Research As Social Change New Opportunities For Qualitative Research:

Research as Social Change Michael Schratz, Rob Walker, 2005-07-08 Have you ever thought research is boring Research writes Umberto Eco should be fun It seems unlikely that Umberto Eco has read many of the standard social science or education research texts But social research does offer the possibility of involvement in projects that are informative sometimes revealing and fun to do This book shows us that teaching learning and research are essentially social and deeply personal activities and that fun needs to be an integral part of this This is not a conventional text although it is about ways in which research can be used by those in various areas of professional practice Its main concerns are with qualitative research action research and case study methods and it goes back to first principles arguing for research that is concerned with the nature of personal memories and of perception the use of drawings and photographs the emotional relationships implicit in any kind of research and the context of the contemporary workplace The authors develop new directions and new possibilities for research and find ways of bringing together theory and practice the personal and the social organisations and their clients It is an important resource for all who are interested in doing research but are sceptical or critical of most studies that are currently available

Handbook of Research Methods in Social Work Margaret Alston, Penny Buykx, Wendy Foote, David Betts, 2025-01-09 This insightful Handbook provides a comprehensive overview of the unique and varied methods of social work research drawing on examples of research projects undertaken in a variety of countries cultures and social work settings

Doing Research Daniel Druckman, 2005-03-16 Winner of the 2006 outstanding book award for books published in 2004 2005 from the International Association for Conflict Management at their annual meeting held in Montreal An award winning book Doing Research is a must read Designed for students across a variety of social science disciplines it is the first research methods text devoted to conflict analysis and resolution It begins with a discussion of the philosophical foundations for doing research providing guidelines on how to develop research questions and how these questions can be addressed with various methodologies The book presents a wide ranging treatment of both quantitative and qualitative approaches to the design and analysis of problems of conflict The approaches covered include experiments simulations and models surveys single and comparative case studies ethnographies content analysis narrative analysis evaluation research action research and research consulting These approaches come alive in a variety of applications culled from the published literature A concluding chapter provides an integration of the various methodologies including their complementary strengths Throughout the book author Daniel Druckman illustrates the value of a multi method approach to doing research on conflict analysis and more generally across the social sciences Key Features Guides readers through how to do literature reviews and ask research questions easing students into the research process Weaves together qualitative and quantitative as well as deductive and inductive approaches to analysis allowing for the widest possible diversity in methodology Includes numerous examples from published articles and dissertations and a discussion of research consulting

Doing Research is perfectly suited as a text for research methods courses across the social sciences especially those dealing with conflict analysis in departments of political science communication psychology sociology and management Professional researchers and consultants will also want to add this book to their libraries for guidance on multi method techniques This is an extremely important book for our field because it is the first research methods book that focuses on techniques that are common in this area but transcends disciplines I am confident that the book will be used widely in our field because it is both practical and engaging William A Donohoe Michigan State University Doing Research is a gem It provides multiple research methods and models focusing on conflict analysis and resolution that can be used by any student in a variety of social science disciplines or fields of study I wish this book had been written 20 years ago Brian Polkinghorn Salisbury State University Doing Research is the most widely acclaimed book on research methods for conflict resolution students to appear in recent years The book provides a wonderfully rich array of ideas about ways to do research for both the scholar and practitioner pracademic enriching the analysis and practice in the conflict resolution field The author has a diverse intellectual background and his wide ranging research experience informs the contributions made by this book to conflict analysis and resolution and to related social science fields Sean Byrne University of Manitoba Everyday Ethics Gretchen Rossman, Sharon Rallis, 2014-06-11 Everyday Ethics Reflections on Practice looks at the moments that demand moral consideration and ethical choice that arise as part of a researcher s daily practice Drawing on principles of systematic inquiry as transparent and grounded in conceptual reasoning it describes research as praxis and the researcher as practitioner The researcher is a decision maker for both procedural and ethical matters that attend the conduct of research especially when the research is focused on human wellbeing Every decision about data collection analysis interpretation and presentation has moral dimensions Morally compelling moments demand a reflexivity research praxis that is informed action the back and forth between reasoning and action Methodological wisdom emerges during the cyclical process of inquiry that is doing thinking about the doing through a moral lens and doing again This book invites us to deepen our understanding of everyday ethics and contributes to the ongoing discourse about research as moral practice conducted by such reflexive practitioners This book was originally published as a special issue of the International Journal of Qualitative Studies in Education

Handbook of Participatory Video Elizabeth-Jane Milne, Claudia Mitchell, Naydene De Lange, 2012 Participatory video is a growing area of research and an increasingly popular tool among practitioners researchers and NGOs working with communities around the world The Handbook of Participatory Video advances the field engaging critically with it as a research methodology and method and interrogating assumptions about its emancipatory nature and potential for social change In twenty eight chapters contributors examine historical ethical methodological and technical aspects of participatory video and discuss power ownership and knowledge production The Handbook is organized into six parts Locating Participatory Video Participatory Video as a Critical Research Methodology Working with Visual Data Power and Ethics in

Participatory Video Dissemination and Reaching New Audiences and Communities and Technologies This benchmark work takes an interdisciplinary and global approach and will be invaluable to researchers practitioners and students

Participatory Visual Methodologies in Global Public Health Claudia Mitchell,Marni Sommer,2018-10-18 Participatory Visual Methodologies in Global Public Health focuses on the use of participatory visual methodologies such as photovoice participatory video including cellphilmimg or the use of cell phones to make videos drawing and mapping in public health research These approaches are modes of inquiry that can engage participants and communities eliciting evidence about their own health and well being as well as modes of representation and modes of production in the co creation of knowledge and modes of dissemination in relation to knowledge translation and mobilization Thus the production by a group of girls or young women of a set of photos or videos from their own visual perspective can offer new evidence on how for example they see sexual violence Unlike other data such as those collected through surveys or even conventional interviews the images they have produced not only inform the empirical evidence but also do not need to remain in a laboratory or the office of a researcher They can through exhibitions and screenings reach various audiences school or health personnel parents and community members and perhaps also policy makers This collection offers a critical overview for students practitioners researchers and policy makers working in or concerned with the use of participatory methodologies in public health around the globe This book was originally published as a special issue of Global Public Health Muslim Women in Britain Sariya Cheruvallil-Contractor,2012-09-10 Perceptions of Muslim women in Western society have been shaped by historical and sociological conditions such as colonialism patriarchy and Orientalism In Muslim Women in Britain Sariya Contractor seeks to reinstate the Muslimah as a storyteller who tells her own story An exploration of the lives of British Muslim women this book examines issues of femininity Britishness inter communal relations and social cohesion Presenting the reader with incisive narratives of Muslim women on familiar topics such as the hijab Muslim women in the media and feminist debate particularly in a Western context Sariya Contractor makes a valuable contribution to the existing literature on Islamic studies social anthropology feminist philosophy and social cohesion Presenting a complex and nuanced retelling of Muslim women s realities as explored through their own voices stories and experiences this book will be of interest to scholars and students of Islamic studies Women s studies Social Anthropology and Sociology seeking a fresh perspective on Muslim women in Britain

Evidence-Based Practice Liz Trinder, 2008-04-30 Evidence based practice is an idea whose time has come Few concepts can have achieved the status of unchallengeable common sense in such a short space of time and across such a broad range of professional activity As yet there have been few opportunities to take stock and reflect on the evidence for evidence based practice or the implications of its adoption How effective or feasible is it in medicine Is it really different What are the consequences of not basing practice on research Can evidence based practice be used in non clinical settings where practitioners must deal with the complexity

of multi problem individuals families and organizations This text introduces the key concept of Evidence Based Practice and accounts for its emergence and rapid expansion within and beyond medicine It then goes on to describe how evidence based practice is being translated in key areas medicine nursing mental health education and social welfare while critically appraising the strengths and weaknesses of evidence based practice as it applies in a range of fields of professional practice

Education for Sustainable Development Roger Firth, Maggie Smith, 2018-10-09 To integrate the principles values and practices of sustainable development into all aspects of education and learning was the overarching goal of the UN Decade of Education for Sustainable Development 2005 2014 This it was believed would save the planet encouraging behaviour changes to allow for the development of a more sustainable and just society for all Awareness of sustainable development has risen enormously in recent years challenging us as individuals and as families workplaces and communities both local and global to think about and act upon the major issue which we face The Decade reaffirmed the United Nations commitment to the crucial role of education and learning in the pursuit of sustainable development and the need for far reaching changes in the way education is often practised Of course the very idea that education should be for something whether sustainable development or anything else remains as questionable as ever Nevertheless the instigation of the Decade clearly recognised the need for intensified efforts to achieve sustainable development This book reflects on the role and impact of the Decade in helping to reorient education towards sustainability and looks forward beyond the end of the Decade and its achievements to contemplate the way ahead giving special attention to case studies and the state of affairs in England The authors offer different perspectives on the effectiveness and value of particular initiatives and practices that are responses to the Decade This book was originally published as a special issue of The Curriculum Journal
