Road To Impressionism Josephine Bowes:

The Road to Impressionism Howard Coutts, Bowes Museum, 2002 *Henry James and the Art of Impressions* John Scholar, 2020 Henry James criticized the impressionism which was revolutionizing French painting and French fiction and satirized the British aesthetic movement which championed impressionist criticism Yet time and again he used the word impression to represent the most intense moments of consciousness of his characters as well as the work of the literary artist Henry James and the Art of Impressions argues that the literary art of the impression as James practised it places his work within the wider cultural history of impressionism Henry James and the Art of Impressions offers an unprecedentedly detailed cultural and intellectual history of the impression It draws on philosophy psychology literature critical theory intellectual influences and aesthetics to study James s early art criticism literary criticism travel writing prefaces and the three great novels of his major phase *The Ambassadors* *The Wings of the Dove* and *The Golden Bowl* It argues that the coherent philosophical meanings of the Jamesian impression emerge when they are comprehended as a family of related ideas about perception imagination and aesthetics bound together by James s attempt to reconcile the novel s value as a mimetic form and its value as a transformative creative activity Henry James and the Art of Impressions traces the development of the impression across a range of disciplines to show how James s use of the word owes them cultural and intellectual debt It offers a more philosophical account of James to complement the more historicist work of recent decades

"Sculptors and Design Reform in France, 1848 to 1895 " Claire Jones, 2017-07-05 Challenging distinctions between fine and decorative art this book begins with a critique of the Rodin scholarship to establish how the selective study of his oeuvre has limited our understanding of French nineteenth century sculpture The book s central argument is that we need to include the decorative in the study of sculpture in order to present a more accurate and comprehensive account of the practice and profession of sculpture in this period Drawing on new archival sources sculptors and objects this is the first sustained study of how and why French sculptors collaborated with state and private luxury goods manufacturers between 1848 and 1895 Organised chronologically the book identifies three historically situated frameworks through which sculptors attempted to validate themselves and their work in relation to industry industrial art decorative art and objet d art Detailed readings are offered of sculptors who operated within and outside the Salon including S n Ch t Carrier Belleuse and Rodin and of diverse objects and materials from S es vases to pewter plates by Desbois and furniture by Barbedienne and Carabin By contesting the false separation of art from industry Claire Jones s study restores the importance of the sculptor manufacturer relationship and of the decorative to the history of sculpture **Camille Pissarro, 1830-1903** Joachim Pissarro, Claire Durand-Ruel Snollaerts, Camille Pissarro, Alexia de Buffévent, Wildenstein Institute, 2005 **The Burlington Magazine** , 2004 Museums Journal Elijah Howarth, F.
