African Americans and the Mississippi River Dorothy Zeisler-Vralsted, 2022-09-30 This book follows the historical trajectory of African Americans and their relationship with the Mississippi River dating back to the 1700s and ending with Hurricane Katrina and the still contested Delta landscape Long touted in literary and historical works the Mississippi River remains an iconic presence in the American landscape Whether referred to as Old Man River or the Big Muddy the Mississippi River represents imageries ranging from the pastoral and Acadian to turbulent and unpredictable However these imageries revealed through the cultural production of artists writers poets musicians and even filmmakers did not reflect the experiences of everyone living and working along the river Missing is a broader discourse of the African American community and the Mississippi River Through the experiences of African Americans with the Mississippi River which included narratives of labor free and enslaved refuge floods and migration a different history of the river and its environs emerges The book brings multiple perspectives together to explore this rich history of the Mississippi River through the intersection of race and class with the environment The text will be of great interest to students and researchers in environmental humanities including environmental justice studies ethnic studies and US and African American history **EE News** ,1999

The Natural West Dan Flores, 2003-03-30 The Natural West offers essays reflecting the natural history of the American West as written by one of its most respected environmental historians Developing a provocative theme Dan Flores asserts that Western environmental history cannot be explained by examining place culture or policy alone but should be understood within the context of a universal human nature The Natural West entertains the notion that we all have a biological nature that helps explain some of our attitudes towards the environment Flores also explains the ways in which various cultures including the Comanches New Mexico Hispanos Mormons Texans and Montanans interact with the environment of the West Gracefully moving between the personal and the objective Flores intersperses his writings with literature scientific theory and personal reflection The topics cover a wide range from historical human nature regarding animals and exploration to the environmental histories of particular Western bioregions and finally to Western restoration as

the great environmental theme of the twenty first century The Yellow River Ruth Mostern,2021-01-01 A three thousand year history of the Yellow River and the legacy of interactions between humans and the natural landscape From Neolithic times to the present day the Yellow River and its watershed have both shaped and been shaped by human society Using the Yellow River to illustrate the long term effects of environmentally significant human activity Ruth Mostern unravels the long history of the human relationship with water and soil and the consequences at times disastrous of ecological transformations that resulted from human decisions As Mostern follows the Yellow River through three millennia of history she underlines how governments consistently ignored the dynamic interrelationships of the river s varied ecosystems grasslands riparian forests wetlands and deserts and the ecological and cultural impacts of their policies With an interdisciplinary approach informed by archival research and GIS geographical information system records this groundbreaking volume provides unique insight into patterns transformations and devastating ruptures throughout ecological history and offers profound conclusions about the way we continue to affect the natural systems upon which we depend The nature park guide for New River Gorge (USA) ,2025-09-26 **Cities and Natural Process** Michael Hough,2004 This key book is a revised and updated discussion of the fundamental conflict in the perception of nature and an expression of the essential need for an environmental view when approaching urban design Whilst retaining the existing structure each of the chapters has been revised to take into account recent theoretical and practical developments A completely new concluding chapter has been added which draws together the themes of the volume and links these to broader landscape issues such as greenway systems landscape ecology and green infrastructure **Subject Guide to Books in Print** ,1991 Choice ,2001 **A Historical Survey of the Yellow River and the River Civilizations** Jianxiong Ge,Yunsheng Hu,2021-01-04 This book explores the relationship between rivers and ethics in China with a particular focus on the health of the Yellow River and China s sustainable development Though the book falls into the category of East Asian History it is an interdisciplinary academic work that addresses not only history but also culture human geography and physical geography It traces the changes in the Yellow River over time and examines the origin and developmental course of Chinese civilization which has always been closely intertwined with the Yellow River It also draws comparisons between the Yellow River and the Yangtze Nile Tigris Euphrates and Indus rivers to provide insights into how they have contributed to civilizations At the same time it discusses the lessons learned from people s taming the Yellow River Most significantly the book explores the relationship between humans and the environment from an ethical standpoint making it an urgent reminder of the crucial role that human activities play in environmental issues concerning the Yellow River so as to achieve a sustainable development for China s mother river The intended audience includes academic readers researching East Asian and Chinese history culture geography human geography historical geography the environment river civilizations etc as well as history and geography lovers and members of the general public who are interested in the Yellow River and the civilization that has evolved around
