Robert Menzies 1944 1978:

Australia's Forgotten Soldiers in the Empire, 1939-1947 Lee Rippon, 2024-08-02 This book explores how Australia managed the prisoner of war issue throughout the Second World War and the immediate post war period It examines how the Australian government responded to the captivity of thousands of Australians in Italy and the detention of an even greater number of Italians in Australia The war it finds created a series of diplomatic and political challenges for belligerent governments including Australia The author contends that Australia's response was guided not only by other pragmatic considerations such as reciprocity the practicalities of war and importantly national interest The Australian government was not the only one to manage its prisoner of war policy in this way By exploring the Australian government's relationship with Britain as part of the British Empire this book clarifies under what circumstances and to what extent Australia sought to assert a level of independence in pursuing its national interest even when that approach did not align with British policy

A Concise History of Australia Stuart Macintyre, 2015-10-09 Australia is the last continent to be settled by Europeans but it also sustains a people and a culture tens of thousands years old For much of the past 225 years the newcomers have sought to replace the old with the new This book tells how they imposed themselves on the land and describes how they brought technology institutions and ideas to make it their own The fourth edition incorporates the far reaching effects of an export and investment boom in the early years of the twenty first century that lifted Australia to unprecedented prosperity The sale of minerals and energy enabled the economy to withstand the global financial crisis of 2007 08 but there was no agreement on how the wealth was to be managed and its benefits distributed The book describes a continuing search for solutions to climate change the unauthorised arrival of refugees Indigenous disadvantage and generational change Pivot of Power Paul Strangio, Paul 't Hart, James Walter, 2017-08-28 The prime ministership remains the main prize in Australian politics but it is a precarious one Leadership turnover in recent years has seen more prime ministers rise and fall than at any time since the decade after federation What explains this volatility The Pivot of Power is the second volume in a unique blend of collective biography and institutional history that shows the skills limitations and passions of incumbents are only part of the story The ways in which prime ministers thrive and fail are influenced by the resources at their command the evolving nature of the parties they lead the daunting public expectations they face under a relentless media gaze and the challenges that history throws at them Recent changes in these areas have had a destabilising effect and made the role of prime minister more onerous than ever After decades of strong national leadership the office has rarely seemed quite so confounding as it does for its contemporary holders The Pivot of Power explains how this has come about And its rich account of prime ministerial fortune since the mid twentieth century yields historical lessons for overcoming the current malaise

An International History of the Cuban Missile Crisis David Gioe, Len Scott, Christopher Andrew, 2014-06-05 This edited volume addresses the main lessons and legacies of the 1962 Cuban Missile Crisis from a global perspective Despite the

discoveries of recent research there is still much more to be revealed about the handling of nuclear weapons before and during the Cuban Missile Crisis CMC Featuring contributions from a number of eminent international scholars of nuclear history intelligence espionage political science and Cold War studies An International History of the Cuban Missile Crisis reviews and reflects on one of the critical moments of the Cold War focussing on three key areas First the volume highlights the importance of memory as an essential foundation of historical understanding and demonstrates how events that rely only on historical records can provide misleading accounts This focus on memory extends the scope of the existing literature by exploring hitherto neglected aspects of the CMC including an analysis of the operational aspects of Bomber Command activity explored through recollections of the aircrews that challenge accounts based on official records The editors then go on to explore aspects of intelligence whose achievements and failings have increasingly been recognised to be of central importance to the origins dynamics and outcomes of the missile crisis Studies of hitherto neglected organisations such as the US Defense Intelligence Agency DIA and the British Joint Intelligence Committee JIC both extend our understanding of British and American intelligence machinery in this period and enrich our understanding of key episodes and assessments in the missile crisis Finally the book explores the risk of nuclear war and looks at how close we came to nuclear conflict The risk of inadvertent use of nuclear weapons is evaluated and a new proposed framework for the analysis of nuclear risk put forward This volume will be of much interest to students of intelligence studies international history foreign policy security studies and IR in general

Transition in Power Peter J. Hugill, 2018-08-15 Hegemonic transitions are never clear and they usually emerge from a period of multi polarity in the world system Two types of state tend to contend for power trading states and territorial states although most states are never pure and tend to contain within them multiple polities with different agendas This book describes the hegemonic transition between two major trading states Britain and America British decline began in the late Victorian era but the transition to American power was slow and other states also sought hegemony Transitions between trading states focus on economic struggle though struggles between trading and territorial states and between territorial states are marked by armed conflict In 1919 President Woodrow Wilson saw three arenas of competition developing between Britain and America in international transportation international communication and petroleum But Britain was challenged economically by America as early as 1861 via the Morrill Tariff her economic hegemony was gone by the 1880s and she was defeated by 1947 From the 1880s on both America and Germany sought to replace Britain as hegemonic power not only through their implementation of protectionist economic policies but also through the adoption of revised versions of the world economy through new technologies and in the case of Germany military power Britain struggled to stay in place Britain's world economy was that of a pure trading state Maritime trade in organic materials was organized through global capitalism and control over submarine cable telecommunications rather than territorial possession America's rise was greatly helped by being a capitalist power in possession of a secure territorial base in the mid section of the North

American continent but America suffered from multiple polities competing for power with the South particularly problematic Germany developed a radically new world economy that synthesized resources using organic chemistry German science and technology began to diffuse to American corporate laboratories before World War One After that war diffusion to American laboratories and universities was massive and helped secure American hegemony **Losing the Blanket** David Goldsworthy, 2002 An account of British decolonization and its aftermath It discusses its implications for Australian policies in the key areas of defence in Southeast Asia the politics of the Commonwealth the European Union Australia's own colonial policy and the bilateral relationship with Britain itself *Korea and the Evolution of the American-Australian Relationship, 1947-53* Daniel Fazio, 2023-09-29 Fazio examines the significance of the US Australian Korean engagement 1947-53 in the evolution of the relationship between the two nations in the formative years of the Cold War In the aftermath of World War Two divergent American and Australian strategic and security interests converged and then aligned on the Korean peninsula Fazio argues that the interactions between key US and Australian officials throughout their Korean engagement were crucial to shaping the nature of the evolving relationship and the making of the alliance between the two nations The diplomacy of Percy Spender John Foster Dulles and James Plimsoll was particularly crucial He demonstrates that the American evaluation of the geo strategic significance of Korea was a significant factor in the making of the ANZUS alliance and events in Korea remained central to the evolving US Australian relationship Their Korean engagement showed the US and Australia had similar and overlapping rather than identical interests and that their relationship was much more nuanced and problematic than commonly perceived Fazio challenges the Australian mythology on the origins of the ANZUS Treaty and presents a cautionary insight into the limits of Australia's capacity to influence US policy to benefit its interests An insightful read for diplomatic historians providing greater depth to understanding the broader historical context of the trajectory of the US Australian relationship and alliance since the beginning of the Cold War **Operation Hurricane** Paul Grace, 2023-07-26 SHORTLISTED FOR THE WA PREMIER'S BOOK AWARDS BOOK OF THE YEAR 2024 SHORTLISTED FOR THE MARGARET MEDCALF AWARD 2024 I remember seeing a flash I turned around and heard a roar like a train approaching in a tunnel Then a tremendous crack like a whiplash passed directly overhead I saw a mushroom cloud There was black and white smoke orange and red flames ascending through the centre of the mushroom RAN Able Seaman Vince Douglas participant in Operation Hurricane At 8 00 a m on Friday 3 October 1952 Britain's first atomic bomb was detonated in the hold of a surplus frigate HMS Plym moored in the Montebello Islands 50 miles off the North West Coast of Western Australia The blast vaporised the Plym produced a mushroom cloud 2 miles high and covered the islands and parts of the Australian mainland with fallout The test codenamed Operation Hurricane was the culmination of years of top secret planning in London and Canberra and months of clandestine preparations at the site One of the largest peacetime military operations in Australian history its success shifted the balance of power in the Cold War and briefly rejuvenated the fading British Empire

Painstakingly pieced together from declassified government documents and first person accounts by surviving participants Operation Hurricane tells the story of Britain's first nuclear test from the point of view of the men on the ground soldiers sailors airmen and civilians It delves into the historical context of the Cold War and examines the controversial legacy of the atomic tests including the impact of fallout on servicemen Aboriginal peoples and the environment and Australia's relationship with the United Kingdom Atomic Thunder Elizabeth Tynan, 2018-07-30 An in depth account of Great Britain's atomic testing efforts in South Australia in the 1950s and 60s and its effects British nuclear testing took place at Maralinga South Australia between 1956 and 1963 after Australian Prime Minister Robert Menzies had handed over 3 200 square kilometres of open desert to the British Government without informing his own people The atomic weapons test series wreaked havoc on Indigenous communities and turned the land into a radioactive wasteland How did it come to pass that a democracy such as Australia suddenly found itself hosting another country's nuclear program And why has it continued to be shrouded in mystery even decades after the atomic thunder clouds stopped rolling across the South Australian test site In this meticulously researched and shocking work journalist and academic Elizabeth Tynan reveals the truth of what really happened at Maralinga and the devastating consequences of what took place there not to mention the mess that was left behind Praise for Atomic Thunder Compulsive reading Make that compulsory This is a brilliant book Philip Adams

Menzies at War Anne Henderson, 2014-07-01 In the months following his resignation as PM in late August 1941 Menzies swayed between relief at his release from the burdens of office as PM and despair that his life at the top had come to so little Many followers of Australian political history including Liberal party supporters forget that Robert Menzies had many years in the political wilderness not knowing he would end up being Australia's longest serving prime minister This book focuses on the period between 1941 when Menzies lost the prime ministership to 1949 when he regained it In the interim he travelled around the world spending an extended time in Britain during World War II set up the Liberal Party and the author argues developed the leadership qualities that made him so successful Anne Henderson refers to this time as his real political bleeding 1942 Bob Wurth, 2008-11-01 1942 was the year of Australia's greatest peril as Darwin was destroyed by bombing Australian ships were torpedoed within sight of our coast midget Japanese submarines attacked shipping in Sydney Harbour and the Japanese army invaded New Guinea on its inexorable march south This is the real story of the genuine and imminent threat to Australia in that fateful year On the beautiful Inland Sea of Japan the heartland of the Imperial Japanese Navy and in frenetic wartime Tokyo zealous staff officers and their illogical admirals debated the invasion of an almost defenceless nation The Imperial Japanese Army meanwhile opposed the attack foreseeing a looming military quagmire In Australia Allied defence chiefs all but dismissed the chances of holding Darwin For months Australia's fate hung in the balance 1942 is a story of desperate bravery and criminal stupidity Most of all it is the story of Australians left high and dry under the looming shadow of a terrible invasion and the steps that an inexperienced leader John Curtin took to save his

country in its darkest days Spies and Sparrows Phillip Deery,2022-02-01 In the wake of the Second World War and the realisation that the Soviet Union had set up extensive espionage networks around the world Australia responded by establishing its own spy hunting agency ASIO By the 1950s its counterespionage activities were increasingly supplemented by attempts at countersubversion identifying individuals and organisations suspected of activities that threatened national security In doing so it crossed the boundary from being a professional agency that collected evaluated and transmitted intelligence to a sometimes politicised but always shadowy presence monitoring not just communists but also peace activists scientists academics journalists and writers The human cost of ASIO s monitoring of domestic dissenters is difficult to measure It is only through recovering the hidden histories of personal damage inflicted by ASIO on both lawful protesters and in some cases its own agents that the extent can be revealed By interrogating the roles of eight individuals intimately involved in the conduct of the Cold War and drawing on many years of research Phillip Deery s *Spies and Sparrows* ASIO and the Cold War shines a powerful new light on the history of ASIO and raises important and enduring questions about the nature and impact of a state s surveillance of its citizens **The US, the UN and the Korean War** Robert

Barnes,2014-02-28 Military social and economic historians have long appreciated the significance of the conflict in Korea in shaping the post war world The policy of containment was formed China was established as an important military power and the US increased its military expenditure fourfold as a result of a conflict which killed over 33 000 Americans What has been less appreciated is the role played by the United Nations and the British Commonwealth in influencing US strategy at this time of crisis the Truman administration invested time and effort into gaining UN approval for the conflict in Korea and the course of the war was adapted to keep UN allies often holding crucial strategic positions in other Cold War theatres in tow Robert Barnes develops a fresh perspective on these fluctuating relationships the tensions between Washington and its British Commonwealth allies and their impact on the direction of the conflict in order to challenge the common view that the United States was able to use its dominant position within the UN to pursue its Cold War ambitions with impunity This important new interpretation is supported by evidence from a wealth of sources from official government records to private papers and memoirs written by the most important American and Commonwealth personalities directly involved in shaping the UN s response to the conflict This study presents a thorough deconstruction of the decision making process behind US handling of the Korean War from the outbreak of conflict in 1950 to the Geneva Conference of 1954 This will be essential reading for students of International Relations Cold War Studies and modern History *The Liberal Mind in a Conservative Party* Geoffrey Robinson,2025-06-17 Robinson analyses the peculiarly Australian intellectual tradition of liberal conservatism within the mainstream centre right Liberal Party of Australia Conservative intellectuals in Australia have forged a pragmatic sceptical and utilitarian liberal conservatism focused on the tasks of government It remains distant both from the romantic and organicist ideas of the populist right and the simplicities of libertarianism Focusing on key figures within this tradition

Robinson tracks the progress of Australian liberal conservatism over the years through its origins in the work of David Hume to the thoughts of Peter Coleman David Kemp and Andrew Norton before moving forward to George Brandis and Gregory Melleuish The Liberal Party of Australia has appealed successfully to the conservative sentiments of voters in a liberal society The Liberal Mind in a Conservative Party tells the story of seven intellectuals who helped make this possible Peter Coleman drew on John Anderson Georges Sorel and Michael Oakeshott to champion neoconservatism He argues that this potent political ideology has shaped a distinct political identity which rejects conservative traditionalism and libertarian economics while defending a pragmatic approach to capitalism A fascinating read for students and scholars of Australian politics this book will also be of great value to readers with an interest in international centre right politics **The Australian Study of**

Politics R. Rhodes,2009-11-11 The Australian Study of Politics provides the first comprehensive reference book on the history of the study of politics in Australia whether described as political studies or political science It focuses on Australia and on developments since WWII also exploring the historical roots of each major subfield The Australian School of

International Relations J. Cotton,2013-07-10 This book offers the first comprehensive account of the emergence of the IR discipline in Australia Initially influenced by British ideas the first generation of Australian international relations practitioners demonstrated in their work a strong awareness of the unique local conditions to which their theorizing should respond **Strategic Narratives, Public Opinion and War** Beatrice De Graaf,George Dimitriu,Jens

Ringsmose,2015-02-11 This volume explores the way governments endeavoured to build and maintain public support for the war in Afghanistan combining new insights on the effects of strategic narratives with an exhaustive series of case studies In contemporary wars with public opinion impacting heavily on outcomes strategic narratives provide a grid for interpreting the why what and how of the conflict This book asks how public support for the deployment of military troops to Afghanistan was garnered sustained or lost in thirteen contributing nations Public attitudes in the US Canada Australia and Europe towards the use of military force were greatly shaped by the cohesiveness and content of the strategic narratives employed by national policy makers Assessing the ability of countries to craft a successful strategic narrative the book addresses the following key areas 1 how governments employ strategic narratives to gain public support 2 how strategic narratives develop during the course of the conflict 3 how these narratives are disseminated framed and perceived through various media outlets 4 how domestic audiences respond to strategic narratives 5 how this interplay is conditioned by both events on the ground in Afghanistan and by structural elements of the domestic political systems This book will be of much interest to students of international intervention foreign policy political communication international security strategic studies and IR in general **International Law in Public Debate** Madelaine Chiam,2021-12-09 A history of international law in public

debates and its resulting popular language of international law The Oxford Handbook of Political Leadership R. A. W. Rhodes,Paul 't Hart,2014-05-29 Political leadership has made a comeback It was studied intensively not only by political

scientists but also by political sociologists and psychologists Sovietologists political anthropologists and by scholars in comparative and development studies from the 1940s to the 1970s Thereafter the field lost its way with the rise of structuralism neo institutionalism and rational choice approaches to the study of politics government and governance Recently however students of politics have returned to studying the role of individual leaders and the exercise of leadership to explain political outcomes The list of topics is high endless elections conflict management public policy government popularity development governance networks and regional integration In the media age leaders are presented and stage managed spun DDLas the solution to almost every social problem Through the mass media and the Internet citizens and professional observers follow the rise impact and fall of senior political officeholders at closer quarters than ever before This Handbook encapsulates the resurgence by asking where are we today It orders the multidisciplinary field by identifying the distinct and distinctive contributions of the disciplines It meets the urgent need to take stock It brings together scholars from around the world encouraging a comparative perspective to provide a comprehensive coverage of all the major disciplines methods and regions It showcases both the normative and empirical traditions in political leadership studies and juxtaposes behavioural institutional and interpretive approaches It covers formal office based as well as informal emergent political leadership and in both democratic and undemocratic polities
