Built for Speed John McGuinness,2017-05-04 Go on the ride of your life with the racing legend himself with a thrilling NEW CHAPTER on John s dramatic 2017 crash Then I was there myself just another face in the crowd watching the bikes fly by The smells the noise and the speed were all there for me to experience It was like a massive injection in my head and it just blew my mind I knew within seconds that I was going to be a TT racer I didn t know how or what I was going to have to do to achieve this and my dad wasn t going to be keen Everyone around me was aware of the dangers but from that moment I knew I had to do it John McGuinness is one of the all time giants of road racing with a huge host of victories to his name But his easy humour and down to earth attitude off the bike have always kept people guessing what s the truth about the man inside the helmet that has kept him at the top of such a sport for over 20 years His autobiography tells the whole story from his humble beginnings in Morecambe and getting his first bike at the age of 3 to working as a bricklayer and cockle fisherman before deciding to follow his dream and finally to his many victories in the most dangerous sporting event on the planet He tells of what it takes to be a champion in such an exacting sport and to keep winning even though all logic tells you to stop and when so many of your fellow racers are paying the ultimate price for doing it This thrilling autobiography gets into the head of the man who stares death in the face and doesn t even flinch Riding in the Wind James T. The Upper Half of the Motorcycle Bernt Spiegel,2019-08-06 Bernt Spiegel's *The Upper Half of the Motorcycle* was a best selling motorcycling book in its original German with multiple editions and printings to its credit Now translated into English its provocative message is available to a wider audience Spiegel's metaphor considers the rider and the motorcycle as a single unit the rider being the upper half Taking a multidisciplinary approach the author draws on anthropology psychology biology physics and other disciplines to analyze the theory and function of the man machine unit Motorcycle riding is seen as a junction where people have created machines for personal transport and then become so adept at using them that the machine becomes like an extension of the rider themselves The ultimate goal for riders is the integration of the man machine interface and subsequent skill development to the point of virtuosity Spiegel considers the various aspects of motorcycle riding that must be understood practiced and mastered before virtuosity can be attained Many anecdotes supplementary material and in depth treatment of specialized topics is contained in sidebars and footnotes Numerous diagrams and photographs illustrate the book's principles allowing the reader to consider and develop their riding skill set

Practical Horsemanship in Medieval Arthurian Romance Anastasija Ropa,2019-12-31 The figure of a knight on horseback is the emblem of medieval chivalry Much has been written on the ideology and practicalities of knighthood as portrayed in medieval romance especially Arthurian romance and it is surprising that so little attention was hitherto granted to the knight's closest companion the horse This study examines the horse as a social indicator as the knight's animal alter ego in his spiritual peregrinations and earthly adventures the ups and downs of chivalric adventure as well as the relations between the lady and her palfrey in romance Both medieval authors and their audiences knew more about the symbolism and practice of horsemanship than most readers do today By providing the background to the descriptions of horses and horsemanship in Arthurian romance this study deepens the readers appreciation of these texts At the same time critical reading of romance supplies information about the ideology and daily practice of horsemanship in the Middle Ages that is otherwise impossible to obtain from other sources be it archaeology chronicles or administrative documentation

Motorcycling and Leisure Paul Broughton,Linda Walker,2016-12-05 Despite the fact that there are around 1.2 million powered two wheelers PTWs within the United Kingdom riders are often misconceived as living at the edge of society however this is often far from the truth Riding a PTW is a high risk activity and those who ride are often perceived as being risk junkies but through an in depth exploration of this leisure activity *Motorcycling and Leisure* explains that riders ride because they enjoy it and do not necessarily enjoy the risk involved The book presents a range of contemporary research on riders and how they find enjoyment The book further explores the rider goal of enjoyment and utilises Fuller's task homeostasis theory along with Csikszentmihalyi's theory of flow to develop an

understanding of the interaction between risk and goals In conclusion it develops principles of interventions with the aim of guiding intervention design and reducing the number of motorcycle crashes
