Rescue Of The Stranded Whales:

Rescue of the Stranded Whales Kenneth Mallory, Andrea Conley, 1991-01-01 Describes the rescue rehabilitation and successful release of three young pilot whales that were stranded on a Cape Cod beach during the winter of 1986 **The Adventures of the Wise Owl** Mohammed Ayya, 2024-05-18 Bedtime Stories For Kids Short Bedtime Stories Series Do you want to make your child fall asleep faster at night Do you want your child to learn mindfulness while reading beautiful short stories In this book you will find a collection of stories written to help children enter a place of dreams and eventually drift off to sleep These stories are intended to stir their imaginations in such a way that the transition from fantasy and adventure into dreamland will be a seamless one Best of all your children will be able to get a good night's sleep and wake up feeling refreshed and happy The chapters are designed to take you and your family on an exciting adventure through different situations laden with imagination and surprises while also attempting to disseminate valuable lessons about important principles such as family home wrongdoing and numerous other themes While each story is unique the underlying purpose of each remains the same to confer on readers some degree of insight into moral behaviour and proper conduct Through the careful application of allegory the stories contained herein are intended not only to engage and captivate but also to serve as thought provoking tools by which your children might avail themselves of one of mankind's most powerful attributes thoughtfulness and self reflection In addition each story uses colourful and imaginative characters settings and situations to create an environment that will not only help children become interested in the story itself but also serve as a vehicle to convey a moral lesson Plus the stories in this book seek to create traditions and memories that will create everlasting moments that your children will treasure for the rest of their lives These are the kind of moments that your children will surely love to share with their children someday too So let's jump right on in and take a trip into a magical world from which your children will drift off in their sleep Don't be surprised if they don't want to wake up after having such beautiful dreams Dreamland is a cherished place for children of all ages After all it is a place where kids can truly let their imaginations flourish This book includes Bedtime stories that will truly captivate the young mind of your child Fun stories about animals adventures and legends A valuable lesson for each story In addition They will put down their phones This is a good way to encourage your child to go to sleep by listening to the scripts Each story will enhance your child's imagination and thinking And Much More Are you excited Do you want to read more Would you like your child to learn and relax falling asleep in peace Get our book now **Flyover** ,1981 **Big Miracle** Tom Rose, 2024-09-04 Now a major motion picture starring Drew Barrymore Ted Danson Kristen Bell Tim Blake Nelson John Krasinski and Vinessa Shaw an account of the dramatic rescue of three gray whales trapped under the ice in Alaska in 1988 Set in Cold War era 1988 Big Miracle tells the real story behind the remarkable bizarre and oftentimes uproarious event that mesmerized the world for weeks On October 7 an Inuit hunter near Barrow Alaska found three California Gray whales imprisoned in the Arctic ice In the past as was nature's way

trapped whales always died Not this time Tom Rose who was covering the event for a Japanese TV station compellingly describes how oil company executives environmental activists Inupiat people small business people and the U S military boldly worked together to rescue the whales He also tells the stories of some of the more than 150 international journalists who brought the story to the world s attention The rescue was followed by millions of people around the world as Ronald Reagan and Mikhail Gorbachev joined the forces of their two nations to help free the whales

Atlantic Protected Living Marine Resources (APLMR) Initiative ,1996 **Potential Impacts of U.S. Coast Guard Activities Along the U.S. Atlantic Coast, EA.** ,1995 **Unveiling the Whale** Arne Kalland,2009-10-01 Whaling has become one of the most controversial environmental issues It is not that all whale species are at the brink of extinction but that whales have become important symbols to both pro and anti whaling factions and can easily be appropriated as the common heritage of humankind This book the first of its kind is therefore not about whales and whaling per se but about how people communicate about whales and whaling It contributes to a better understanding and discussion of controversial environmental issues Why and how are issues selected How is knowledge on these issues produced and distributed by organizations and activists And why do affluent countries like Japan and Norway still support whaling which is of insignificant economic importance Basing his analysis on fieldwork in Japan and Norway and at the International Whaling Commission the author argues how an image of a superwhale has been constructed and how this image has replaced meat and oil as the important whale commodity He concludes that the whaling issue provides an arena where NGOs and authorities on each side can unite swapping political legitimacy and building personal relations that can be useful on issues where relations are less harmonious

More Freaky Animal Stories Janey Levy,2019-07-15 Animals are a familiar part of most people s lives from household pets to farm animals to backyard birds but the animal world holds an enormous number of weird and freaky stories This fascinating book is the second volume in this popular series to explore such stories Readers will be thrilled to learn about animal oddities like creatures with night vision goggles organisms that are almost invisible and even the swarm of bees that followed a car for two days to rescue their trapped queen Absorbing text and vivid images will keep readers engaged Captions sidebars fun facts and a graphic organizer enrich the narrative

Congressional Record United States. Congress,1998 **O BRAVE 'NEW NORMAL' WORLD: Living with Coronavirus** Steve Gleadhill,2024-04-23 The pandemic unleashed a strange half world not the comfortably familiar one we all knew and loved but one in which we had to tread carefully and remain vigilant Subsequently it became a game of risk management that created tensions between the political desire to return to some form of normality and the need to protect lives Inevitably this conflict of interests led to confusion confrontation and sadly deaths Despite some catastrophic misjudgements at the governmental level we ourselves must also shoulder some of the blame Social media added fuel to the fire for those who chose to challenge the official guidance as an infringement on their personal freedoms and rights and preferred to interpret

events as evidence of institutional conspiracies Amid this mayhem our planet was suffering It was estimated that one million of our eight million species on Earth are threatened with extinction some within decades A report by WWF and the Zoological Society of London revealed that animal populations globally had plunged by 68% in more than twenty thousand populations of mammals birds amphibians reptiles and fish in the last fifty years *Mouse* Daniel S. Knowles,2011-01-05 Join the mice again in this ninth mouse book as they embark on more adventures Read about Foul Smelling Bob who while taking a shower was attacked by a reptile that came out of the showerhead Romulus finds a dead body in a closet in a new house that he had purchased A living head from a dead mouse is attached to the living body of Lone Wolf Mouse who had a dead head due to a deadly accident Drool and his gang of toughs battle the Grouch Anderson Gang in coal bin Flight 100 falls into Mousetown Bay Stenny and Honest Ape land their place on the top of Niagara Falls Duck Paddler walks across the Cheese Finder River just like another biblical figure had done a long time ago Johnny Seed comes to town to spread his stuff Wanda Gizzard blows up like a balloon when she is stung by a bee A small Gila monster comes out of Toddy s mouth at a local eating place Shank Edwards swallows a knife at the Down Trodden Cafe Read about the Ghost ship that sailed into Mousetown Bay Grandma Snouser turns into a large reptile Why did the MTPD the MOusetown Police give headless mouse a traffic ticket for speeing in his car Why is Bull Roar devoured by his close friend and training buddy at the gym Throckmorton a pet frog These stories and many others are just waiting for you to take a gander at the read BUT REMEMBER READ THE STORIES AT YOUR OWN RISK There is some violence and death in some of the chapters The Beach in Anglophone Literatures and Cultures Ursula Kluwick,Virginia Richter,2016-03-09 From early colonial encounters to the ecological disasters of the twenty first century the performativity of contact has been a crucial element in the political significance of the beach Conceptualising the beach as a creative trope and as a socio cultural site as well as an aesthetically productive topography this collection examines its multiplicity of meanings and functions as a natural environment engendering both desire and fear in the human imagination from the Victorian period to the present The contributors examine literature film and art in addition to moments of encounter and environmental crisis to highlight the beach as a social space inspiring particular codes of behaviour and specific discourses as a geographical frontier between land and water as an historical site of contact and conflict and as a vacationscape promising regeneration and withdrawal from everyday life The diversity of the beach is reflected in the geographical range with essays on locales and texts from Britain Ireland the Caribbean South Africa the United States Polynesia and New Zealand Focusing on the changed function of the beach as a result of processes of industrialisation and the rise of a modern leisure and health culture this interdisciplinary volume theorises the beach as a demarcater of the precarious boundary between land and the sea as well as between nature and culture **Wild Rescues** Raina Mooncrest,AI,2025-03-05 Wild Rescues explores the vital role animal rescue plays in global conservation efforts highlighting how individual acts of dedication can significantly impact species endangerment and habitat preservation The book

emphasizes that wildlife rescue is not just a compassionate act but a critical scientific endeavor. For example, rescuing orphaned elephants allows them to return to their natural ecosystems, contributing to biodiversity and ecosystem health. The book examines the escalating rates of species extinction and habitat loss due to human activities such as deforestation and pollution and explores how advances in veterinary medicine and conservation biology have shaped rescue techniques. By showcasing real-world case studies from stranded whales to endangered species brought back through breeding programs, *Wild Rescues* illustrates the challenges rescuers face and the innovative solutions they employ. The narrative progresses from introducing core principles and ethical considerations to detailed case studies and ultimately advocates for improved conservation policies. Including evidence-based accounts and personal interviews, this book connects biology, environmental science, and ethics to demonstrate the multifaceted nature of conservation challenges and solutions, making it valuable for anyone interested in nature, biology, and conservation.

Strandings, 1994 **Chukchi Sea Planning Area: Oil and Gas Lease Sale 193 in the Chukchi Sea, Alaska: Revised Draft Supplemental Environmental Impact Statement**, DK Eyewitness Books: *Rescue* Jayne Parsons, 2001-03-28

Here is a compelling guide to the exciting world of the emergency rescue services. Dramatic full-color photographs of real incidents, equipment, clothing, and rescue techniques offer insight into the dangerous work of the heroes who risk their lives to save others. See the protective clothing that firefighters wear, the first rescue vehicles, how animals can save people's lives, and what equipment an ambulance carries. Learn how to survive until help arrives, about the work of international aid organizations, how passengers were rescued after the Titanic sank, and how people survive in times of war. Discover how rescuers locate people in collapsed buildings, why radio became essential for rescue services, how mountain rescue teams operate, what happens when a plane crashes, and much, much more. Experience heart-pounding rescues with real-life heroes.

Connection on the Ice Patti H. Clayton, 1998

On Friday, October 7, 1988, Roy Ahmaogak of Barrow, Alaska, discovered three young gray whales trapped in ice off the Arctic coast. The three-week rescue operation that followed cost more than a million dollars and grew to include the White House, the Soviet Union, the environmental community, Eskimo whalers, Alaskan oil companies, school children, and journalists from around the world, the Alaska National Guard, and a host of other corporate, governmental, scientific, and individual participants. Some called it a non-event, a fiasco, an absurd waste of money, while others considered it the most extraordinary animal rescue effort ever undertaken. In any case, it is a story not likely to be forgotten. Both complex and moving, this story grounds Patti Clayton's overview of environmental ethics theory. Using the story as a touchstone for critical comparison, Clayton explores three major traditions of environmental philosophy: extensionism, ecofeminism's care ethic, and Heideggerian Phenomenology. In doing so, she guides readers through the evolution and central concepts of each tradition, moving intriguingly between theory and the well-known rescue story as an apt illustration of the complexities of ethical deliberation. Clayton's critical thinking leads to a deeper appreciation of the ways in which different sets of assumptions yield unique interpretations of such issues. Readers

have the opportunity to consider the implications of this environmental ethics issue as a microcosm of human nonhuman interaction. The unifying narrative of the whale story, which is based on the commentary of participants and observers, provides both an engaging vehicle for the study of environmental ethics and a real world testament to the multifaceted nature of human nonhuman relationships, encouraging readers to reflect on the connection of such incidents in their own lives. Author note: Patti H. Clayton is Visiting Lecturer in the Division of Multidisciplinary Studies at North Carolina State University.

These Trees Tell a Story Noah Charney, 2023-05-02. A deeply personal master class on how to read a natural landscape and unravel the clues to its unique ecological history. Charney is an amiable host. The cumulative effect of his book on the reader is the realization that as much as we talk about managing nature, nature has been managing itself for eons just fine without us. Alexandra Horowitz. *The Atlantic*. Structured as a series of interactive field walks through ten New England ecosystems, this book challenges readers to see the world through the eyes of a trained naturalist. With guided questions, immersive photography, and a narrative approach, each chapter adds layers of complexity to a single scene, revealing the millions of years of forces at play. Tying together geology, forest ecology, wildlife biology, soil processes, evolution, conservation, and more, Noah Charney shows how and why landscapes appear in their current forms. Charney's stories and lessons will provide anyone with the necessary investigative skills to look at a landscape, interpret it, and tell its story from its start as rock or soil to the plants and animals that live on it. Ultimately, Charney argues by critically engaging with the landscape, we will become better at connecting with nature and ourselves.

Freeing the Whales Tom Rose, 1989. Much more than an account of the most massive animal rescue ever conducted, this book describes how the media turned an everyday happening into an international rescue mission that ultimately involved the two great super powers, the U.S. and Russia, in freeing the trapped whales. 12 pages of photos.
