The Melting Pot and the Altar Richard M. Bernard, 1980 *The Life and Times of Charles R. Crane, 1858-1939* Norman E. Saul, 2012-12-21 In *The Life and Times of Charles R. Crane* Norman E. Saul analyzes the contributions of Charles R. Crane world traveler businessman diplomat and philanthropist in the setting of his times Crane acquired his appreciation for Russian culture and life through travel in the country making a total of twenty-four trips to Russia He developed friendships and professional relationships with many prominent Russians in political cultural and artistic spheres in addition to his connections to important figures in American history such as Woodrow Wilson As the son of a Chicago industrialist with little formal education Charles R. Crane enjoyed remarkable success serving as a financial backer and advisor to the Woodrow Wilson administration founding member of the 1917 Root Commission to Russia minister to China and establishing a factory in Russia to manufacture air brakes for the Russian railroad He devoted a considerable amount of his own time and resources to educating Americans about the Russian people He sponsored visiting lecturers subsidized publications and commissioned works by Russian artists Charles Crane was arguably the first true American globalist His activities involved Russia China and the Middle East but Saul emphasizes his travels in Russia and his role in the development and promotion of Russian studies in America Crane represented the United States becoming a world power in business and diplomacy and fostered an American appreciation and knowledge of Russian Asian and Middle Eastern societies By studying this unusual man Saul explores the world in which he lived and traveled The relationship between America and Russia has always been a complex and fascinating one and Saul shines light on a pivotal period in that relationship

[The Good Country](#) Jon K. Lauck, 2022-11-21 At the center of American history is a hole a gap where some scholars indifference or disdain has too long stood in for the true story of the American Midwest A first ever chronicle of the Midwest's formative century *The Good Country* restores this American heartland to its central place in the nation's history Jon K. Lauck the premier historian of the region puts midwestern squares center stage an unorthodox approach that leads to

surprising conclusions The American Midwest in Lauck's cogent account was the most democratically advanced place in the world during the nineteenth century The Good Country describes a rich civic culture that prized education literature libraries and the arts developed a stable social order grounded in Victorian norms republican virtue and Christian teachings and generally put democratic ideals into practice to a greater extent than any nation to date The outbreak of the Civil War and the fight against the slaveholding South only deepened the Midwest's dedication to advancing a democratic culture and solidified its regional identity The good country was of course not the perfect country and Lauck devotes a chapter to the question of race in the Midwest finding early examples of overt racism but also discovering a steady march toward racial progress He also finds many instances of modest reforms enacted through the democratic process and designed to address particular social problems as well as significant advances for women who were active in civic affairs and took advantage of the Midwest's openness to women in higher education Lauck reaches his conclusions through a measured analysis that weighs historical achievements and injustices rejects the acrimonious tones of the culture wars and seeks a new historical discourse grounded in fair readings of the American past In a trying time of contested politics and culture his book locates a middle ground fittingly in the center of the country *The 20th Century Go-N* Frank N. Magill, 2014-03-05 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in-depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography **Against the Grain** Robert Underhill, 2014-03-01 Dynamic individuals one man or one woman at a time frequently have played a role in slowing or hastening the forces that make history Prof Underhill shows the personalities strengths and weaknesses of six men whose momentous decisions helped shape society High school and college students may have heard of Ignatius Donnelly Theodore Roosevelt Eugene Debs Robert LaFollette George Norris and Henry Agard Wallace this informal history brings them to life and shows how they split from their friends and party affiliations to advocate ideas that seemed wild at the time but which later became accepted by mainstream *Oratorical Encounters* Halford R. Ryan, 1988-02-24 The first of its kind in the field of rhetoric this book examines important speech encounters in the political life of twentieth century America The essays focus on significant speakers who have delivered political accusations against their opponents and on the orators who in turn have delivered apologies in order to protect their political standing The essays treat these speech encounters as oratorical confrontations Both accusatory and defending speeches are used to illuminate one another and to provide unique insight into the outcome of the encounters themselves Each essay concludes with a bibliography of research materials sources and locations of speech texts
