

The background of the cover is a classical still life painting. It features a human skull in the center foreground, resting on a surface. To the left of the skull is a closed book with a red cover and a chain. To the right is a large, dark, multi-colored shell. In the background, there are two large, pink roses with green leaves. A lit candle in a brass holder is visible on the left side. The overall tone is dark and somber, reflecting the themes of the poetry.

orientations So naturally Britain has always loomed larger in Danish life and politics than the other way round In many areas however relations have been close The book covers contacts relating to trade security policies and social and political theory but also touch on mutual influences within the areas of literature music design etc Most treatments of Danish political and cultural relations with the outside world in this period concentrate on Germany for the period up to 1945 and on the Soviet Union and the USA in the post war world In the same way works on British contemporary history rarely devote much space to relations with the Nordic countries The aim therefore of this book is to provide a supplement and perhaps corrective to the existing literature on the international positions of Britain and Denmark in the modern world     **The Metaphysical Poets**
