker Wenda Bauchspies Hans Peter Blossfield Harriet Bradley Sandra Buchholz Miguel Centeno Karen Cerulo Brett Clark Amy Corning William D Antonio Mario Diani Mattei Dogan Riley Dunlap Shmuel Eisenstadt Mike Featherstone Claude Fischer Joshua Fishman William Gamson Julian Go Jack Goldstone Ralph Grillo John Hall Steve Hall Robert Heiner Joseph Hermanowicz Margret Hornsteiner David Johnson Andrew Jorgenson Jack Levy Robert Marsh Bill McCarthy David Johnson James Midgley Peter Mohler Linda Molm Benjamin Moodie Victor Nee Anthony Orum William Outhwaite Anthony Pogorelc Harland Prechel Danielle Resnick Glenn Robinson Luis Roniger Thomas Saalfeld Stephen Sanderson Michelle Sandhoff Masamichi Sasaki Saskia Sassen Andrew Savchenko Harald Schoen Howard Schuman David Segal Michael Siemon Tom Smith Joonmo Son Hendrik Spruyt Robert Stebbins George Steinmetz Piotr Sztompka Henry Teune Arland Thornton Kathleen Tierney Jonathan Turner Nicholas van de Walle Henk Vinken Veljko Vuja i Erich Weede Michel Wieviorka Ekkart Zimmermann *Third World Cities* John D. Kasarda, Allan M. Parnell, 1993 Gathering an internationally renowned group of scholars in urbanization and development studies this work explores the impact of internal and international migration on cities in the Third World Vital issues such as demographic trends economic development environmental impact welfare and housing policy are examined across a variety of geographic locations The book will be an invaluable resource for anyone engaged in policy or programme work in Third World development The SAGE Handbook of Sociology Craig Calhoun, Chris Rojek, Bryan S Turner, 2005 Providing an authoritative guide to theory and method the key sub disciplines and the primary debates in contemporary sociology this work brings together the leading authors to reflect on the condition of the discipline **Micro-Approaches to Demographic Research** John Caldwell, Allan Hill, Valerie J. Hull, 2023-10-02 Originally published in 1988 this collection of essays was the first attempt by population scientists to incorporate some of the methods and materials of anthropologists into their work The essays bridge the gap in the conceptualisation and organisation of field research by 2 sets of social scientists demographers and social anthropologists who share an interest in the explanation of particular patterns of population composition and change **Status Enhancement and Fertility** John D. Kasarda, John O. G. Billy, Kirsten West, 2013-09-03 Status Enhancement and Fertility Reproductive Responses to Social Mobility and Educational Opportunity provides a theoretical framework in which research

findings on the socioeconomic determinants of fertility may be integrated Starting with an introductory chapter on the substantive scope of the book separate chapters provide a detailed review appraisal and synthesis of the complex research literature on social mobility and fertility examine various statistical methodologies and suggest some fruitful avenues future research might pursue and discuss the role of education in enhancing the status of women and the main intervening variables that link education to reproductive behavior Subsequent chapters examines female labor force participation the value of children infant and child mortality age at marriage and first birth and family planning knowledge and practice The final chapter discusses policy issues derived from models and assessments presented in the preceding chapters This book may be used as an upper division or graduate level text in population courses

#### **Fertility Transition in South India**

Christophe Z Guilmoto, S Irudaya Rajan, 2005 This volume brings together 13 well researched and original essays which describe and analyse the trajectory of fertility decline in the south Indian states of Tamil Nadu Karnataka Andhra Pradesh and Kerala Documenting the fact that the fertility decline occurred in regions with vast differences in development indicators the contributors argue that this transition must be understood as a cumulative result of several factors including family planning policies socio economic transformation and changes in social perceptions towards fertility contraception marriage family and child rearing Combining various qualitative and quantitative techniques with field studies and historical analysis the contributors go beyond the formal tools of demography and develop an original Geographical Information System GIS a spatialized database encompassing south Indian districts

#### **Situating Fertility**

Susan Greenhalgh, 1995-07-13 This collection addresses the world wide pattern of falling birth rates Fertility has commonly been treated from a specialized demographic perspective but there is today widespread dissatisfaction with conventional demographic approaches which are criticized for neglecting the cultural social and political forces that affect reproductive behavior For their part anthropologists have only recently begun to apply their characteristic approaches to the study of reproduction Drawing on new ethnographic and historical research and on a variety of theoretical approaches the contributors to this book indicate some of the ways in which demography might take into account historical processes political forces and cultural conceptions

Handbook of Population Dudley L. Poston Jr., 2019-04-16 The 2nd edition of the Handbook of Population covers the major topics of the discipline of demography including current substantive methodological and theoretical issues of interest as well as new and emerging topics in the field In addition to revised updated and extended chapters that were included in the 1st edition this 2nd edition of the Handbook brings to the forefront entirely new chapters covering such major themes as children adoption sexuality inequality population psychology rural demography and obesity Chapters in this Handbook will expand our knowledge of the field and will raise awareness of the causes and the consequences of demographic behavior and events in societies throughout the world This 2nd edition will also serve as a reference in the field of population studies for years to come It will generate new questions and research ideas and will positively impact the growth development and

expansion of demography

### **Reproductive Change In Developing Countries Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Reproductive Change In Developing Countries has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Reproductive Change In Developing Countries has opened up a world of possibilities. Downloading Reproductive Change In Developing Countries provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Reproductive Change In Developing Countries has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Reproductive Change In Developing Countries. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Reproductive Change In Developing Countries. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Reproductive Change In Developing Countries, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Reproductive Change In Developing Countries has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so,

individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

### FAQs About Reproductive Change In Developing Countries Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Reproductive Change In Developing Countries is one of the best book in our library for free trial. We provide copy of Reproductive Change In Developing Countries in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Reproductive Change In Developing Countries. Where to download Reproductive Change In Developing Countries online for free? Are you looking for Reproductive Change In Developing Countries PDF? This is definitely going to save you time and cash in something you should think about.
