Republicanism History Theory Practice

John Regan

Republicanism History Theory Practice:

Republicanism Daniel M. Weinstock, Christian Nadeau, 2004 In this collection of writings leading historians of political thought and political theorists provide an overview of traditional and contemporary republicanism The first part of the book presents studies of ancient and modern versions of republicanism in Athenian and Roman political thought as well as in Machiavelli and Montesquieu The second part focuses on some of the key questions that confront contemporary thinkers such as What ought one to expect of a good state and civil society What are the conditions for deliberative democracy What are the theoretical implications of a republican conception of political liberty The essays in this volume advance the debate over republicanism through both a rigorous philosophical investigation of republicanism's main sources and careful analysis of its meaning

Republicanism and Political Theory Cecile Laborde, John Maynor, 2009-02-04 Republicanism and Political Theory is the first book to offer a comprehensive and critical survey of republican political theory Critically assesses its historical credentials conceptual coherence and normative proposals Brings together original contributions from leading international scholars in an interactive way Provides the reader with valuable insight into new debates taking place in republican political theory

Republicanism Christian Nadeau, Daniel Weinstock, 2004-06-01 In this collection of writings leading historians of political thought and political theorists provide an overview of traditional and contemporary republicanism The first part of the book presents studies of ancient and modern versions of republicanism in Athenian and Roman political thought as well as in Machiavelli and Montesquieu The second part focuses on some of the key questions that confront contemporary thinkers such as What ought one to expect of a good state and civil society What are the conditions for deliberative democracy What are the theoretical implications of a republican conception of political liberty The essays in this volume advance the debate over republicanism through both a rigorous philosophical investigation of republicanism's main sources and careful analysis of its meaning

Republicanism in Theory and Practice Iseult Honohan, Jeremy Jennings, 2006 This book aims to contribute to current debates on republicanism by examining the relationship between republican theory and practice in a variety of contexts

Romanticism, Republicanism, and the Swiss Myth Patrick Vincent, 2022-12-22 The first detailed treatment of Switzerland in British literature and culture from Joseph Addison to John Ruskin this book analyzes the aesthetic and political uses of what is commonly called the Swiss myth in the parallel development of Romanticism and liberalism The myth merged the country's legends going back to the Middle Ages with the Enlightenment image of a happy free nation of alpine shepherds Its unique combination of conservative progressive and radical associations enabled writers before the French Revolution to call for democratic reforms whereas those coming after could refigure it as a conservative alternative to French liberty Integrating intellectual history with literary studies and addressing a wide range of Romantic period texts and authors among them Byron the Shelleys Hemans Scott Coleridge and above all Wordsworth the book argues that the myth contributed to the liberal idea of the people as a sublime yet sleeping

sovereign Radical Republicanism Bruno Leipold, Karma Nabulsi, Stuart White, 2020-03-05 Republicanism is a powerful resource for emancipatory struggles against domination Its commitment to popular sovereignty subverts justifications of authority locating power in the hands of the citizenry who hold the capacity to create transform and maintain their political institutions Republicanism's conception of freedom rejects social political and economic structures subordinating citizens to any uncontrolled power from capitalism and wage labour to patriarchy and imperialism It views any such domination as inimical to republican freedom Moreover it combines a revolutionary commitment to overturning despotic and tyrannical regimes with the creation of political and economic institutions that realise the sovereignty of all citizens institutions that are resilient to threats of oligarchical control This volume is dedicated to retrieving and developing this radical potential challenging the more conventional moderate conceptions of republicanism It brings together scholars at the forefront of tracing this radical heritage of the republican tradition and developing arguments texts and practices into a critical and emancipatory body of political and social thought The volume spans historical discussions of the English Levellers French and Ottoman revolutionaries and American abolitionists and trade unionists explorations of the radical republican aspects of the thought of Machiavelli Marx and Rousseau and theoretical examinations of social domination and popular constitutionalism It will appeal to political theorists historians of political thought and political activists interested in how republicanism provides a robust and successful radical transformation to existing social and political orders

Republicanism in Northeast Asia Jun-Hyeok Kwak, Leigh Jenko, 2014-11-13 As rapid economic development brings increasing uncertainty in East Asia interest in a new version of republicanism termed iscalled neo Roman republicanism is growing across the region Conceptualized as liberty as non domination this new form of republicanism has inspired not only Western but also East Asian political theorists However neo Roman republican ideas in Northeast Asian countries continue to face serious conceptual and political challenges which scholarly literature on both republicanism and on East Asian politics has largely failed to confront This book addresses these challenges by surveying the latest theoretical contributions to the studies of republicanism in Western countries and the latest interpretations of how republicanism including both communitarian republicanism and neo Roman republicanism has been appropriated in countries in East Asia In particular it deals with the key question of whether liberty as non domination can work in non Western contexts where the fundamental tenets of liberal democracy such as moral individualism and value pluralism do not predominate Across three sections the chapters first provide a conceptual overview of republicanism as a global political theory they then consider how republicanism has historically been received resisted and translated into East Asia and Ffinally they examine how historically informed possibilities fit with the emergent needs of contemporary Northeast Asian societies Overall the contributors show that republicanism is an always ongoing project whose terms must be interpreted and translated into the various communities they inform Normative considerations about whether or how republicanism applies in East Asia cannot be

divorced from historical and empirical approaches which consider the various ways in which republican ideals reflect the realities of life there Dealing with the issue of republicanism from a new comparative perspective this book will have broad appeal to students and scholars of Asian studies comparative political theory political philosophy sociology and history

Republicanism, Rhetoric, and Roman Political Thought Daniel J. Kapust, 2011-03-07 Republicanism Rhetoric and Roman Political Thought develops readings of Rome's three most important Latin historians Sallust Livy and Tacitus in light of contemporary discussions of republicanism and rhetoric Drawing on recent scholarship as well as other classical writers and later political thinkers this book develops interpretations of the three historians' writings centering on their treatments of liberty rhetoric and social and political conflict Sallust is interpreted as an antagonistic republican for whom elite conflict serves as an outlet and channel for the antagonisms of political life Livy is interpreted as a consensualist republican for whom character and its observation helps to maintain the body politic Tacitus is interpreted as being centrally concerned with the development of prudence and as a subtle critic of imperial rule

A Practical Guide to Theoretical Frameworks for Social Science Research Andrea J. Bingham, Robert Mitchell, Daria S. Carter, 2024-02-13 This practical book offers a guide to finding choosing and applying theoretical frameworks to social sciences research and provides researchers with the scaffolding needed to reflect on their philosophical orientations and better situate their work in the existing landscape of empirical and theoretical knowledge Using a multifaceted approach the book provides clear definitions primary tenets historical context highlights of the challenges and contemporary discussion and perhaps more importantly concrete and successful examples of studies that have drawn on and incorporated each theoretical framework The authors define and explain the connections among such concepts as ontology epistemology paradigm theory theoretical frameworks conceptual frameworks and research methodology describe the process of finding and effectively using theoretical and conceptual frameworks in research and offer brief overviews of particular theories within the following disciplines sociology psychology education leadership public policy political science economics organizational studies and business The book also has a dedicated chapter on critical theories and for each theory provides a definition explores how the theory is useful for researchers discusses the background and foundations outlines key terms and concepts presents examples of theoretical applications and gives an overview of strengths and limitations This book offers a useful starting point for any researcher interested in better situating their work in existing conceptual and theoretical knowledge but it will be especially useful for graduate students and early career researchers who are looking for clear definitions of complex terms and concepts and for an introduction to useful theories across disciplines

Kant and International Relations Theory Dora Ion, 2012-02-27 This book challenges popular international relations theories that claim to be based on the political writings of Immanuel Kant and sheds new light on the philosopher's perspective on peace Through an analysis of Kant's philosophical work and political traditions of his time as well as of neglected concepts and theory this book reappraises modern perspectives on his work

Kant advocated a cosmopolitan community building perspective of peace and international relations that considered issues that are now significant topics of debate such as state sovereignty and unequal access to resources This book reveals how Kant's political views translate into a vision of international relations that cannot be associated with the democratic and neoliberal theories of peace which until now have claimed Kant's legacy While the democratic peace theory continues to inspire policy making Kant's predictions on war and peace ultimately prove to be most appropriate for the current issues of globalization and diversity Offering new insights into the meaning of peace and war in international relations Kant and International Relations Theory is an invaluable resource for students and scholars of international relations and political theory as well as for those interested in Kant's scholarship

Marx's Inferno William Clare Roberts, 2018-03-13 Marx's *Inferno* reconstructs the major arguments of Karl Marx's *Capital* and inaugurates a completely new reading of a seminal classic Rather than simply a critique of classical political economy William Roberts argues that *Capital* was primarily a careful engagement with the motives and aims of the workers movement Understood in this light *Capital* emerges as a profound work of political theory Placing Marx against the background of nineteenth century socialism Roberts shows how *Capital* was ingeniously modeled on Dante's *Inferno* and how Marx playing the role of Virgil for the proletariat introduced partisans of workers emancipation to the secret depths of the modern social Hell In this manner Marx revised republican ideas of freedom in response to the rise of capitalism Combining research on Marx's interlocutors textual scholarship and forays into recent debates Roberts traces the continuities linking Marx's theory of capitalism to the tradition of republican political thought He immerses the reader in socialist debates about the nature of commerce the experience of labor the power of bosses and managers and the possibilities of political organization Roberts rescues those debates from the past and shows how they speak to ever renewed concerns about political life in today's world

A General Theory of Domination and Justice Frank Lovett, 2010-05-13 In all societies past and present many persons and groups have been subject to domination Properly understood domination is a great evil the suffering of which ought to be minimized so far as possible Surprisingly however political and social theorists have failed to provide a detailed analysis of the concept of domination in general This study aims to redress this lacuna It argues first that domination should be understood as a condition experienced by persons or groups to the extent that they are dependent on a social relationship in which some other person or group wields arbitrary power over them this is termed the arbitrary power conception of domination It argues second that we should regard it as wrong to perpetrate or permit unnecessary domination and thus that as a matter of justice the political and social institutions and practices of any society should be organized so as to minimize avoidable domination this is termed justice as minimizing domination a conception of social justice that connects with more familiar civic republican accounts of freedom as non domination In developing these arguments this study employs a variety of methodological techniques including conceptual analysis formal modelling social theory and moral philosophy existing accounts of dependency power social convention and

so on are clarified expanded or revised along the way While of special interest to contemporary civic republicans this study should appeal to a broad audience with diverse methodological and substantive interests *The Invention of Market Freedom* Eric MacGilvray, 2011-06-13 How did the value of freedom become so closely associated with the institution of the market Why did the idea of market freedom hold so little appeal before the modern period and how can we explain its rise to dominance In *The Invention of Market Freedom* Eric MacGilvray addresses these questions by contrasting the market conception of freedom with the republican view that it displaced After analyzing the ethical core and exploring the conceptual complexity of republican freedom MacGilvray shows how this way of thinking was confronted with altered in response to and finally overcome by the rise of modern market societies By learning to see market freedom as something that was invented we can become more alert to the ways in which the appeal to freedom shapes and distorts our thinking about politics

Explorations in the Digital History of Ideas Peter de Bolla, 2023-11-08 What would the history of ideas look like if we were able to read the entire archive of printed material of a historical period Would our great men usually story of how ideas are formed and change over time begin to look very different This book explores these questions through case studies on ideas such as liberty republicanism or government using digital humanities approaches to large scale text data sets It sets out the methodologies and tools created by the Cambridge Concept Lab as exemplifications of how new digital methods can open up the history of ideas to heretofore unseen avenues of enquiry and evidence By applying text mining techniques to intellectual history or the history of concepts this book explains how computational approaches to text mining can substantially increase the power of our understanding of ideas in history

Deliberative Freedom Christian F. Rostboll, 2008-06-13 In *Deliberative Freedom* Christian F Rostb ll accepts the common belief that democracy and freedom are intimately related but he sees this relationship in a new and challenging way Rostb ll argues that deliberative democracy is normatively committed to multiple dimensions of freedom and that this in turn makes it a distinct model of democracy He presents a new version of deliberative democracy that rejects the prevailing synthesis of Habermasian critical theory and Rawlsian political liberalism and contends that this synthesis obscures and neglects important concerns in terms of freedom and emancipation In addition Rostb ll explores how the many dimensions of freedom supply a new and fruitful way to address issues such as paternalism elitism rationalism and neutrality

Legal Republicanism Samantha Besson, José Luis Martí, 2009-03-26 Interest in republicanism as a political theory has burgeoned in recent years but its implications for the understanding of law have remained largely unexplored *Legal Republicanism* is the first book to offer a comprehensive critical survey of the potential for creating republican accounts of fundamental issues in law and legal theory Bringing together contributors with backgrounds in political and legal philosophy the essays in the volume assess republicanism s historical traditions conceptual coherence and normative proposals The collection offers a valuable insight into new debates taking place in republican political and legal theory It also analyses potential republican approaches to concrete issues

arising in areas of law such as criminal constitutional and international law Finally the book includes comparisons between republican legal traditions and how they react to contemporary challenges The book will be of value to political and democratic theorists to legal philosophers and constitutional theorists and all those interested in the legitimacy of decision making in national and international settings

Lullabies and Battle Cries Jaime Rollins, 2018-08-17 Set against a volatile political landscape Irish republican culture has struggled to maintain continuity with the past affirm legitimacy in the present and generate a sense of community for the future Lullabies and Battle Cries explores the relationship between music emotion memory and identity in republican parading bands with a focus on how this music continues to be utilized in a post conflict climate As author Jaime Rollins shows rebel parade music provides a foundational idiom of national and republican expression acting as a critical medium for shaping new political identities within continually shifting dynamics of republican culture

Realism in Political Theory Rahul Sagar, Andrew Sabl, 2018-10-08 Over the past decade an intellectual movement known as realism has challenged the reigning orthodoxy in political theory and political philosophy Realists take issue with what they see as the excessive moralism and utopianism associated with prominent philosophers like John Rawls Ronald Dworkin and G A Cohen but what they would put in its place has not always been clear The contributors to this volume seek to bring realism into a new phase constructive rather than merely combative To this end they examine three distinct kinds of realism The first seeks to place questions of feasibility at the center of political theory and philosophy the second seeks to reorient our interpretations of key works in the canon the third seeks new interpretations or specifications of prominent ideologies such as liberalism radicalism and republicanism such that they no longer rely on abstract or systematic philosophic systems Contributors include David Estlund Edward Hall Alison McQueen Terry Nardin Philip Pettit Janosch Prinz Enzo Rossi Andrew Sabl Rahul Sagar and Matt Sleat The chapters originally published as a special issue of Critical Review of International Social and Political Philosophy

The Oxford Handbook of Citizenship Ayelet Shachar, Rainer Bauboeck, Irene Bloemraad, Maarten Vink, 2017-07-27 Contrary to predictions that it would become increasingly redundant in a globalizing world citizenship is back with a vengeance The Oxford Handbook of Citizenship brings together leading experts in law philosophy political science economics sociology and geography to provide a multidisciplinary comparative discussion of different dimensions of citizenship as legal status and political membership as rights and obligations as identity and belonging as civic virtues and practices of engagement and as a discourse of political and social equality or responsibility for a common good The contributors engage with some of the oldest normative and substantive quandaries in the literature dilemmas that have renewed salience in today's political climate As well as setting an agenda for future theoretical and empirical explorations this Handbook explores the state of citizenship today in an accessible and engaging manner that will appeal to a wide academic and non academic audience Chapters highlight variations in citizenship regimes practiced in different countries from immigrant states to non western contexts from settler societies to newly independent states

attentive to both migrants and those who never cross an international border Topics include the selling of citizenship multilevel citizenship in between statuses citizenship laws post colonial citizenship the impact of technological change on citizenship and other cutting edge issues This Handbook is the major reference work for those engaged with citizenship from a legal political and cultural perspective Written by the most knowledgeable senior and emerging scholars in their fields this comprehensive volume offers state of the art analyses of the main challenges and prospects of citizenship in today s world of increased migration and globalization Special emphasis is put on the question of whether inclusive and egalitarian citizenship can provide political legitimacy in a turbulent world of exploding social inequality and resurgent populism **Semantic**

Change and Collective Knowledge in 18th Century Britain John Regan, 2023-07-27 An in depth digital investigation of several 18th century British corpora this book identifies shared communities of meaning in the printed British 18th century by highlighting and analysing patterns in the distribution of lexis There are forces of attraction between words some are more likely to keep company than others and how words attract and repel one another is worthy of note Charting these forces this book demonstrates how distant reading 18th century corpora can tell us something new methodologically defensible and crucially interesting about the most common constructions of word meanings and epistemes in the printed British 18th century In the case studies in this book computation brings to light some remarkable facts about collectively produced forms of meaning without which the most common meanings of words and the ways of knowing that they constituted would remain matters of conjecture rather than evidence Providing the first investigation of collective meaning and knowledge in the British 18th century this interdisciplinary study builds on the existing stores of close reading praxis and history of ideas presenting a view constructed at scale rather than at the level of individual texts

Thank you for reading **Republicanism History Theory Practice**. Maybe you have knowledge that, people have search hundreds times for their chosen readings like this Republicanism History Theory Practice, but end up in harmful downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some infectious bugs inside their laptop.

Republicanism History Theory Practice is available in our digital library an online access to it is set as public so you can get it instantly.

Our books collection saves in multiple locations, allowing you to get the most less latency time to download any of our books like this one.

Kindly say, the Republicanism History Theory Practice is universally compatible with any devices to read
