Roberto Marinho:

Media Power and Democratization in Brazil Mauro Porto, 2012-09-10 In this book Porto analyzes the role of TV Globo in the democratization of Brazil TV Globo one of the world's largest media conglomerates has a dominant position in Brazil's communications landscape It also exports telenovelas to more than 130 countries and has established joint ventures with transnational media conglomerates Beginning in the mid 1990s TV Globo began a process of opening replacing its authoritarian model of journalism with a more independent reporting style Representations of Brazil in prime time telenovelas have also shifted Given this shift Porto considers some of the following questions What explains these changes in Brazil's most powerful media company How are they related to processes of political and social democratization How did TV Globo's opening affect Brazil's emerging democracy especially in terms of the quality of political accountability mechanisms Porto uses the Brazilian case of TV Globo to analyze the larger links between democratization civil society mobilization and media change in transitional societies

Carlos Lacerda, Brazilian Crusader: The years 1960-1977 John W. F. Dulles, 1991 Journalist and spectacularly successful governor Carlos Lacerda was Brazil's foremost orator in this century and its most controversial politician He might have become president in the 1960s had not the military taken over In the second and final volume Dulles explores the political and private life of Lacerda from 1960 when he became governor of Brazil's Guanabara state until his death in 1977 Dulles focuses particularly on the years 1960 to 1968 in which Lacerda played a central role in some of the most drastic political changes that Brazil has experienced in this century

A Death in Brazil Peter Robb, 2014-07-08 Delving into Brazil's baroque past Peter Robb writes about its history of slavery and the richly multicultural but disturbed society that was left in its wake when the practice was abolished in the late nineteenth century Even today Brazil is a nation of almost unimaginable distance between its wealthy and its poor a place of extraordinary levels of crime and violence It is also one of the most beautiful and seductive places on earth Using the art food and the books of its great nineteenth century writer Machado de Assis Robb takes us on a journey into a world like Conrad's Nostromo A world so absurdly dramatic like the current president Lula's fight for power that it could have come from one of the country's immensely popular TV soap operas a world where resolution is often only provided by death Like all the best travel writing *A Death in Brazil* immerses you deep into the heart of a fascinating country

Brazillionaires Alex Cuadros, 2016-07-12 For readers of Michael Lewis comes an engrossing tale of a country's spectacular rise and fall intertwined with the story of Brazil's wealthiest citizen Eike Batista a universal story of hubris and tragedy that uncovers the deeper meaning of this era of billionaires **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE FINANCIAL TIMES** When Bloomberg News invited the young American journalist Alex Cuadros to report on Brazil's emerging class of billionaires at the height of the historic Brazilian boom he was poised to cover two of the biggest business stories of our time how the giants of the developing world were triumphantly taking their place at the center of global capitalism and how wealth inequality was changing societies

Assessing Advances and Challenges in Technical Education in Brazil Rita Almeida, Nicole Amaral, Fabiana de Felício, 2015-10-22. As Brazil is massively investing in a scale up of vocational education and training VET through the national flagship program PRONATEC, this report assesses institutions and policies in VET taking an in-depth critical view of upcoming opportunities. It shares international best practices on selected operational issues identified as strategic bottlenecks for the delivery of technical education. The report explores multiple sources of information including a desk review of existing reports and papers, inputs data provided by the Ministry of Education and interviews with multiple stakeholders and practitioners at the federal and state level. The report highlights the need of promoting a better alignment between the supply and demand of skills at the sub-national level and of promoting better a solid monitoring and evaluation system including the monitoring of student learning and of the trajectories into the labor market or into higher educational degrees. Issues of student career guidance and teacher quality also emerge as areas of strategic importance to the Brazilian VET system in the years ahead. We conclude with specific policy recommendations for PRONATEC.

Resisting Brazil's Military Regime John W. F. Dulles, 2010-01-01. Praised by his many admirers as a courageous and fearless defender of human rights, Herclito Fontoura Sobral Pinto (1893-1991) was the most consistently forceful opponent of the regime of Brazilian dictator Getúlio Vargas. John W. F. Dulles chronicled Sobral's battles with the Vargas government in *Sobral Pinto: The Conscience of Brazil*. Leading the Attack against Vargas, 1930-1945, which History Reviews of New Books called a must-read for anyone wanting to understand twentieth-century Brazil. In this second and final volume of his biography of Sobral Pinto, Professor Dulles completes the story of the fiery crusader's fight for democracy, morality, and justice, particularly for the downtrodden. Drawing on Sobral's vast correspondence, Dulles offers an extensive account of Sobral's opposition to the military regime that ruled Brazil from 1964 to 1985. He describes how Sobral Pinto defended those who had been politically influential before April 1964 as well as other victims of the regime, including Communists, once powerful labor leaders, priests, militant journalists, and students. Because Sobral Pinto participated in so many of the struggles against the military regime, his experiences provide vivid new insights into this important period in recent Brazilian history. They also shed light on developments in the Catholic Church. Sobral, a devout Catholic, vigorously opposed liberation theology as well as on Sobral's key role in preserving Brazil's commission for

defending human rights

Mediapolitik Lee Edwards, 2001

Drawing upon his lifelong study of politics and journalism political historian Lee Edwards offers the first scholarly examination of a powerful new phenomenon in world politics the mass media Edwards argues in his far ranging and innovative work that the media have become as important a factor in determining the course of international affairs and the future of nations as economic prosperity military strength natural resources and national will The author calls this vital new component of world politics mediapolitik He uses case studies from around the world to show how the mass media have influenced and even determined the outcome of major political acts such as the collapse of communism in Eastern and Central Europe the Tiananmen Square massacre in China the ousting of Chilean dictator Augusto Pinochet and the political resurrection of South Africa's Nelson Mandela The author argues that these case studies show that the mass media can either enrich or enslave the human spirit depending upon their moral foundation If the media follow a liberal democratic model as in the United States and Western Europe they contribute to a free and just society If they follow an authoritarian model as in South Africa before Mandela or a totalitarian model as in Saddam Hussein's Iraq or Fidel Castro's Cuba they perpetuate the regime in power and deny the fruits of freedom and democracy to the people Edwards addresses the question of how responsibly the American media the most influential media in the world handle their enormous power Using the results obtained from his survey of 100 leading journalists as well as close analysis of major news stories of the last decade the author confirms the rampant cynicism of the American media and its deleterious effect on American politics and government The solution he suggests is that American journalists must practice moral responsibility and strengthen the liberal democratic model of mediapolitik around the world

ABOUT THE AUTHOR Lee Edwards is senior fellow at the Heritage Foundation and adjunct associate professor of politics at The Catholic University of America He is senior editor of The World magazine and author or editor of numerous books including The Collapse of Communism The Conservative
