Russia In Transition 1905-1914 Evolution Or Revolution:

Russia in the Age of Modernisation and Revolution 1881 - 1917 H. Rogger, 2014-07-30 Hans Rogger's study of Russia under the last two Tsars takes as its starting point what the Russians themselves saw as the central issue confronting their nation: the relationship between state and society and its effects on politics, economics and class in these critical years.

Russia in Transition, 1905-1914 Robert Hatch McNeal, 1970 *The Course of Russian History, 5th Edition* Melvin C. Wren, Taylor Stults, 2009-01-08 Now in its fifth edition, this definitive history of the Russian land and people builds on its success as a fascinating survey of two thousand years of struggle to harness vast resources and talents into a powerful and cohesive nation. From its beginning as a savage and exotic land, Russia underwent a complex evolution of political, social and religious forces; the barbarism of its internal conflicts in seeming contradiction with its goals to advance in the realms of technology, art, education and high culture. From the conflicts of the fantastically wealthy ruling class to the poor and oppressed masses emerged the Communist party and the enigmatic figures whose charismatic manipulation of political power reflected the myriad rulers before them. Finally, as the modern world watched this great entity collapse in a devastatingly brief time, millennia of precarious conflict proving too much for the tenuous coalescence of twentieth-century politics. Written in an engaging and accessible style, this text presents students with a comprehensive look at the momentous events and legendary figures which helped shape Russia's turbulent history.

The Origins of the Russian Revolution, 1861-1917 Alan Wood, 2004-06-01 Alan Wood provides a concise introduction to the Russian Revolution and its origins, dating back to the emancipation of the Russian peasant serfs in 1861. The third edition of this successful pamphlet brings the historiography up to date to include the multitude of research in the last ten years that followed the collapse of the Soviet Union and the opening up of the archives.

The Origins of the Russian Revolution Alan Wood, 2002-01-04 Looks at the roots of what has been described as the most important political event in the history of the twentieth century: from the emancipation of the serfs in 1861 to the Bolshevik uprising in 1917.

Iran and the Muslim World: Resistance and Revolution N. Keddie, 1995-04-03 This book consists of a series of interrelated chapters analyzing why Iran, among all countries, has seen so many revolutionary movements in the past century; the degree to which its religion, Shi'ism, is revolutionary; and the history of revolutionary and resistance movements in the modern Muslim world. The author stresses historical change, such as the change of Twelver Shi'ism from political quietism to revolutionary opposition, and also previously unnoticed factors in revolution, such as the multi-urban character of all Iran's modern revolutions.

Development of Russia 1905-1914 Margaret Miller, 2017-02-17 This book originally published in 1926 but updated in 1967 analyses Russia's economy in the decade preceding the outbreak of the First World War It covers trade finance transport and industry and each chapter is supported by statistics drawn from Russian and international sources The introduction to the second edition links pre 1917 development with late twentieth century economic change and in so doing serves as a guide to assessing Soviet Russia's internal economic problems against the country's historical background **The Russian**

Revolution and Civil War 1917-1921 Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917-1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state
