Leisure: Human-Animal Interactions in Leisure Landscapes Paula Danby,Katherine Dashper,Rebecca Finkel,2021-05-13 Multispecies Leisure Human Animal Interactions in Leisure Landscapes seeks to bring the animal in to the leisure studies domain and contribute to greater understanding of leisure as a complex interwoven multispecies phenomenon The emerging multidisciplinary field of human animal studies encourages researchers to move beyond narrow focus on human centric practices and ways of being in the world and to recognise that human and non human beings are positioned within shared ecological social cultural and political spaces With some exceptions leisure studies has been slow to embrace the animal turn and consider how leisure actions experiences and landscapes are shaped through multispecies encounters between humans other animals birds and insects plants and environment This book begins to address this gap by presenting research that considers leisure as more than human experiences The authors consider leisure with nonhuman others e.g dogs horses affecting those others e.g environmental concerns and affected by the non human e.g landscape weather by exploring the contact zones between humans and other species Thus this work contributes to greater understanding of leisure as a

complex multispecies phenomenon The chapters in this book were originally published as a Special Issue of the Leisure Studies *Reptile Biodiversity* Roy W.
