Timothy Sibbald, Victoria Handford, 2020-09-01 Tenure is a pivotal decision for the academy If it is earned it provides security and permanence creating further academic freedom to pursue research and interests important to the institution and to society If it is not earned then the peer review process provides clarification for why it has not been earned This book brings together lived experiences of academics around the time of the tenure decision While the book stands alone it has the same

collection of authors who wrote about their tenure track experiences in *The Academic Gateway* making the pair of books a remarkable longitudinal collection. The authors explore the complex relationship between academics, the academy as an ideal, and universities as an enactment of that ideal. Personal growth is evident and shows diversity of experience as the maturing relationships with the role and workplace unfurl. Where tenure track is a very personal journey, the period around tenure is necessarily a form of engagement with peers. Yet it has challenges, particularly in a milieu where academic freedom is being nurtured. Individual authors negotiate their choices between their personal objectives and institutional mandates and policies. Simultaneously, after years in the tenure track, they continue to be evolving as academics, whether through personal growth or by seeking changes in the academy itself. Published in English.

*Practice as Research in the Arts (and Beyond)* Robin Nelson, 2022-05-19. This project addresses the contexts of Practice as Research and how to undertake it. This second iteration updates thinking and practices but sustains a direct and clear approach on how to become a practitioner-researcher. New features include an extension of range beyond the arts and a case for intra-disciplinarity in Practice Research as an influence in the formation of the future university. A comparison is made between Artistic Research and Practice Research, recognizing that research through practices with being-doing-knowing is central to both. Acknowledging the current crisis in legitimation, a broad view is taken of how things might be known by an onto-epistemology for the twenty-first century, foregrounding the bodymind but sustaining rationality and community by way of other dialogic exchange. Perspectives from around the world in Part II offset the more Eurocentric emphasis in Part I.

*Beyond the Altar* Christine L.M. Gervais, 2018-04-26. *Beyond the Altar* illustrates how women religious overcome sexist subjugation by sidestepping the patriarchal power of the Roman Catholic Church.
